VIA SMS & ELECTRONIC MAIL

I cannot be complicit in the production or dissemination of pornographic films and literature, for moral and religious reasons, but also because such material and the kind of people invariably involved in its production represent an imminent danger to my life as a recovering addict and an unacceptable risk to my spiritual and physical health as a former homosexual.

I tender my resignation. I will deliver an orderly handover by Friday, May 31, 2024, or the first pornography shoot, whichever is sooner. If, at some time in the future, the company publicly and permanently abandons any plan to produce, distribute, or profit from obscene content, it would be an honor to serve you again.

Yours,
