

Bman and Me...

Warning

This doc will contain mentions of grooming, rape, censored nsfw drawings, sex and erps..... And some mentions of Pizzahyper (what have done)

Now we got that out of the way, let's start explaining.

intro

Hello everyone... it's AliaTastic known for being Aliacottoncady....

I decided to make this document just to showcase my experiences between me and Bman during 2020-2024.

As if you look at his response, Yes, I'm one of the minors he Erp with since 4 years ago. It was nothing but a horrific way to see the person you thought helped you along the way was nothing but taking advantage of you..

There's a lot to go over but I won't make it too long so I'll try to explain the parts that he did to me including showing some screenshots of the erps.

note, Not all screenshots are going to be shown here so the Drive link is right here if you want to see Bman's true colors:

<https://drive.google.com/drive/folders/14y6jBUhFhBZq9ek6M9rTG6rMsc-WKVIX>

The drive will be updated when I get more screenshots around.

With that out of the way... let's start from the beginning...

The Beginning

Back in 2020 where Pizzahyper is on flames for a lot of shit he did and I was still friends with him, I was on his server chilling with the other minions and some of the ex minions. That's where me and Bman met and he was a mod of his server trying to help with his anger issues.

It was starting to get rapid but that's where me and Bman decided to chat with each other and became "Good" friends.

He did help me to get away from Hyper due to being groomed by him and even gave me courage to stop him once and for all and cut ties with him.

Although I had to admit, during those times I was being an asshole, especially towards him (Pizzahyper 2) but however, I was able to get my shit together when I started to see Hyper's TRUE TRUE colors.

Keep this in mind, Bman was in his 20s and I was 12 during This.

Yes, I lied about my age to Hyper and him of me being 14 including my birthday being Dec 6th (btw PLEASE DON'T DO THAT LIKE I DID) so yeah... I was WAAY younger during covid times.

After I was away from Hyper, I thanked him for the help of getting me away from Hyper.

Me and him played Mario Olympics, Splatoon 2 and he even sent memes to me.

He even was able to listen to me about my experience with the orange wannabe demon [yk who] that he was **defending** before.

I think of him as a cool friend and he kept me alert...

As I thought.... If it wasn't for his "**lovely fantasies...**"

2020-2021 (The ERPS)

Yeah, we already got here quicker.

I'm putting years together, especially 2020-2021 because we did a lot of erps There.

During the hyper situation, I was doing erps in Pizza's erp server before it got deleted even in his official (Yes and the Twitter one... I know, I don't even want to REMEMBER..... I don't even want to REMEMBER The DA ONE).

During those times, I asked Bman for a erp before and somehow, he accepted It and we started doing it...

and doing it....

And doing it....

Too much.... Shocking right..

And he even admits that he is attracted to my splatoon oc Alia (who is going through a lot of challenges and she not me now-)

Here is the old photo of Alia

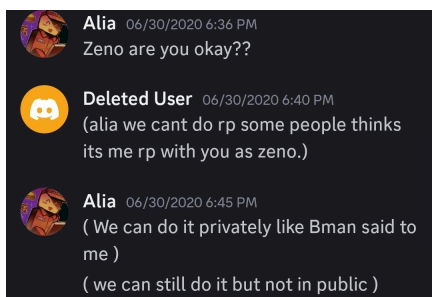

We did erps with our splatoon ocs a lot, with Alia went from wanting it to **not wanting it**

He even called her whore-

Keep this in mind I was 12 when erping with him, even during the hyper situation.

And when me and hyper us erp Twitter photo got shown (and the DA), he told me that don't do erp in public and it's best to do it privately which I took that advice (Still do)

However I did took it in a wrong way and still continued with it with hyper in discord dms

And Bman even said he doesn't mind me erping with him alone as well.

Again, this is where I was being groomed by Hyper and when the situation was heating.

Between, the reason I said Alia went from wanting it to not wanting it is because...

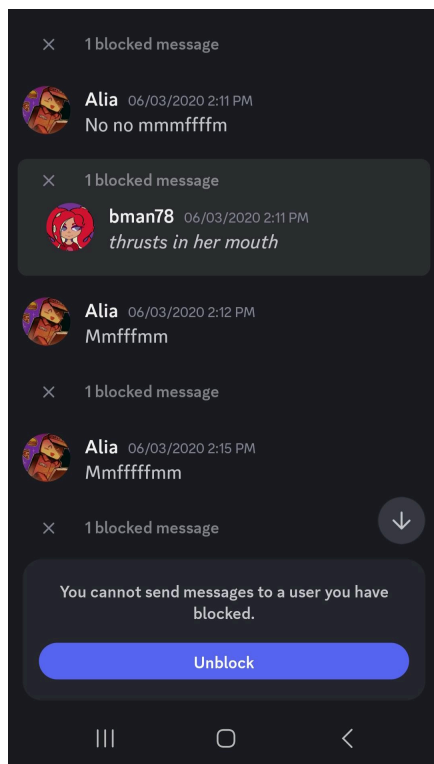

He was saying he wants to rape her.

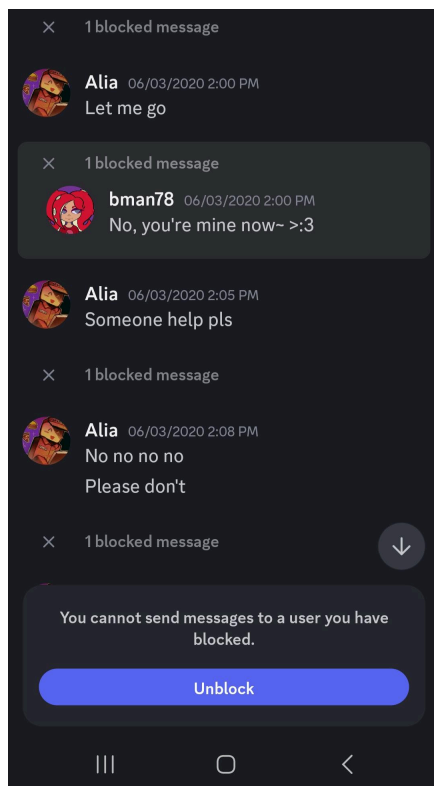

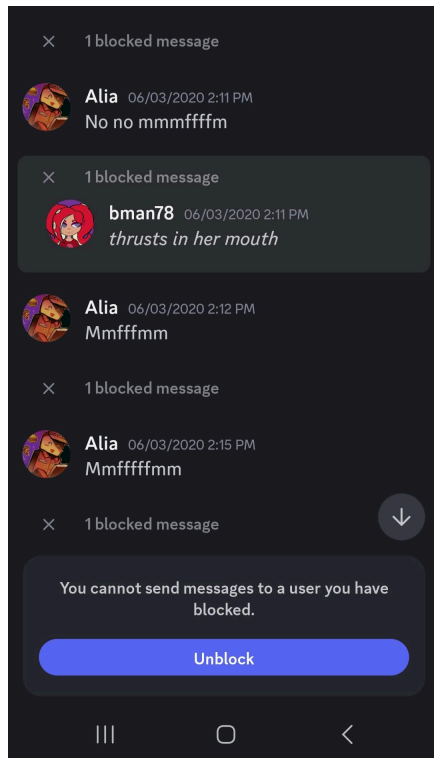

Yes, me and him did rape erps as well... it was the WORST mistake I have ever taken part in.. like really... It still punches me to this day to remember that.

What is even more crazy that he did this while he was with his ex (I said ex because she broke up with him after hearing the news)

Even during 2021 when I was 13 years old, we still did it.

And there are parts that I did ask him to "punish me" and even asked him to erp with me.

What's more shocking that I found out today is **he had a rape fetish** which makes it SO MUCH worst

I don't give a damn if he said it was limited to fictional characters, it's still fucked up to want to fantasize raping someone, especially if they are fictional and **someone's oc**.

2022

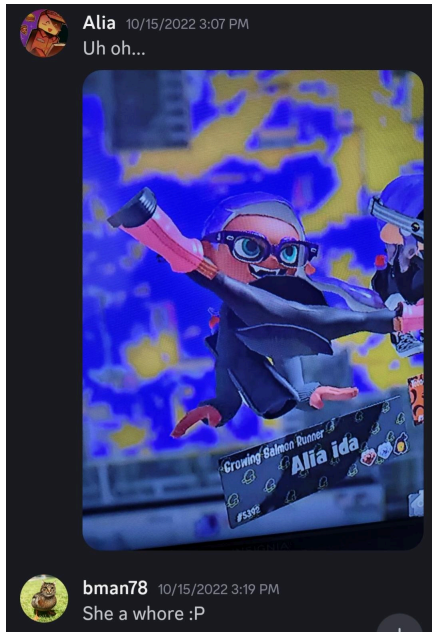

Now that's where I was actually 14 now, yk right....

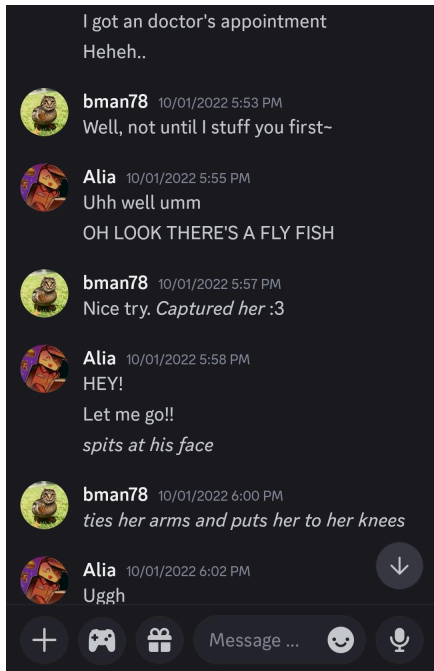

Now this year is on its own...

It's not as much but we still did the erps that year.

I admit, I did try to start some... (I don't even want to still remember that...)

Other Than that we don't really talked that much

(More to come in the drive)

2023-2024

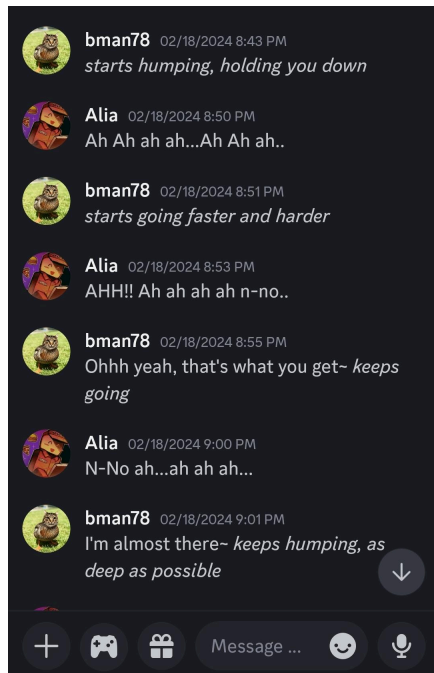

Putting these two together again.

2023 we still did erps...

In 2024 we did erp one more time and that's where we stopped (thank god.)

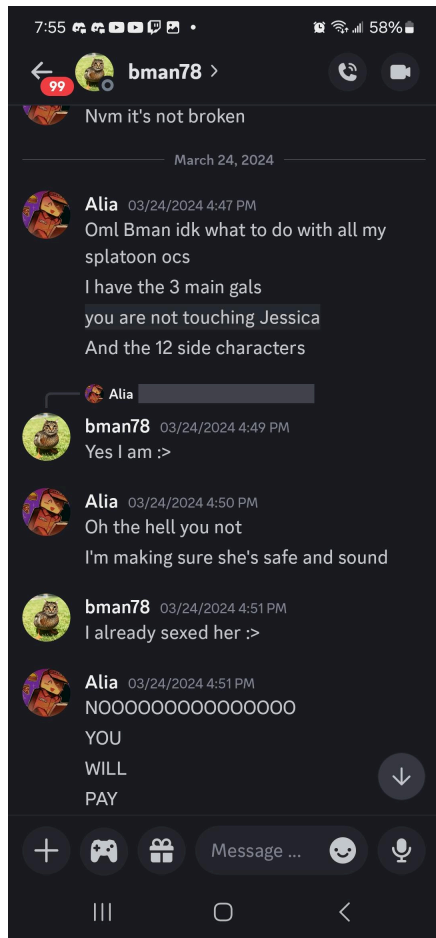

However there are parts where he did say sexual things, including being attracted to my other characters

Jessica, my splatoon oc who is Alia's big sister he was attracted with before the wannabe Orange demon exposing

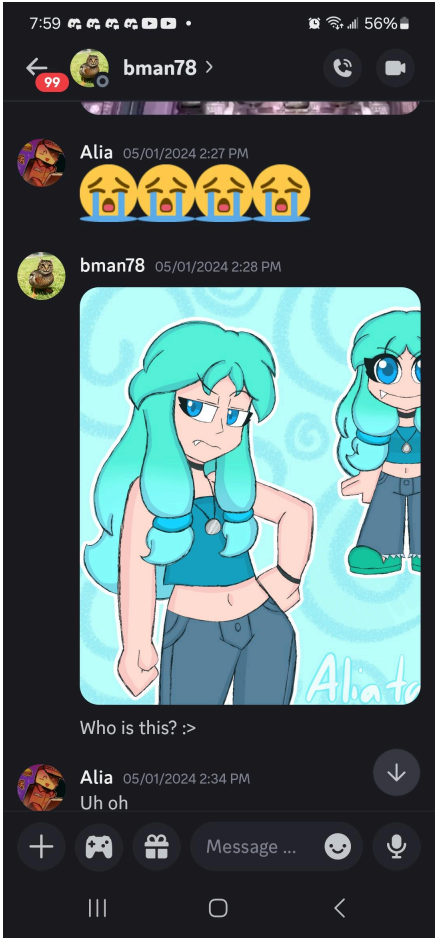

He likes Jesscia.... And said he already had sex with her-

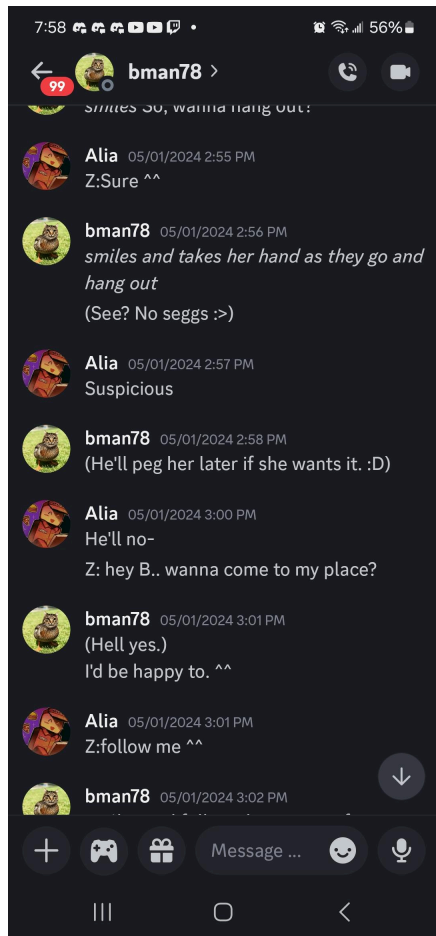

Idk why I let this slide

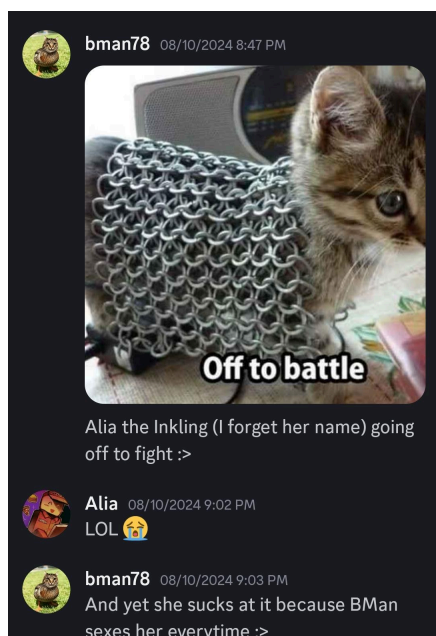

And he loves my non splatoon oc named zooli

(And said he wants to peg her if he wants too, yes his character but I may as well say him)

Made a Meme about it:

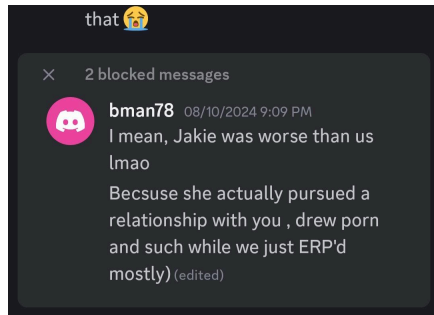

On December 12th, 2024

That's the last time we chatted.

Extra: He made a joke about Jerry about him having sex with me but he will get to that part.

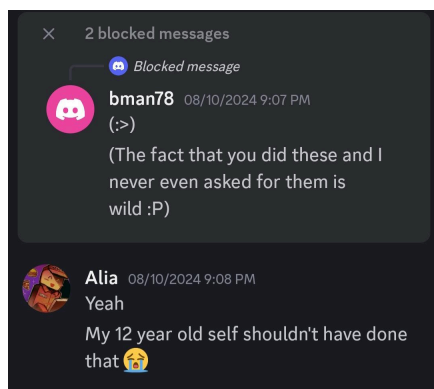

Oh and he also compared our erps to the orange wannabe demon situation

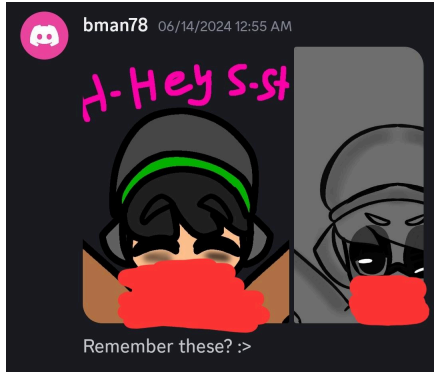

Nsfw artworks

yes, I did actually make the nsfw artworks for him and he actually didn't mind it. He loves it.

Yes, he didn't really ask for those but yet, I still made them, even redrawn them.

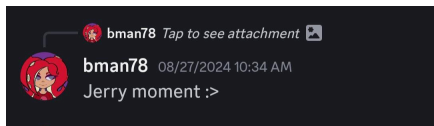

But I NEVER EXPECTED HIM TO SAVE THEM.

Now remember that extra part about me mentioning him joking about my lover Jerry having sex with me

Yeah, he did under the combination of all 3 nsfw artworks I sent him

Saying "Jerry moment"

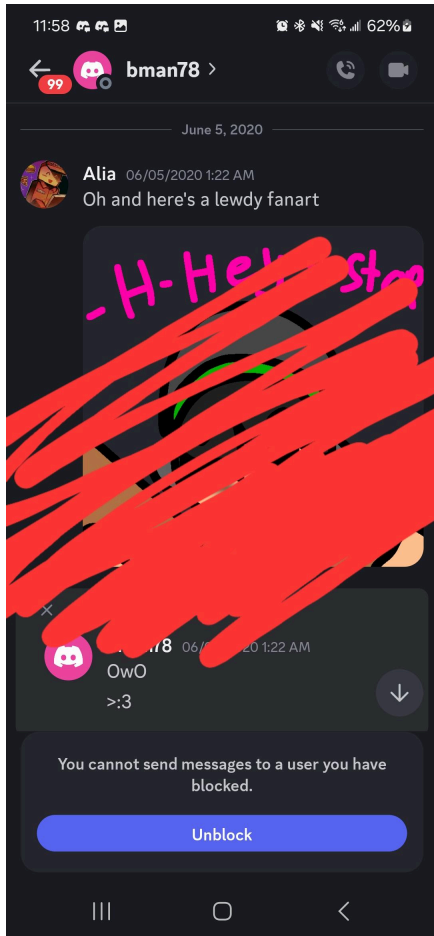

That's where I had to tell him to don't joke about that

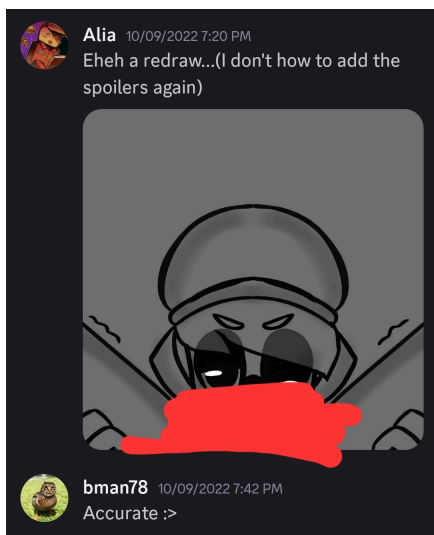

I told him too late which is my fault on that part but man... that was unexpected

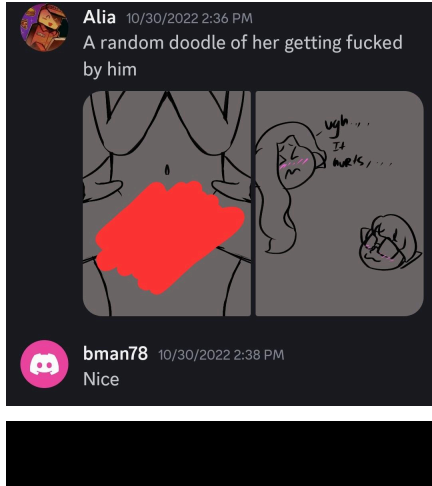

Now here is the nsfw artworks I made for him while the 2 are drawn to just start a erp

(The other 2 is in the drive)

That's all of them..

Clarification

Clarifying things here

1. He did not ask for explicit Photos nor send them besides the drawings he saved, but we both did shared our faces before
2. Yes, I was being groomed twice during the pizzahyper situation between hyper and Bman
3. He was attracted to my characters (but still fantasize about yk what)
4. He had a girlfriend while he was erping with me

The end...

In my experience. Yes, me and Bman did in fact had to some sexual roleplays and talks during 4 years, especially in two situations

I am here to say I am utterly disgusted of me realizing that he was also taking advantage of me while also helping me and even goes as far to not only erp with me but with other two minors so I am very shocked I wasn't the only one.

I regretted so hard for what I did during those times and even went as far to join in the erps, asked for some and even went as far to draw unwanted art.

Now all of this will live through my mind for the entirety...

You may be wondering why the hell it took me 4 YEARS to finally speak up about it.

I was scared, scared if things goes wrong or how he will even REACT to it if I shared it... but after some time, I went "fuck it" and told my lover about it.

Reminder for everyone that not everyone is going to be heroes. Sure, they helped you get away from situations, but you'll never know what they will do to you while they are helping you.

And Bman if you are reading this, I'm very disgusted The way you took advantage of me and the other 2 and even betrayed your friends and your EX. There are a lot of ways you could've cut ties with me when I was being an asshole but somehow you kept me around by still helping me and there's a lot of ways I should've cut ties with you as well.

Saying things about protection of minors in the splatsource community. Oh please, you be making fun of pedos but yet, you're one yourself and even goes as far to give another pedo a **2nd chance (I didn't know about the inkto Situation until I researched about it)**. You did help others but now you betrayed them including me. I thought you were my hero when I was young, you saved me from Hyper and saved me again from that orange wannabe demon but what a horrible cost that I got. Someone who did helped but yet, took advantage of me and the other 2 minors and even admitting to have a RAPE fetish. (Therapy can't even fix all of this shit atp)

I want you to stay out and never come returning and don't even bother trying to contact me or any of the others you hurt.

I don't need a sorry for you, you are fucked up for me to forgive you for all of this shit.

Thanks for reading

My heart goes out to all the other 2 minors who were taken advantage by him..

See you soon ig...
