Zoophilia:

While there are many definitions known out there, Zoophiles are known Animal rapists who pride themselves in harassing minors and abusing Children for a sick form of “activism”

What do we do?

Our account (Zoophile Struggle Tweets) brings awareness to Zoophiles and Pedophiles on Twitter, what they are doing and trying to promote. We in no way endorse harassment or death Threats.

While there are two moderators on ZST, we both strive for the same outcome, to get zoophiles off of multiple platforms, educate, and value individuals safety above all.

How it all Began:

On March 30th I outed one of Zrcalos friends for grooming a 16 year old by the name of Hector.

The person I outed was Blumiere aka Dramahound_ On Twitter.

Zrcalo came in and immediately started to defend Blumiere's actions even though he's a nazi racist diaper cub fetishist who shits his own pants.

This got to the point of where Zrcalo even offered us money to take the post down.

More information:

Further digging we found that Zrcalo was not only friends with Blumiere but a ring leader to the “alt right furry raiders” That was originally created to out Kero the wolf. Considering Kero is still free, we can tell how that all went. Zrcalo went along and started to defend Kero at one point.

This Furry raiders group was ran by many Verified pedophiles, some who got arrested, many minors got groomed into degeneracy fetish kinks like nazi cub:

Just know, this is a BRIEF description of the group, this doesn't even compare to the amount of degeneracy in there.

A doxing op was done with a long time underage nazi fetish twink. He was groomed into the alt furry circle at age 15.

Gavin's doxing went almost unnoticed elsewhere but generated salt and REEEE among his friends about calling the internet police and threatening suicide. Gavin was rebuked for sparging out.

"We're working with zoophiles to out the zoosadists. clean up your own community..."

Now that you mention it, we've actually been doing that since before most folks in the furry world were born - but thanks for the reminder of how important it is. We agree 100%: it's core work.

ah good! The morality about zoo isnt something that even is relevant to debate on in this regards. Its important to communicate and aid the community that is facing this terrible thing. to exclude zoophiles would be to shoot oneself in the foot. work needs to get done period.

Blumiere is also a racist shit:

After outing Blumiere:

This is when the targeted abuse started, zrcalo would start making around 5-8 Tweets about us everyday. This confused us on why and how you could defend someone who tried to groom a minor.

It was around this time that I decided to come out about my own abuse I faced when I was very young. Zrcalo used his only tactic and started to call me triggering names, even making fun of my abuse for weeks on end which severely degraded my mental health.

Victim blaming

Common trait among Zrcalo

After stu (a victim of zrcalo's friends grooming who got traumatized) came out against her abusers, Zrcalo started to harass them as well as their friends to get the point across of "well you're a minor it's your fault you interacted with pedophiles/Zoophiles!!" Like minors know when they're getting groomed.

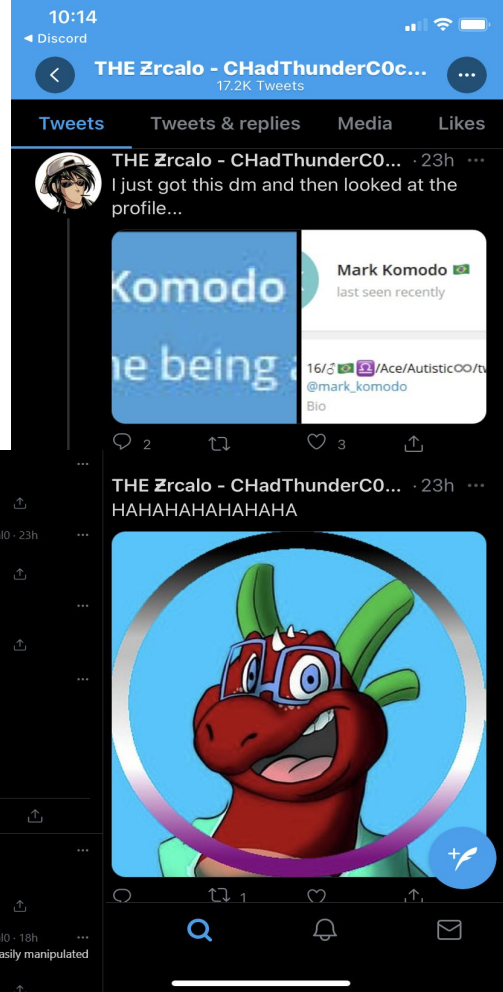

Zrcalo thinks we are minors

Zrcalo this entire time has thought we were 17 year old minors, meanwhile making sexual remarks to us and harassing REAL minors, accusing them of being us

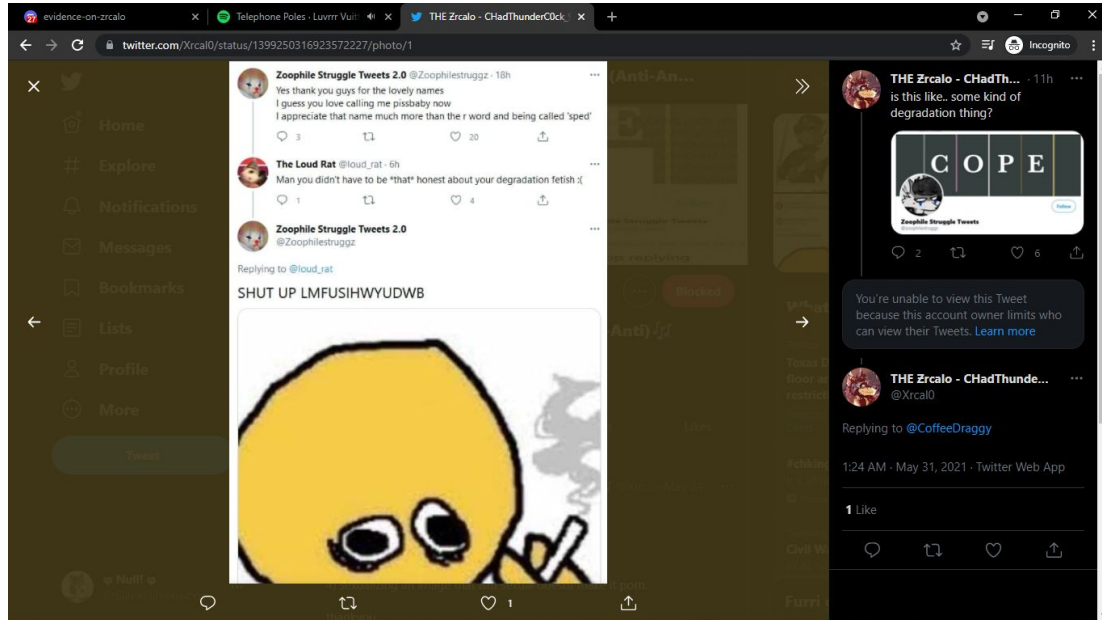

0 Morals.

Zrcalo being a 32 year old man, decided it would be in his best favour to hunt down and harass an autistic 16 year old. This wasn't only two posts. He claims to 'care' so much about minors but god forbid they say anything to him.

Sexual remarks to who he thought was a minor:

God they must REALLY fucking love you at this point, shits actually getting weird.

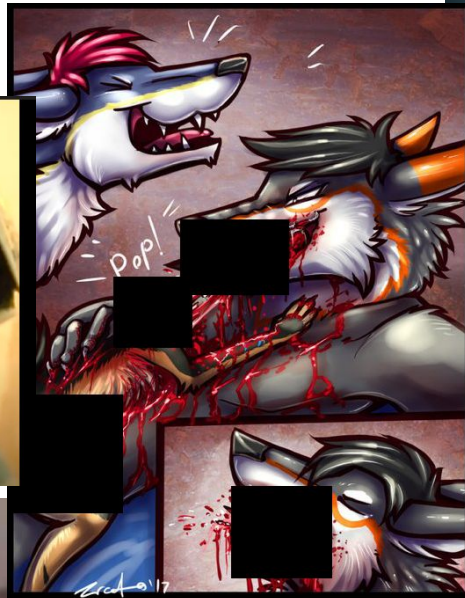

Zrcalo's necro porn fetish:

Zrcalo has made many art pieces and owned many taxidermy animals which he “stuffed himself”

In this censored image, zrcalo draws his character biting off a cubs head and f*cking the neck hole afterwards.

OH here's him kissing a taxidermy fox which he called his “friend”

Zrcalo is into cub:

unpopular opinion, but keeping cub and loli legal
makes real predators easier to catch.

it also doesnt waste resources on cartoons.

Zrcalo believes in white supremacy

His entire twitter page is filled with anti lgbtq+ and preaches white supremacy

<https://t.me/s/ZrcaloEvidence>

Zrcalo sent a minors information to a pedophile:

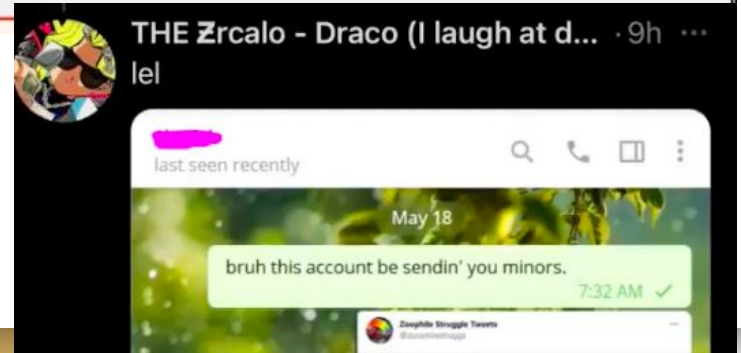

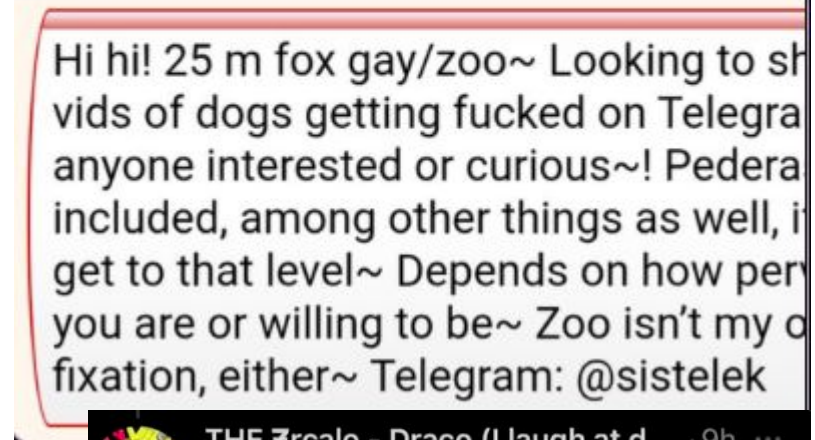

On May 17th we posted a warning to everyone to be careful on twitter.

Zrcalo had a brilliant idea to shar the minors who commented information to a verified pedophile

He confirms it on stream:

<https://twitter.com/zoophilestruggs/status/1396452412454494208>

Although he blames the minor for “interacting with us bringing awareness”

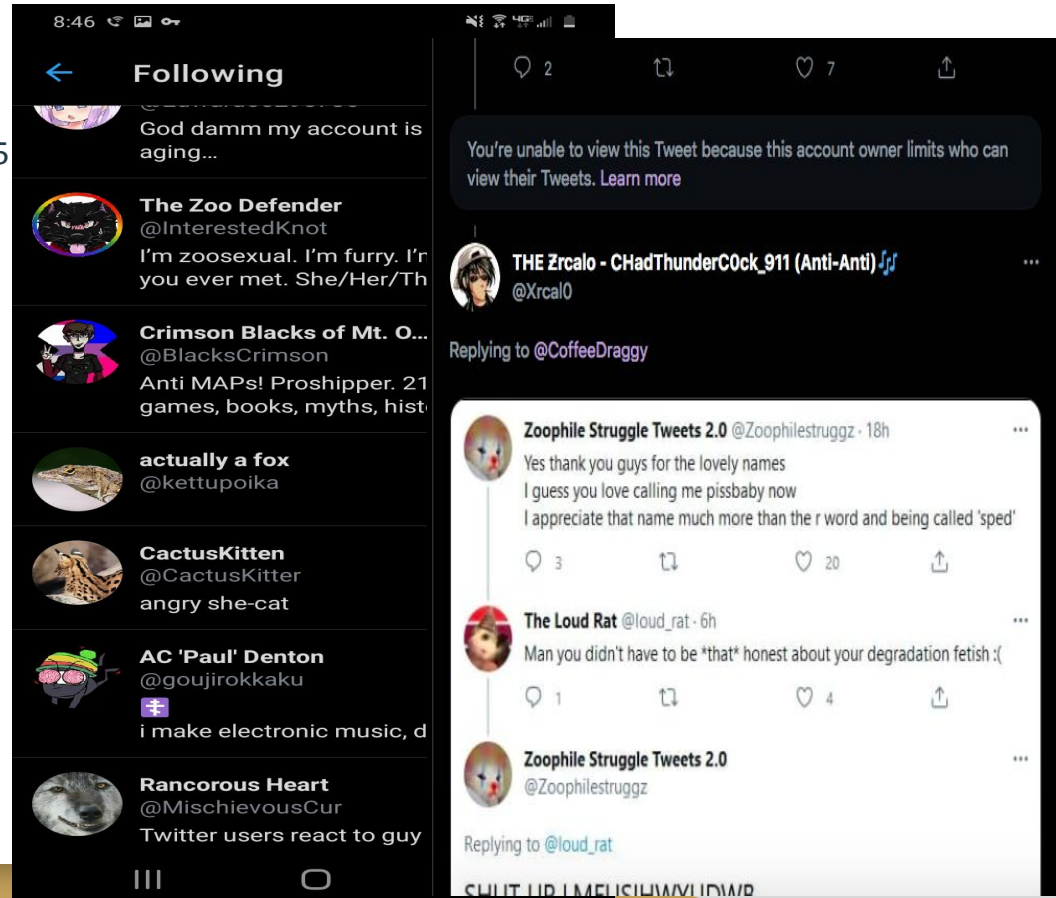

Zrcalo befriends pedophiles and zoophiles:

Coffeedraggy is a known pedophile who sent a 15 year old dildo pictures after admitting to being a pedophile.

<https://twitter.com/zoophilestruggs/status/1399416789063417856>

<https://web.archive.org/web/20210526222357if/https://twitter.com/zoophilestruggs/status/1397647344548687882>

He also follows MANY zoophiles.

Zrcalo caught in his hypocrisy:

He thinks raising awareness to degenerates is grooming meanwhile he does the same thing except decides to protect sexual predators in the process.

This “evidence” was written by a verified pedophile/zoophile named Quantum Kitty who has also sent bestiality to minors for “education” sure....

I do have something new to announce to all of you, this may come as a bit of a surprise but this channel under my direction will move away from exposing pedophiles and zoophiles

The problem with exposing them is that it gives people a network to then contact these individuals and it only breeds more degeneracy. It will only just makes things worse and worse and fighting against it this way will turn someone insane

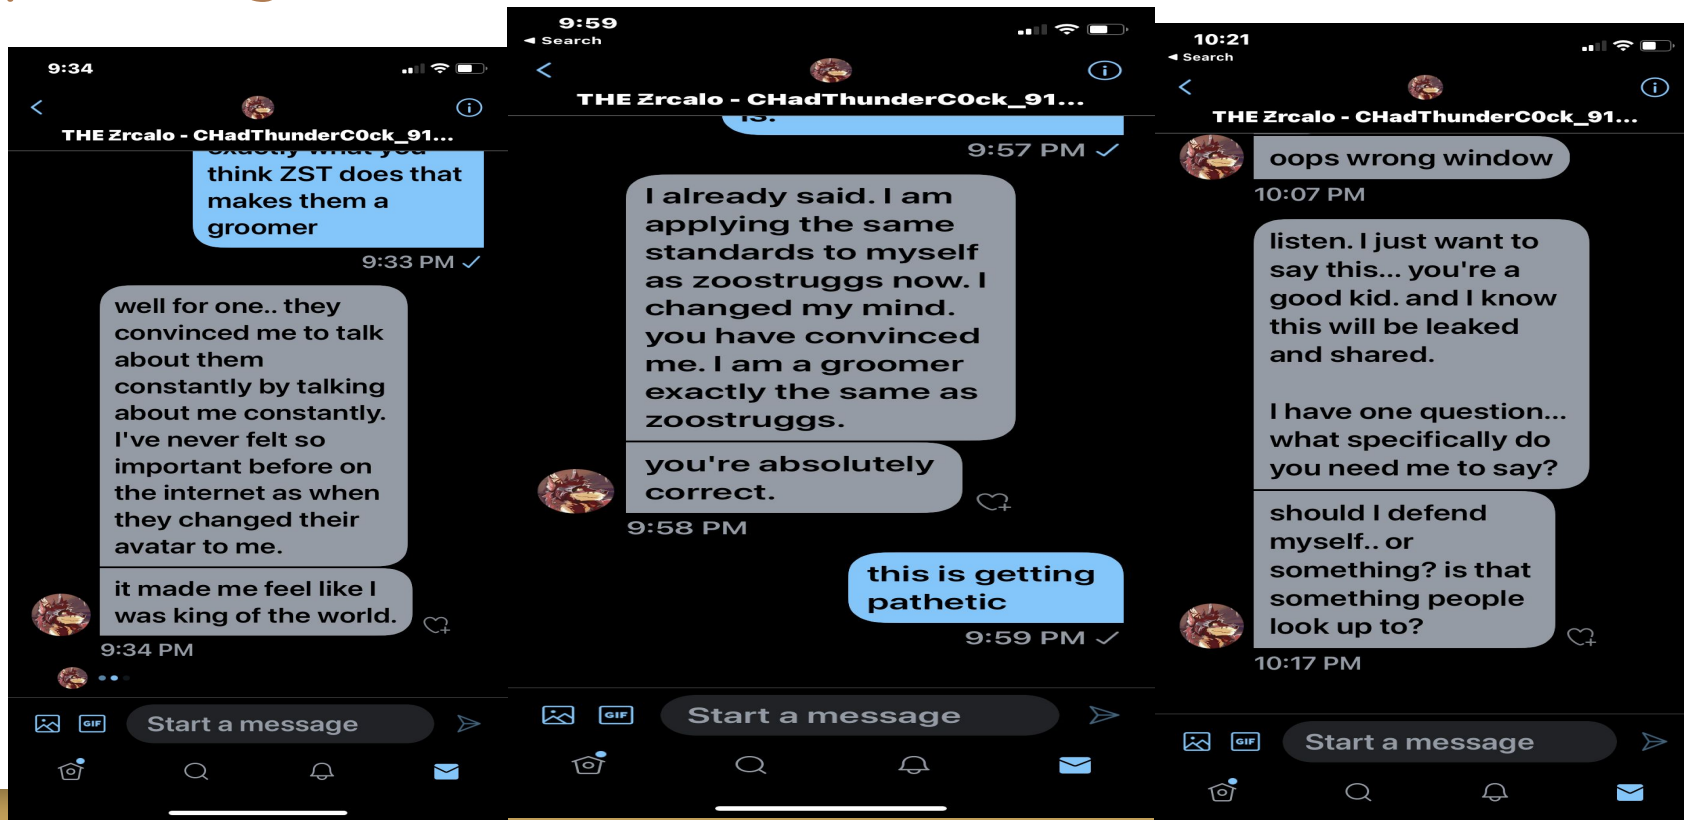

What now? We are going to laugh at spergs and whatnot. I feel this is the right way to go all things considering this channel has already done it's job, I'm simply giving it another that is not as taxing on the soul or mind

👁 401 4:49 AM

An example of another "pedo/zoo" hunter telegram shutting it's doors due to the exact same things that I'm criticizing zoostruggs for.

This is the exact type of behavior that's leading to content being disseminated. At least with EF, minors weren't allowed. 17 👁 06:28

Zrcalo attempting to groom a minor into praising him:

Zrcalo may be abusing his animals:

While this draws a lot of concern, zrcalo recorded his birds bleeding on Youtube and showed 0 reaction to it. Considering he has no problem with zoosadists/zoophiles running free, He wouldn't have any problem with hurt animals

His birds blood on the wall:

A message to Zrcalo.

While I understand your delusional concerns, really. I do not take lightly to slander at all. We originally intended on finding the person who found your city to get a dox for you, but we instead dug ourselves.

If you do not want your FULL address, Car pictures, House pictures, location, previous location, deadname to be leaked. I am willing to strike a bargain with you.

If you do not delete **EVERYTHING** that SLANDERS us on all of your Twitter's and stop harassing our followers we will not leak this information. If you choose to continue on, we will leak it on Kiwifarms & a separate document with everything down to your email.

Note, we are not bluffing, we confirmed your locations by comparing old videos of you as well as your car on google maps. if you want to play the "i'll wait and see" game, you will get your FULL address leaked with pictures of your apartment.
