

DEBUNKING amon/nina's claims

The reentry i wrote they claimed i lied about: <https://reentry.co/adhesive>

I will not be linking the reentry they made about me for reasons but it has been archived in case it got deleted.

TL;DR: I've been stalked and harassed by a group of people for the past few days because they believe that I'm a stalker instead of talking to me about it.

This is my first time making something like this so I'm very sorry for any errors. I thought it would be better to put this in docs rather than a reentry itself because of the amount of pictures and texts. You can take this document however you want but I'd like to clarify some things said in this reentry. I don't mean to write this to "callout" anyone or for ill intentions, but to make clear that the statements made in the reentry they made about me aren't true.

I'm going to make this clear here but PLEASE DO NOT go after or witch hunt ANYONE in this google doc. I did not make this doc to attack anyone but to debunk the reentry nina made about me since it's been shared around. This will be the last time I publicly talk about any of this as well and I advise you to do the same.

I will also state that age does not excuse bigotry and racism. It isn't normal at all and these people know better. They hurt people regardless and their age will never excuse their behavior at all.

TWs for anti-black racism, stalking, harassment, doxxing, threats, self harm and suibaiting.

Before I get into this I am unsure on who wrote the reentry, but it was publicly linked to amon / nina's pony he partially copied from me, and judging by the text I would assume he wrote it.

HARASSMENT

mama u r not getting stalked all we did was laugh at you and you , [redacted] , and [redacted] reported us for 'harassment' :// ,, no one had sent gore/self harm to your boyfriends cbox, your call out reentry is FULL of lies!!!!

“all we did was laugh at you and you , [name] , and [name] reported us for 'harassment'”

“All we did was laugh at you” is an understatement. You didn’t just go /lol, you harassed me. I was sitting with my boyfriend and talking with a friend when you all came up to me and harassed us, telling us to s/h and calling us names. We have no idea who any of you are and none of us said a word to you. I was called “cotton picker” and the hard r after stating my race because they were calling me white.. for no reason at all. That was my first encounter with your group, and almost a day later your entire group harrasses me.

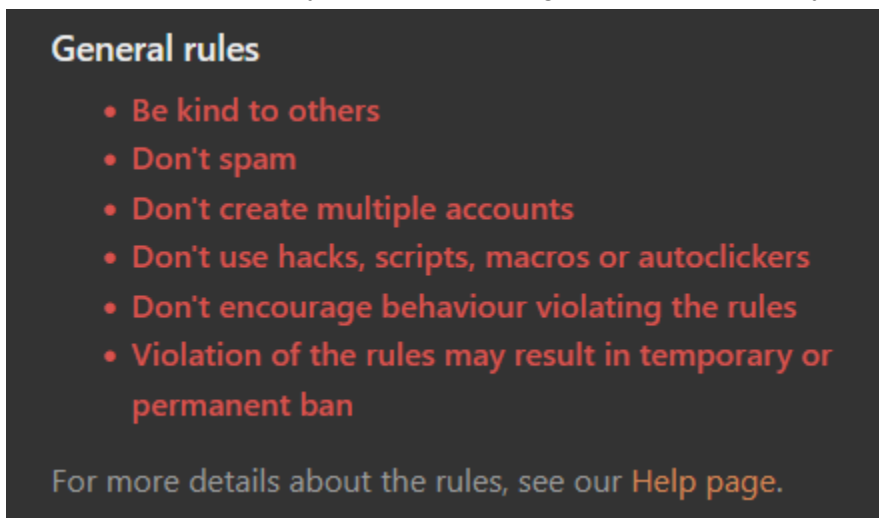

This occurred on 6/18/22, my first encounter with this group.

**reclaiming slurs ≠ using it as a slur against strangers in a negative way.
You were being racist.**

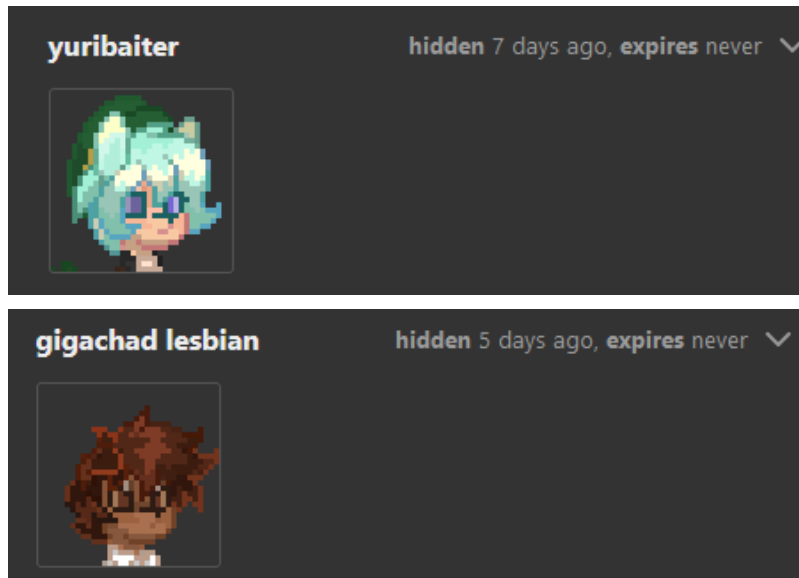

Yes, they did end up getting reported and banned but was it reasonable? Of course. It wasn't a false report at all and if you check the PT general rules it clearly states:

- Be kind to others
- Don't spam
- Don't create multiple accounts
- Don't use hacks, scripts, macros or autoclickers
- Don't encourage behaviour violating the rules
- Violation of the rules may result in temporary or permanent ban

They were not kind to me, created multiple accounts after said bans, encouraged behavior violating rules. They harassed me and called me anti-black slurs. I think it's fair to say you were reported and banned reasonably.

Example of multiple accounts: (this is one of the same people)

You were not reported out of ill intent. You harassed people and broke the rules. That is no one else's fault. You also did this in public so anyone else could have seen the same thing and reported any of you. I wasn't the one who sent in the report though and even so, you can't justify your behavior that day.

6/19/22 second encounter

Their group was bigger this time and when i got on they immediately /loled and harassed me. I wasn't able to get anything clear of what they were saying to me that day because I was on mobile, but it was a big mess. This is the only screenshot I had of them crowding me. I had asked why they hated me so much but they never gave me a clear reason, just made fun of me and I hid them after that.

Is this not harassment?

Cbox incident

telling your bf you arent a stalker so they dont break up with you is very pussy-ish. you're not a good person, and for your bf to close their cbox was a very pussy act as well... calling someone annoying for calling out your friends and your s/o???? very pussy-ish ://

I think my boyfriend is aware I'm not the stalker, in fact he's been stalked as well. We've been dealing with the same stalker for a year now. I also don't think my boyfriend closing his cbox was a "pussy" thing to do. It was the best course of action to stop you guys from harassing him.

"Calling out your friends and your s/o?????" calling out what? The fact that you were banned from a pixel game?

I blocked IPs. Vpns were used either way.

This is a transcript archive of the cbox messages that were later deleted.

TW SELF HARM . i will be blurring/censoring it.

You guys did IN FACT send self harm pictures to his cbox. Not only that but “domi” was telling someone to self harm and over what? Sadly cbox’s archive doesn’t show profile icons, but they also did have gore set as their profiles. They even joked about it.

Stalking and more harassment

you have the nerve to call us stalkers like you didn't stalk ppl yourself (me and somebody else on ponytown). you do not need to act like this it's very annoying , we never told you to slit your wrists or anything like that.
there was one case where i had told [redacted] to relapse and that was it , your friends did NOT need to falsely report my friends because a few of them had hyperfixations on pt!!!!!!!!!! you [redacted] and [redacted] are very obsessive and very annoying!!

You did tell me and other people to slit, it wasn't just the relapse part. No one falsely reported you or your friends. Anything you got banned for, you DID.

Must be awful having to face the consequences of your actions. [sarcasm]

I'm also not stalking anyone? Not sure where you got that conclusion? But I'm not stalking anyone. How is me sitting on a pony game and most of the time going afk stalking? Says the people making multiple accounts and harassing me on default ponies. No one reported your friends because they're hyperfixating on pt. Stop pulling excuses for their behavior.

it is not cool or cool how your just lying about us, like "this is so jarring & fucking weird because **idk these people at all and I haven't talked to any of them until they harassed me**. i haven't done anything to these people at all?" you literally use to stalk me??/ what are you talking about?

I don't even know who you are????

I'm sorry if you got paranoid from me moving around or switching servers, but I'm not stalking you? I'm sorry but I literally do not know you at all and I have no reason to stalk.

Now I don't really have a problem with people taking "inspiration" from any of my reentries, but this is coming from **someone who thinks I'm stalking them**. You copied the same graphics from the same reentry i made for my partner, and again i don't have a problem with people taking inspiration or any of the sorts but you believe im the one stalking you when you're the one copying things from me? It doesn't make sense. [i edited some of the graphics and had resized the doves, the ribbons, flower, and lamb]

Their reasons for harrassing me

to clear all of this up we only make fun of you because

1. your a fucking 22 year old who plays pony town
2. your a creepo stalker??
3. your an ADULT who plays on the pg server

Transcript:

to clear all of this up we only make fun of you because

1. your a fucking 22 year old who plays pony town
2. your a creepo stalker??
3. your an ADULT who plays on the pg server

While I understand it could be odd for me to “play” on the pg server despite the fact that I'm an adult, mostly afk or I'm speaking to a friend that often goes there, I don't go there to “stalk” anyone nor would I stay there for long. I never mean any ill intentions towards anyone, including you.

“Your a fucking 22 year old who plays pony town” alright, wait till they find out the people who made the game are full grown adults. What if I have a hyperfixation on PT??? Am I not allowed to play because I'm an adult?? Why do you think the 18+ server is there??

I play PT with my friends and my boyfriend because I love customization and I love socializing with other people. I've been playing for a long time and **I don't care if you all want to make fun of me for being 22 and playing a pixel game, but accusing me of stalking and doing all these things is not excusable?** You have no reason to be doing all of this to me. I'm not a stalker or a “creep”. You can judge me for whatever but don't accuse me of stalking anyone, especially when I haven't done or seen anything that could remotely say I'm stalking you or anyone else.

More awful things. Obviously stalking on a default. This was also towards me and my friends because they sat in between us before we moved. Not the first time being told to slit !

More joke ponies obviously towards me. Again i don't know where they got the "femstars hater" thing about me from but i never publicly stated i hated femstars.

Trying to get me to join a server which I am aware of now, but I didn't join nor will I ever.

That's all i have to say about this

I won't be talking about this publicly anymore as this is all I have to say and I've shared everything I have. I am not stalking anyone, and if anything I feel like I'm getting mixed up with someone else. I always have my github connected and if anyone is trying to impersonate me, it just isn't me. I've been dealing with a stalker for almost 2 years now and I did not go through all of that just to get told that I'm the one that's stalking. Even if they aren't this person, I'm not stalking anybody. I have no reason to. If you assume someone's stalking you because they're sitting in the same server as you, I really believe you have an issue. I have no ill intentions towards anyone, and I'd like to be left alone. Stop making new accounts and using vpns to harass and stalk me, you're not helping your cause, you're only proving my point.
