@Blav Im not asking for leaks to any images or videos, the things I asked for would be confirmation of the text that Solo is claiming is in the logs. Im happy for them to scribble out the second half of the google link for example (Not that it would still contain anything now anyway).

I'll try and respond to as much as I can from your questions. Below I've attached the Google drive links sent to Rose, all of which are dead now for obvious reasons.

And ooo I'd have to download the app thing or whatever

I'm not russian I was just trolling Sunday hence the black cock I sent him after leading him on for hours, he's been constantly taking shots at me in kuihmans server so I wanted to fuck with him.

On the matter of the "old enough to come here" I was going on memory of my impression of the DMS, I couldn't find a similar quote when ctrl+f searching for keywords, it might be in there, it might not.

On the logs, I don't want to Dox Rose for what I feel are pretty obvious reasons given my posts here explaining. It's not as easy as "just censor stuff" I'm not going to spend hours and hours censoring almost 5000 DM messages I don't have the time nor the motivation to do so.

Not really sure how I can prove the revenge porn angle, it would seem that only the girls involved or Steven himself would be able to confirm that.

I will say while I don't want to Dox Rose myself, and she probably wouldn't be happy about it either. Anyone here is free to do so if they can, I knew the risks of leaking all this stuff in the first place so you won't hear me complaining if it happens.

Am I missing anything?
