# Dominick van der Hoff

Storyboard Artist, 2D Animator, and Background Illustrator. Please take a look at my portfolio below.

Rotterdam, Zuid-Holland, Nederland

## Samenvatting

Hello, I'm Dominick.

I'm a freelance 2D Animator, Story Artist, and Background designer from The Netherlands.

I like to keep my skills and abilities broad so I can work in multiple spots along the Animation pipeline!

I've done a bit of everything and I'm always looking to learn more!

Please take a look at my portfolio:

<https://dominick-van-der-hoff.weebly.com/>

I'm happy to chat in DM's, I'm a fan of animation and won't stop talking about it.

---

## Ervaring

Self-employed @ DH Animation

Freelance Animator

maart 2019 - Present (6 jaar 1 maand)

Rotterdam, South Holland, Netherlands

I'm currently available as a 2D Animator, Illustrator, and Storyboard Artist!

I'm based in the The Netherlands (EU) but willing to move, or work remote.

I studied at the Graphical lyceum of Rotterdam, the Willem de Kooning academy, and I spent a semester at SVA in New York City as a exchange student.

I've been working as a 2D Animator since 2018, working with talented teams on shows like Undone and Totally spies. I've also been active with various fan groups making short animated recreations of our favorite shows and movies. I work with big studios, but I also work with individual creators, and indie projects!

I recently helped out with a group of Gobelins students on their BAFTA winning shortfilm Thaba ye.

Please take a look at my portfolio, I have a broad skill-set due to working on different positions on the animation pipeline. I'm trying to be a jack of all trades when it comes to animation production so I can one day manage/make my own show!

Please take a look at my portfolio, I'd love to get feedback:

### DogHead Animation

2D Animation Clean up

augustus 2023 - mei 2024 (10 maanden)

South Holland, Netherlands

TS Season 7 Banjay Kids & Family © 2024

Clean up on the new season of TS, Using toonboom

### Sparta Rotterdam

2D Animator, Compositor and Video Editor

2023 - 2023 (minder dan een jaar)

Rotterdam, South Holland, Netherlands

Sparta Rotterdam, A soccer club that has existed since 1888 approached me to create a video showcasing their long existence as oldest club in Rotterdam. I used my skills as a 2D Animator, Storyboard artist, and compositor combined with my editing knowledge to create a short video of their mascot "Sparta Piet" to fly along a series of famous photo's from the club's history with a monologue by Rotterdam's famous poet Jules Deelder. It was shown at the annual Red-white Men's and Woman's dinner.

I was there behind the scenes and it sounded like everyone liked it!

### GOBELINS Paris

2D Animator / coloring BAFTA winning Gobelins short Thaba Ye

januari 2022 - mei 2022 (5 maanden)

Rotterdam and The Hague

Working as a 2D animator, color artist and 2D FX Artist.

I animated some of the the 2D sequences and added 2D effects on the 3D sequences.

### Anikey Studios

Animator / coloring

2015 - 2015 (minder dan een jaar)

The Hague Area, Netherlands

Worked on the short film Ballone Di Cannone by Frodo Kuipers

### Funk-e | explanation agency

## Animator

2012 - 2013 (1 jaar)

Rotterdam Area, Netherlands

This was when Funk-e was still a small but awesome company. Me and a classmate were their first interns, working with their 2 in house artists. I learned a lot more in the time I worked here than I ever did at school. While working there I saw the studio grow, we hired a few more in house artists and a lot more independent contractors. The client list expanded too, it was cool to see a small business grow to have multiple offices in multiple countries.

After my internship I did some more work as a independent contractor for them, it was the start of my career.

I worked a lot with Adobe Illustrator combined with after effects to create motion graphic video explanations of though concepts, usually these videos were meant for internal communication within companies, or with their clients.

The company got sold and uses AI now. :(

## Grafisch Lyceum Rotterdam

Student

2009 - 2013 (4 jaar)

Rotterdam Area, Netherlands

Graphic design and motion graphics education

---
