

GO TUNE AppClip™ User Manual MODEL # GT3

Bluetooth® Tuner for your Smart Device
Application

FCC: A8TBM23SPKXYC2A

IC: 12246A-BM23SPKXYC2

Japan: ㊞ 202-SMC067

Korea: Certification Number:

MSIP-CRM-S9S-BM23SPKXY

Taiwan; NCC No.: CCAL15LP0270T3

Bluetooth SIG QDID: 58996

Patents: OnBoardResearch.com/patents

RoHS Compliant

LED STATUS TABLE

BLUE	RED		
○	○	All OFF	Power is off
⦿	⦿	Red & Blue alternating flash	Searching to pair (pairing mode)
⦿	○	Blue flashes once every 5 sec.	Paired, not connected (standby)
⦿	○	Blue flashes twice every 5 sec.	Paired and connected
○	⦿	Red flashes twice every 5 sec.	Paired in multi-link mode
⦿	○	Blue flashes 3 times every 5 sec.	Active App Communication
⦿	●	Blue flashes, with red solid ON	Low batt. Ignore while charging
○	●	Red ON.	Battery is charging
○	⦿	Red flashing quickly	Battery charge error

○ OFF ● ON ⦿ FLASHING

PARTS & FUNCTIONS

- 1 - Power/Pairing Button & LEDs
- 2 - Reset Button (use a paper clip)
- 3 - USB Charging Port
- 4 - LED Indicators in button (red/blue)

CHARGING

Connect the supplied USB cable to the AppClip GT3 and a USB power source for 2 hours. The red LED will be on while charging, and off when completed.

NOTICE

This product contains a Lithium Polymer 3.7v 110mAh battery. Proper disposal procedures should be followed in accordance with your local regulations.

INSTRUCTIONS

FIRST TIME USE:

Make sure your Smart Device – phone or tablet (SD) Bluetooth® is turned on and in the Bluetooth® settings tool.

Press the on/off button (1) once and observe that the button is flashing red and blue. This indicates the unit is trying to pair over Bluetooth® with your SD.

On your SD Bluetooth® settings tool, select "Connect" on the device name GT3Axxxxx – where x is a numeric field.

Once the units pairs, start a tuner app which supports Bluetooth® – an app list is available on our website .

After the tuning session, turn off the tuner by holding the on/off button (1) for more then 3 seconds. Turning the tuner off will extend the time before recharging is required.

AFTER THE FIRST USE:

Turn on your tuner by depressing on/off button once. The tuner will attempt to pair with the last successful SD Bluetooth® session. The button lights will indicate the status. See the LED Status Table for details.

After successful pairing, start a tuner app which supports Bluetooth® – an app list is available on our website: www.OnBoardResearch.com.

After the tuning session turn off the tuner by holding the on/off button (1) for more then 3 seconds. Turning the tuner off will extend the time before recharging is required.

FREQUENTLY ASKED QUESTIONS (FAQ)

Q) Why do no lights come on after pressing the button?

A) This is likely due to low battery power. Charge the battery using the provided USB cable and a known good source such as computer or USB power supply.

Q) How can I tell how much charge is left in the battery?

A) In the status bar on some Smart Devices, a vertical battery level indicator is shown beside the Bluetooth® symbol. An example is shown here:

WIRELESS COMPLIANCE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CERTIFICATIONS

注意!

依據 低功率電波輻射性電機管理辦法

第十二條 經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條 低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信，指依電信規定作業之無線電信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
