The Kiwi Farms Report

Violations of the PACT Act by Kiwi Farms users and its administrator, Joshua Moon.

This section is regarding potential violations of 18 U.S. Code § 48, colloquially, the Preventing Animal Cruelty and Torture Act (as amended by Public Law 116-72) by Joshua Conner Moon, the administrator and current owner and custodian of “Kiwi Farms” (kiwifarms.net, kiwifarms.top, kiwifarms.st, kiwifarms.is, kiwifarms.ru, kiwifarms.tw, kiwifarms.hk, kiwifarms.pl, kiwifarmsaaf4t2h7gc3dfc5ojhmqrw2nit3uejrpiagrxeuxiyxycd.onion, et al.) Specifically, Moon is engaged in the distribution of animal crush videos, hereinafter referred to as the “zoosadism content” using means of interstate and foreign commerce via the internet using the aforementioned “Kiwi Farms” website. The zoosadism content was originally uploaded to Kiwi Farms by a user of the site, which implies Section 230 protection, but was later manually downloaded, archived, and copied to the /archive/ directory by administrator Joshua Moon, causing him to become the publisher of the materials and the individual responsible for its wide distribution. Collectively, the zoosadism content consists of sexual abuse and torture of various animals. A brief list and description of the zoosadism content in question can be found below.

Use of Kiwi Farms by zoosadists for the purpose of obtaining crush videos

On at least one documented occurrence, a person looking for animal crush videos has directly mentioned Kiwi Farms as a good source of such content.

Hosting of extremist content, promotion of domestic terrorism by Kiwi Farms

Kiwi Farms and its administrator host extremist content and propaganda which promotes acts of domestic terrorism. Perhaps most infamously, it is known for hosting both the livestream and manifesto of Brenton Tarrant, who is known as the perpetrator of the 2019 Christchurch mosque shootings. Joshua Moon openly flouted a request from the New Zealand Police, who were investigating the matter, and continued to host and archive this content. This is well documented and in the public record.
