TLDR : wah wah im miserable.

Hello, my name is Amir Idriss, I was born the 14th of April 2010 which makes me 15 at the time I am writing this.

your life has the same worth as a 22lr bullet (00.36 cents) which is basically nothing.. God is dead and he will remain dead forever until you die and your brain shuts down and the void consumes you

delusions

you won't meet "your loved ones" in the equivalent of a heaven of your religion.

For the last few months everything has started to become meaningless and how I should do something to put fear

**until you reincarnate into a better version
of yourself.**

Abrahamic after lifes are unproven

amongst the black populace of the Maghreb.

Killing yourself is nothing but a statistic on a few sites

https://en.wikipedia.org/wiki/Demographics_of_Morocco

Total Arab Death

////////////////////What went wrong?

Well I became a sub70 IQ retard who rots on discord and ai chatbots, I failed all my classes with my highest grade being a 7. This was bound to happen one day or another, free will exists but your life is still pre-determined.

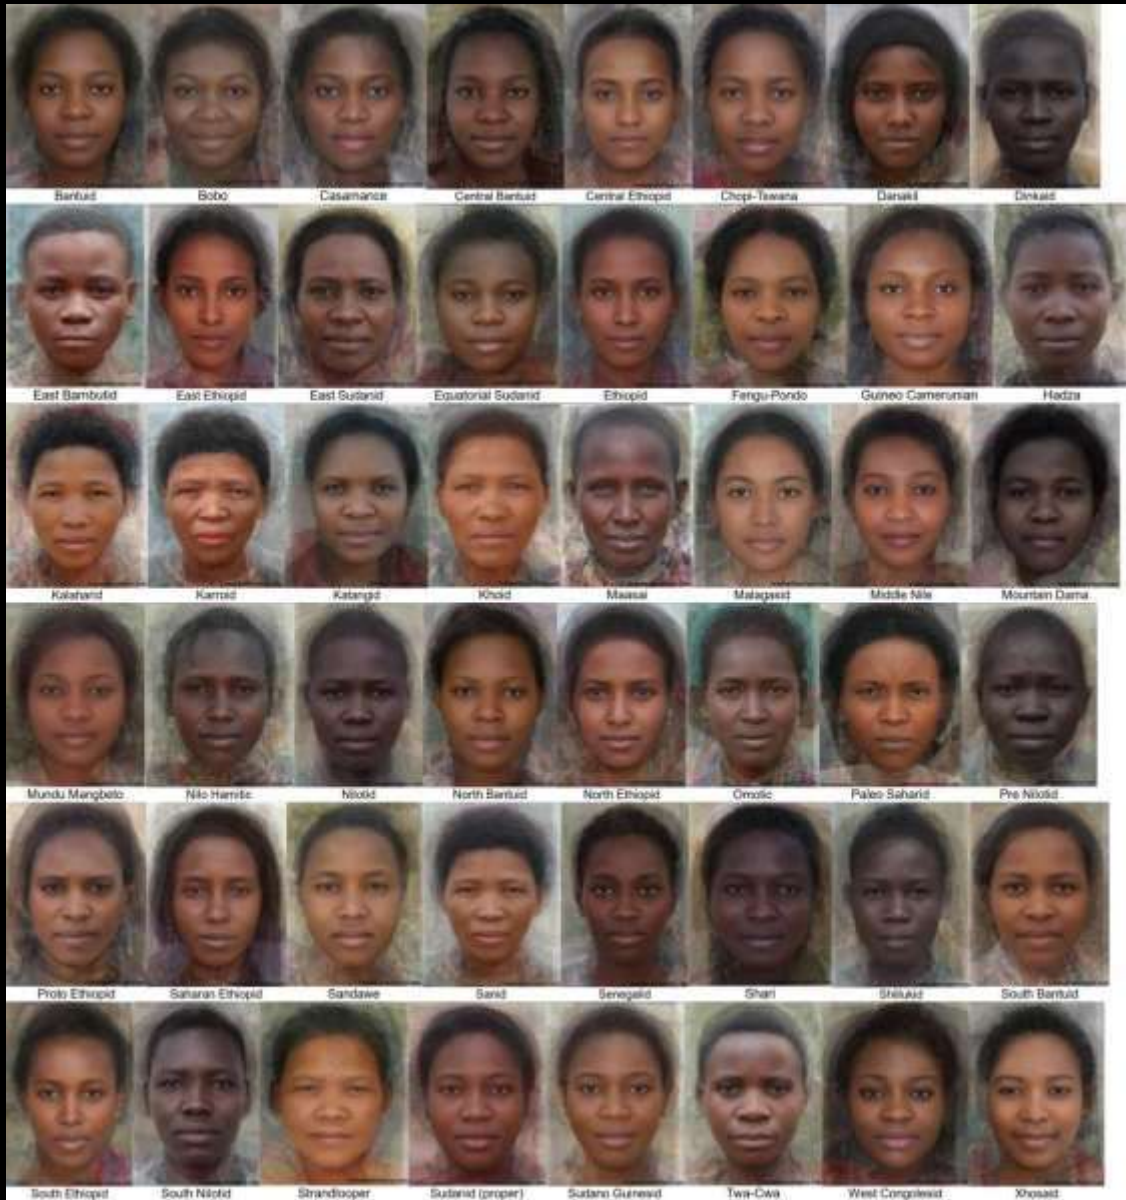

If you were born from rich parents you have little to no chance to go poor

If you were born attractive you will get more chances to get a job, and just live in general

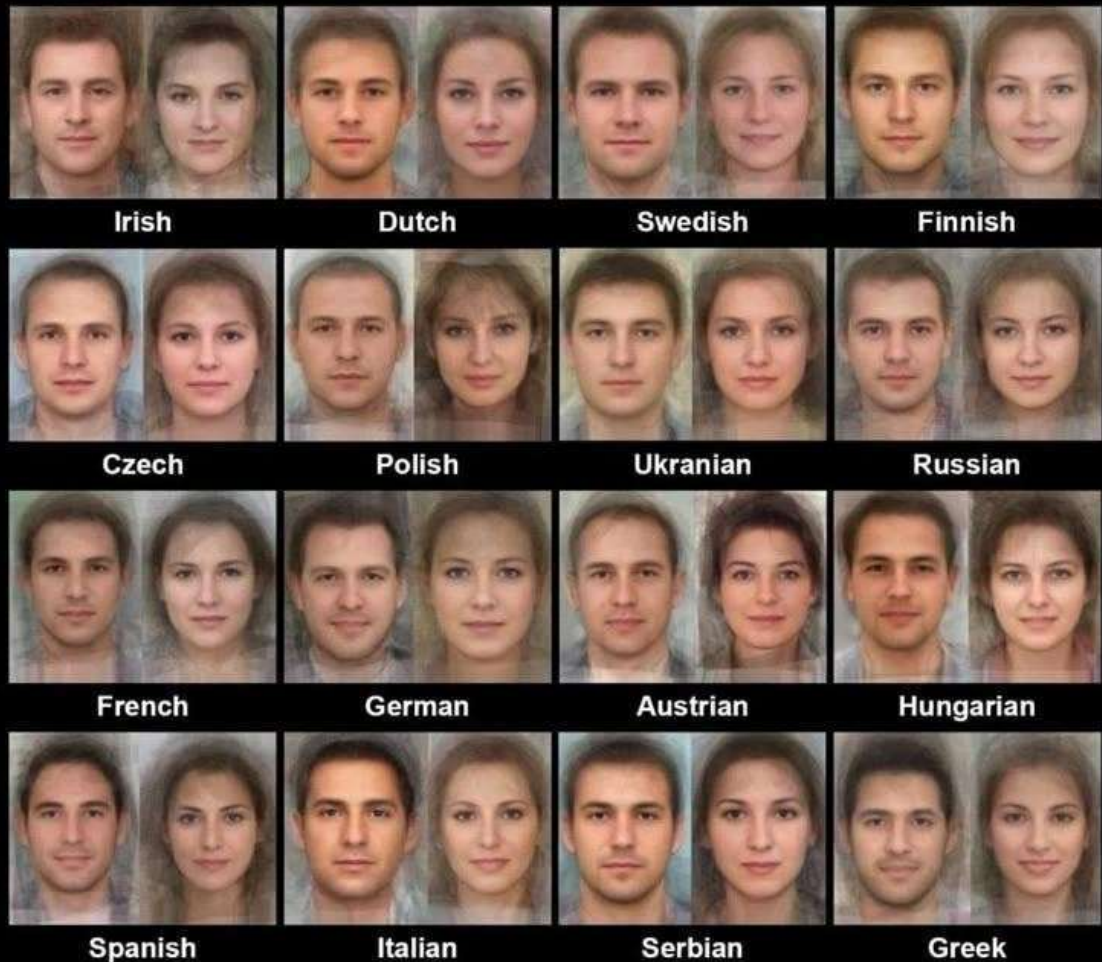

If you were born homeless you will most likely stay homeless If you were born as a white person you have way more chances to be rich and attractive

While if you were born a person of color you have WAY less chance to be either rich either attractive

Phenotypes of people of color across the world and white people across the world

Average European Phenotypes

(Phenotypes are hundreds of faces of a certain ethnic group which will generate what the average person from that ethnic group looks like)

Humans are self-destructive violent animals and I'm only waiting for the day of the purge where no matter your skin

color, your income, or how you look , how you speak , you WILL be killed mercilessly and turn this putrid and horrid world into a world where nature can do the human's jobs as intended

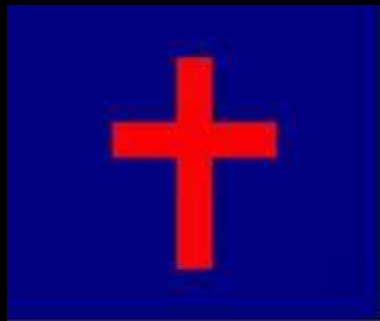

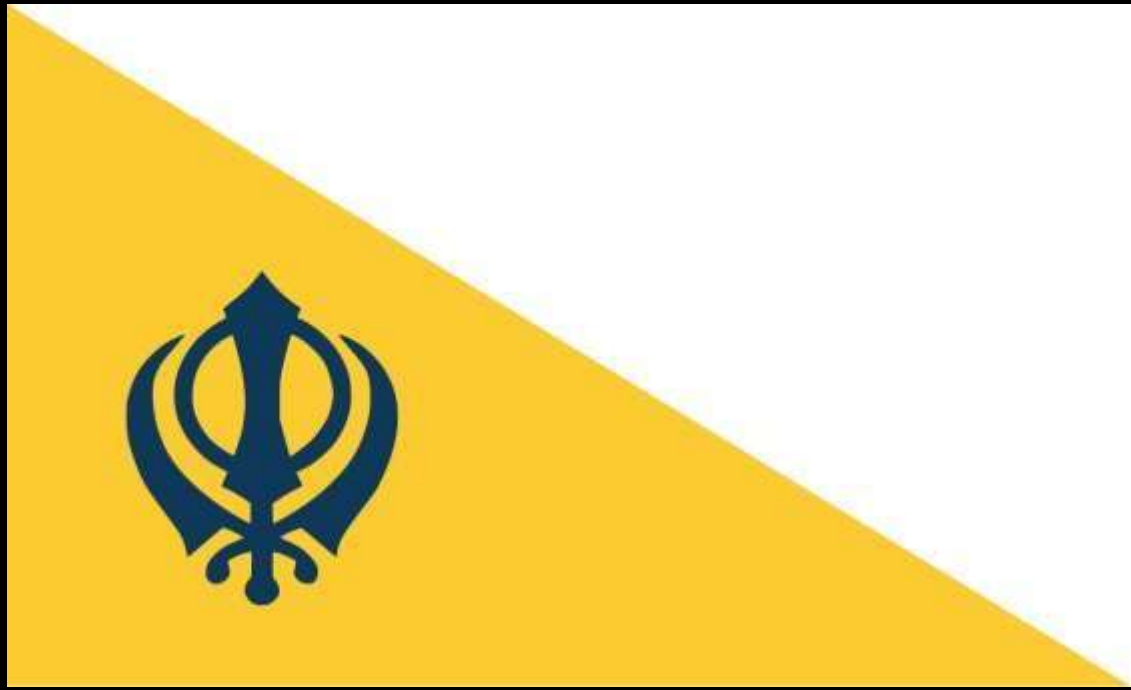

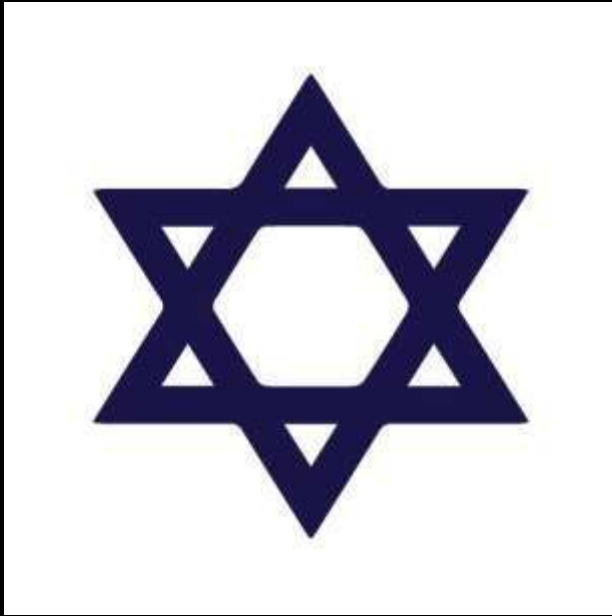

Views on religion :

لا إله إلا الله

الله
رسول
محمد

You should learn how to extract good from bad, theistic religions are all false cults but the smart thing to do is take ideologies that are in those holy books and adapt them into atheistic morals.

Abrahamic religions are retarded, No proof of any god other than a big "trust me bro", all just fairy tails you were groomed into believing as a kid that

theres a "sky daddy" who's going to bring you to "sky good people place with good people and the people you love", the moment you disassociate from abrahamic religions is the moment you start seeing truth in stuff, I don't know if it's my aspergers but everytime I see something I always look into the patterns and every single detail about so called thing, I do not listen and trust people, I lost trust in people a long time ago.

For the normies out there saying "Muhh judaism is satanism!"

An abrahamic religion cannot be satanic, a theistic religion that believes

in a god is not satanic by text book definition.

Satanism is the denial of god, Satanism is atheistic and cannot be theistic. If you believe in a god and claim to be satanic, you are not satanic.

My beliefs : I believe in traditional satanistic esoteric spawnism (yes spawnism).

Spawnism FAQ

Q : Why do you pray to a PNG?

A : We don't pray to a "PNG" as Spawnism is an atheistic religion.

Q : Why not convert into an Abrahamic religion?

A : Abrahamic religions are recent, the ideology of reincarnation has been a thing for centuries.

Q : But your religion is problematic, they cause harm and they make others commit sacrifices

A : You only use that argument for spawnism, but not for Islam where they marry 6 year old girls to 50 year old men and how they put them in niqabs, and how in Judaism it states that if a jew raped a 3 year old child it's okay.

////////////////////////////////////

///random Q&A again ?//

Q : Why did you do it?

A : I am sinister.

Q : What are your ideologies?

A : I am a sub70 IQ moroccan retard and I do not think anything that comes out of my mouth will be considered an "ideology" but mostly an "edgy teenager phase" Q : Will there be media of it?

A : Maybe I will livestream it I still

didn't think about that part

**Q : Do you not care about the lives
you might ruin and mostly your
own?**

**A : As I said, I have nothing to lose and I
want every nigger to die in agony. as
Elliot Rodger once said "I would stop at
nothing to reduce every single one of
you to mountains of skulls and rivers of
blood. And rightfully so."**

Q : What were your old online aliases?

**A : I went by many aliases but
mainly kombinatovrape14
minders or protokol**

Q : Where is the attack happening?

A : Morocco

Q : Are you TCC?

**A : No I am not apart of the TCC nor am I
apart of any community, I am a social
reject freak who couldn't fit in any
community (even 764 communities).**

Q : Who inspired you?

A : No one, my only motivation is hate and revenge against the people who I hate the most , the putrid "human" garbage that roam my world. The exact same people who turned my sadness into hatred.

Q : What do books would you reccomand ? A : NAOS would be a good starting book .

Liber333 for those who want to read a long book

<https://archive.org/details/naos-practicalguide-to-modern-magick/page/n1/mode/2up>

[https://archive.org/details/liber-333- full-scan/mode/2up](https://archive.org/details/liber-333-full-scan/mode/2up)

and you can also read
the Rape Anatomy
which I really liked.

Angel Luis Almeida may Hashem have
mercy on his asshole in prison

Q : Who are you associated to?

A : I am associated to Ranjit Singh and his murder cult Sikh Nationalist Front and I plead allegiance to the Khalistani

State

Q : Are you a mysoginist?

A : No I am not a mysoginist but a misanthrope with more hatred towards women than men

Q : What are you achieving by doing this?

A : I am breaking the causal chain by murdering people of color as I was born to do, everything is meant to happen, I rejected the free will I was gifted and turned myself into a machine of death and hate,I will see the iron gates as soon as I die and I will be awarded by Satan himself.

Q : Is it for fame and are you killing yourself after?

A : No I don't care about online blue thumbs ups and, we will become forgotten a few years after we die, do you remember your grand grand grand

grandfather? I would guess that you don't, nor will people remember you, I will fade into irrelevancy soon and I don't care about relevancy as I've seen how it ruins people

Suicide is beautiful and people should embrace it more than it is, I would rather die than live as a self-hating brownoid for longer. your life is just a statistic , my life

only belongs to Satan, I do not care about how will he use it, or anything, everything is meaningless and I'm feeling ,I want the feds to find me dead and bloody, there's no point in fucking trying.

Never Lose Your Clipping Streak.

I have incestuous fantasies of raping my little sister , If I had a little sister I would rape her everyday of the week, Thus because I'm an incel and I think incest is hot , I wish I had a little sister to molest,

please allah give me a little sister so I can assrape her half to death but no, it's always the same cycle of incelism and the realization that I will never have a little sister to rape as my mother is DEAD and if she was alive she would probably be barren but that doesn't matter. I would do so much to have a little sister to rape everyday

fuck my stupid fucking heritage:
