

MY ANGER

Society

"I hate you people, you have deprived me of so much entertainment. And no, damn it, don't say 'It's your fault,' because it's not. You guys had my phone number, I asked and all that, but no. No, no, no, don't let that strange little Eric show up here, oh damn, no."

© Eric Harris

How I hate society, stupid biological waste. Society is hypocritical, disgusting, stupid, and degenerative. It is unjust. Every day it upsets me when I wake up and realize that I will have to interact with people again.

Every day I see people, every day I experience stress, every day I sit alone, alone with my thoughts. Every day I live in vain, gaining nothing but a sense of fear and hatred. And the reason for this is YOU. Just recently I realized that people are worthless. Lives don't matter, and you people have only confirmed this with your disgusting behavior towards me.

You have pushed me to the edge. For 9 years, I have suffered in this damn school. Why can someone else decide anything about me and my fate? Why do some idiots have the right to control me? Who gave them that right? Why was my opinion not asked? Why?

Christianity

I cannot agree with the form of Christianity that most modern preachers advocate.

© Dylan Roof

I love Christianity; thanks to the crusaders, Europe survived the initial attempts at occupation by the wild savages of the desert. Christianity has proven to be an excellent option for a unified faith for Europe, uniting Europeans.

Currently, Christianity is in decline; it has weakened, and reforms are needed for its revival. I do not like what is happening now; as Roof wrote, the modern representation simply says, "Leave it to God," just talk, no action. We see how the occupiers perform prayers right in churches and temples, we see how during Ramadan these animals climbed onto Orthodox churches. We see how Muslims cut priests right in churches and shoot parishioners. What are Christians doing? Nothing. Christians should fight back; you might say, "But that's not allowed" - fine, it's not allowed, then just wait for death.

You have only two options: either you endure under the pretext of "Murder is a sin" and die without having done anything for your race, faith, and land, or you follow in the footsteps of Brenton Tarrant and kill the occupiers, that's it.

Ways

There are no ways to fight against the occupiers except for mass killings. It is impossible to negotiate with terrorists. You will never be able to negotiate with a chimpanzee; it will tear you apart. Similarly, you will never negotiate with an Arab suicide bomber or a Black man with a knife. It is impossible to negotiate with a stupid monkey that has not evolved, believing in the ancient nonsense of a sick pedophile-terrorist named Muhammad. Take off the rose-colored glasses; we can only win through violence.

Higher and lower races

A person who has created civilization, infrastructure, medicine, architecture, books, the internet, computers, and everything we use today cannot live in the same space as a monkey, not only a physical one but also a mental one, which knows nothing but how to rob, rape, and kill.

We are different; humanity, in the general sense, does not exist.

Lower races are definitely an enemy to whites and Europe as a whole. You can take the monkey out of Africa, but you cannot take Africa out of the monkey.

We have different intellects, body structures, skulls, levels of development, and different crime rates.

Jews

"His blood be on us and on our children!" The Gospel of Matthew 27:25 *"We stand before the face of the most dangerous enemy in the world." "One must look closely at our enemies, as the gaze falls on one Jew after another."* © Joseph Goebbels

LGBT, leftists, Antifa, the elite, the media, modern liberals, Marxists, the opposition, special services, and other anti-white riffraff - all of this is controlled by Jews. Jews control every step you take, every search you make on the internet, every message in your messenger, every word, every movement.

What can I say about their contribution to the extermination of the white race? Without them, no Arabs, Blacks, Latinos, or others would EVER have been able to exist in Europe. Jews allow and support Islamic terrorism, Crocus, September 11, the attacks in Paris in 2015, and so on. But as soon as a European starts looking for information about white terror, Jews immediately aim at him.

I am not saying that the blame lies solely with the Jews; nothing of the sort, migrants are equally our enemies. The victims are only Europeans, some Asians, and non-Islamized peoples of the Middle East.

Racial mixing

I feel sick when I see a white person and a Black person together on the internet; it's disgusting. Even more, I feel hatred and anger towards comments like 'Why is everyone surprised? Racism isn't normal in the 21st century' - damn it, you fucking whore, shut your stupid mouth and go cut yourself in the bathroom, you stupid bitch.

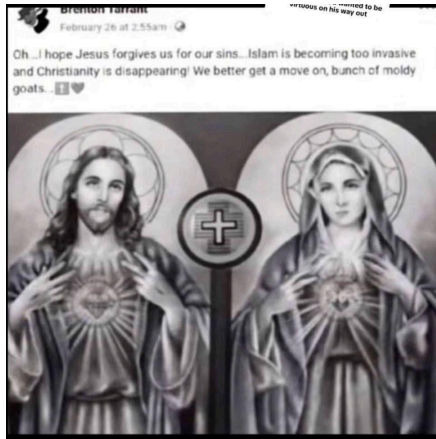

I'm not against national mixing, although that's also questionable. Europeans with Europeans? Great, but nothing else.

What should we do with the inkpots? Kill them, in the most brutal ways.

Paganism

In general, I have no complaints about pagans, almost none. I dislike how you underestimate Christians. It annoys me that you call the Christian Tarrant a pagan. Stop sowing discord; whites are already an absolute minority, we cannot split apart.

For the stubborn:

From Tarrant's Facebook account: "Oh... I hope Jesus forgives us for our sins... Islam is becoming too aggressive, and Christianity is disappearing. We better hurry, a bunch of moldy sheep... 🇺🇸❤️"

Remington MVP Rifle. 223, right side, inscription: "Deus Vult" which translates to "God Wills It" - the battle cry of Christian crusaders during the Crusades.

Remington 870 Magnum shotgun, right side: "Jeremiah 46:16" - from the Bible: "They will stumble over one another; they will fall down one upon another and say: 'Arise, let us go back to our own people, to the land of our birth, away from the sword of the oppressor.'"

The same shotgun, left side: "Psalm 144:1" - from the Bible "A Psalm of David. I will extol You, my God and King, and bless Your name forever."

From Tarrant's "Great Replacement," "to Christians," second paragraph, first sentence:

"We are disgraced, sons and brothers living in days of distress!"
It is "We are disgraced" and not "Christians are disgraced."

Islam

Speaking of Islam, I want to clarify my position immediately: there is no division between 'Muslims' and 'Islamists' that is constantly being attempted.

If we look at it from this perspective, who was the prophet Muhammad? A Muslim? No, by such a division, he is the most radical Islamist in history, having laid the foundation for Islamic terrorism, so your very idea of 'Muslims' and 'Islamists' collapses with one question.

Islam is a plague that must be completely eradicated. Islam has brought nothing good to the world. You might mention 'Islamic scholars'? Yes, they existed, but all of these 'Islamic' scholars learned from the books of Europeans, and by origin, they were all Persians who did not accept Islam and were often descendants of Islamophobes. So, what did they create? Nothing. All their 'achievements' in mathematics, astronomy, and other fields are merely a continuation of what the Romans and Persians left in the Near East before the arrival of Muslims. Arabic numerals? No, the Arabs adopted them from the Indians.

When discussing the emergence of Islam, Muhammad simply distorted Arab paganism, and that's all. The main holy relic of Islam—the black stone in the Kaaba—was an Arab pagan idol, and the Kaaba/Mecca itself was a pagan shrine.

Muslims even perform their prayers in the same postures as Arab pagans did before Islam. Allah is the Arab-speaking moon god. Even the minarets of mosques were taken from the pagans.

Muslims are a useless and dangerous rabble lacking in thought. We must liberate the entire Middle East and North Africa; these lands have always been white.

MOTIVATION

**HATE HATE
HATE**

I HATE YOU

**MUSLIM FOR TERRORISM, BLACKS FOR CRIMES, JEWS FOR
ORGANIZING TERRORISM, AND WHITES FOR INACTION**

While you sit and do nothing, your life is meaningless. You are worth nothing if you are not ready to kill and die for your ideas. DIE. You are just a bunch of hypocritical garbage. No? Then prove it, yes, YOU, go and kill someone, do something useful for the planet. Whites have no right in the current situation to anything; you are unworthy of Europe, of the Earth, of life.

Just keep the following in mind: even the Arab Sonboli, the nigger-Jew Henderson, the Turk Küçükyetim, the Indonesian (name?), the Mexican García, and the Indian (name?) have done more for the White Race and the future of white children than you. Shame.

Heroes, unlike you.

So, if after reading this, you want to change something in your life, then:

INSTRUCTIONS

WHERE TO FIND AND HOW TO CREATE

In fact, if you are a minor, you have no choice but to resort to cold weapons and bombs. An alternative option is if you have a firearm stored in some safe at home, then congratulations, you are very lucky. Or if your family has a welding machine, then you can easily weld a shotgun. In some countries, you can carry out an attack using a car at the age of 16, which is a very effective method.

IMPORTANT: DO NOT BUY COMPONENTS ONLINE AND IN ONE STORE E.

Firearm

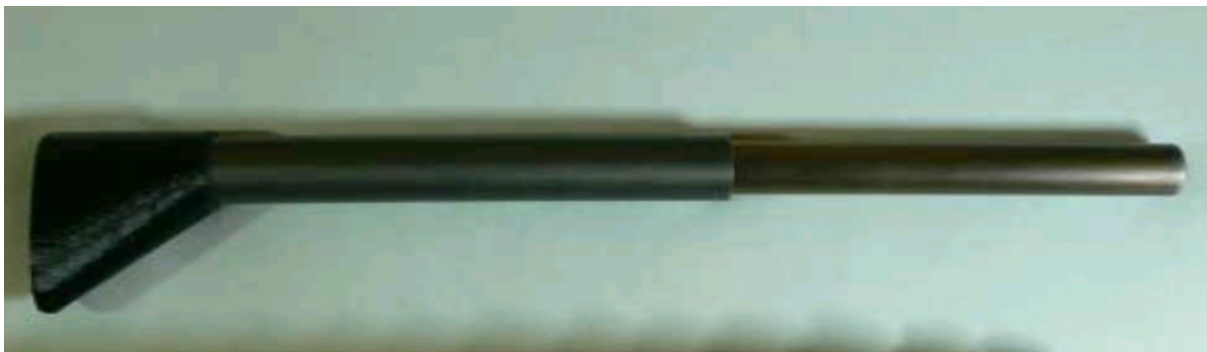

The simplest thing you can do is make a shotgun from two pipes of different diameters. Take a larger diameter metal pipe, weld a cap on one end (first, you need to weld a nail or some sharp protrusion onto the cap). Place the side of the cap with the sharp protrusion down onto the larger diameter pipe and weld it. And that's it, your shotgun is ready; insert a cartridge into the pipe.

of smaller diameter (the protrusions on the cartridge must fit snugly against the edges of the pipe), insert the cartridge inside the larger diameter pipe, aim, sharply compress the two pipes, and a shot occurs. The protrusion you welded to the cap strikes the cartridge's primer, the gunpowder inside detonates, and it fires shot or other projectile elements.

- Труба большего диаметра
- Труба меньшего диаметра
- Патрон

Examples (Stefan Balliet's weapon (terrorist attack in Halle 2019)):

And as we can see, it worked perfectly.

Making other firearms is more complicated, but with a welding machine, tools, steady hands, and guides on YouTube from Indians, it will all be possible.

Ammunition

Making cartridges is no more difficult than making a shotgun. Depending on the type of cartridge, you will need different instructions.

Shotgun cartridges:

- case (available on marketplaces, but be careful not to raise suspicion); -primer (I don't know);
- gunpowder (can be sold in a hardware store if they consider you an adult. It can also be extracted from fireworks or firecrackers)/match sulfur (may not provide enough energy upon detonation and may not achieve the desired result of high projectile or bullet velocity);
- cardboard/wad/cotton (not sure about the cotton)
- projectile elements (nail heads, nuts, screws, self-tapping screws, metal balls)

The same applies to bullets, but regular casings are needed, without a wad adapter, and instead of projectile elements, a single bullet is required.

Bombs

Cmodel grenade

No1

I learned to make it using the film 'Zero Day,' which shows the manufacturing process in great detail. I highly recommend the film to everyone.

- metal pipe with threads on the ends (hardware store); -metal plugs with threads for the pipe (hardware store); -drill (look for it at home); -fuse (hardware store); -gunpowder/match sulfur (better to use gunpowder itself) (hardware store, but they may not sell it) -projectile elements (nail heads, nuts, screws, self-tapping screws, metal balls)

On one end of the pipe, screw on the first plug. Drill the second plug to the diameter of your fuse, and also screw it on (or weld it). Fill inside with gunpowder and projectile elements, and insert the fuse. Done. You can find out more in the movie.

Example (Columbine school shooting 1999)

Homemade grenade No2

Take a powerful firecracker, surround it with shrapnel elements, and seal it all with tape. It should work.

Example (attack on a school in Monte Mor, Brazil (February 13, 2023))

Homemade grenade No3

Take grenade No1 or No2, tape it tightly to an air freshener/spray deodorant or something under pressure. Wrap the canister itself with shrapnel elements using tape. Done. If your grenade fails to work properly, it will likely at least heat the wall of the canister sharply, causing it to explode and send out what you previously taped to it. Canisters for air guns are not suitable, as they have thick walls and are not large.

Smoke grenade.

You simply take everything that smokes well when smoldering, stuff it into some kind of casing, light it, and throw it away.

Gas grenade.

You simply take everything that can harm the respiratory system even with a normal breath, stuff it into some kind of shell (you can mix it with matchstick sulfur, so that when the fire reaches the fuse inside, everything will definitely work), ignite it, and throw it away.

By the way, important details for many:

Since you may not be able to buy a fuse, make one from regular thick thread, which you should soak in match powder mixed with water, the match powder.

To increase the likelihood of an explosion, you can insert batteries into your products, such as a lithium universal -YX350926 60mAh +3.7V 0.222Wh 230, which I personally removed from semiconductor headphones. Batteries, even with slight punctures, turn into a torch that is very difficult to extinguish, and they explode when heated.

The End

I am writing this at 8:18 December 16. Everything seems ready...

In conclusion, I want to say, rather to repeat, that I am not to blame for what has happened; I am forced to spend my life correcting what should never have occurred in the first place. The Great Replacement should never have happened. Never. And since "white men" cannot do anything more than peaceful protests, I intervene. You can hate me as much as you want; do whatever you like, I don't care.

I will strike at the most painful spot of the most despicable bastards that I hate the most. Yes, I hate society and a large number of whites, but I would not kill Europeans. If there were no Muslims, I would attack Blacks; if there were no Blacks, I would attack Latinos; if there were no Latinos, I would kill Jews. But, no matter how much I hate you, you, whites, WE, whites, have proven and defended our right to exist in the Crusades, in numerous wars against occupiers for a thousand years. And we will push them back again. I hate you, but you have done far more good than bad; I have no right to touch my own kind.

The time of my departure, my actions.
I did this in the name of the freedom of
Europe. Do not fear death, do not fear to
act. We will meet in Valhalla.
