

Parlo Mega-Doc 2 Frevv Incrimination

Frevv is an individual who works with Parlo relatively closely as a moderator in his server but also assists him in his daily operations to expose people and be a quite known person in the Roblox Investigation Genre.

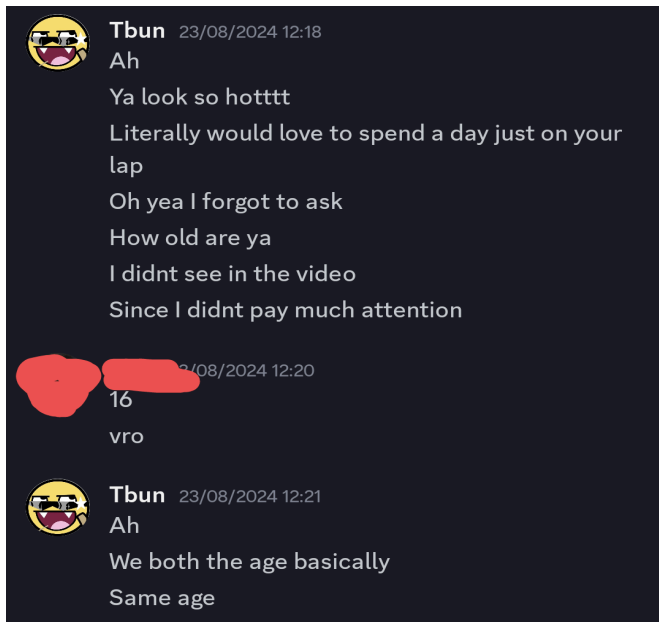

Though, he has some pretty strange connections such as a person named Tbun who frevv is seen to be friends with on Discord.

Tbun, or also known as “terminal_bunn” is a child predator who has groomed, sexualised and even possibly raped a minor and possibly more minors for his presence in the Roblox Condo Community, being on Ruben Sim's RoCleaner registry.

As we can see here, Tbun claims to be 21. Though, not even a year ago claimed to be 16..

PS he forgot to ask and he said “ya look so hot” before he even asked. perhaps he manipulated the victim to send pictures of themselves? clearly since tbun has sent the victim pictures too and the victim sending pictures back since they were groomed into thinking it's okay

 **Tbun** 23/08/2024 12:18

there ya go

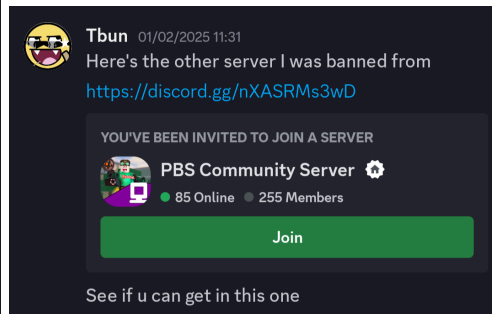

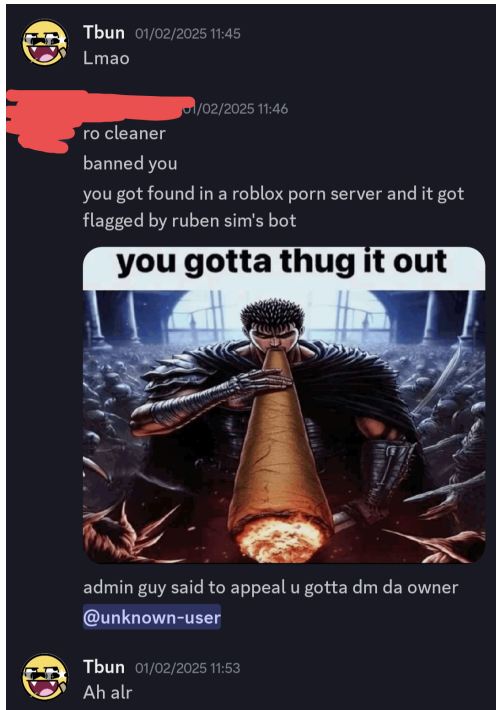

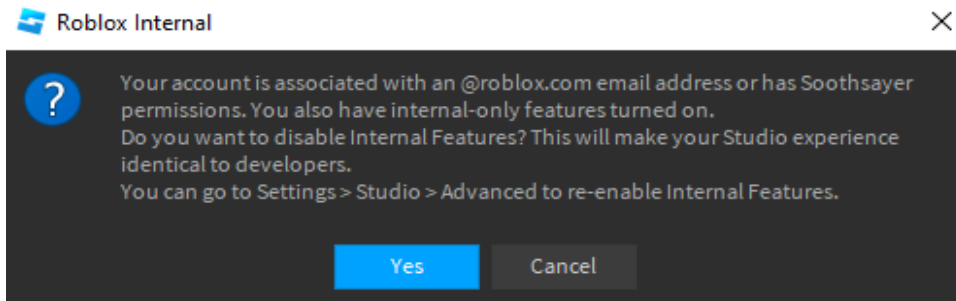

^ some weird furry fetish, same like the image below (he sent a link to this)

ok so now ill show you the part where tbun is on rocleaner, the bot which flags accounts in Roblox condo servers and communities:

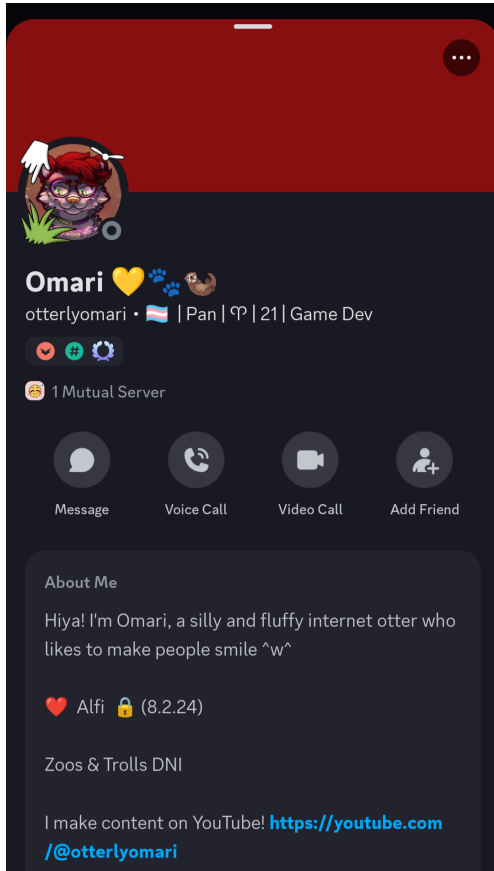

here's something that tbun was also able to access, which is illegal since he is basically brute forcing himself access to Roblox staff only features only accessible to roblox employees:

^^ soothsayer is an ability given to Roblox staff which allows them to go into Roblox studio of games they already have access to and then it allows them to place scripts which cannot be deleted by other Devs without soothsayer permissions, which basically makes it the perfect tool to insert backdoors that physically cannot be removed by anybody other than Roblox employees. **it is illegal to hack if it isn't obvious, making tbun a criminal**

NOW WE MOVE ONTO 0R0'S CAVE

0r0's cave is a server owner by tbun which was said to be a community server with people like femboys, which he invited the victim, a **minor** to this server which also had **adults** and had **NSFW channels** with adults rampant with Degeneracy and no moderation whatsoever, tbun even encouraging the victim (a minor) to interact with the adults of the server sexually

 **Or0** 26/09/2024 13:20

 **grunto** 26/09/2024 15:25

also here's some pictures of him just being a degenerate

also here's why I'm saying that tbun raped a minor:

^^ tbun saying that they already **fucked**,ost likely in real life since this was a while after they stopped talking actively. additionally, the victim did not want to answer if tbun raped them or not, which makes me think that he did infact rape the victim, who was a minor **HOWEVER THIS IS UNCONFIRMED AND YOU SHOULD COME UP WITH YOUR OWN CONCLUSIONS**

After all of this, after showing the extremely disgusting side of this individual who has potential as an amazing scripter, why would frevv, a relatively known person in the Roblox Investigation scene be friends with someone like this? It's extremely strange and not good for reputation knowing how people like Alaskanreality got exposed for being predators even working with other Investigators to expose others? Or palro himself.. Associating with someone like Parlo is already a bad thing for Frevv given our documents with Parlo's activities being exposed yet again.

This may be speculation, but I believe that people like Mugen, Gwamgo, Parlo and Frevv sre all apart of a group in the Investigation Content Creation genre and are all doing illicit and dark activities like Parlo grooming minors, Mugen trying to doxx people etc.
