

Day 1:

So it's been half a day & this morning, time is a little hard to tell. My room is nice, I've mostly kept to myself, not a big fan of the group therapy idea. I want to ask if it's possible to be pregnant but not produce hormones because my period is late & I have few pregnancy cravings. Like pickles sound so amazing right now. I honestly hope I am pregnant, Mom & Dad will try their hardest to take me home though. ~~_____~~ I wish Chris would leave me alone, just leave the pic. But he's insistent on destroying my life until there's just him.

- well my assessment was right, Chris live streamed the messages & even a video of me & Ralph having sex. I've decided no more social media. I have a problem w/ lying & it needs to stop.

Not Normal

Chris tried to call me. I'm not sure how he found out I was here or who told him. I have a feeling he was going to record the call & post that next. I made my first good choice & told them that if Chris tried calling again to deny. I can't ever speak to him again. I won't lie, it was tempting to answer. But I know what would happen, & I promised Ralph. I told Ralph I'll do whatever it takes, part of it is by never speaking to that asshole again. Hopefully Ralph will call soon & I can tell him. I hope by me telling him it opens communication & proves that I'm serious about being w/ him. Chris is the past. Ralph is my future, I want him & only him. I can't express how happy I am for his kindness & love. Even now all I want is his embrace & to talk to him. If he hadn't called me & talked I don't know what I would have done.

I think Chris thought I didn't know what was happening or that he could talk his way out of it. He would've acted concerned but I am so happy I turned his call down. I just want to see my video. I don't want to let my illness control me. I want to control it. It makes me angry that Chris tried to call me. I don't know why but it does. For him to think it's ok to pretend to care. He didn't love me, I didn't love him. I lived in fear of him for so long but I also pity him. He knew what he did & assumed it would alienate me to the point where he was all I had. But he assumed wrong. I'll learn to recover. I always do. & it's nice to start fresh. I started meditating then I think Ralph called & got all excited, just hearing his voice gets me all giddy. But I think it was false alarm. Did he tell Chris I was here? I doubt it but I'm not sure. Something I'll have to ask him. I'll go back to meditating then.

they also tried using my sexual things against me.

It's past 8:15, he said he'd call by now.

He called & it was good. It was nice to talk to him & talk about things. I have to keep up w/ therapy & were going to work on things.

So my parents told my doctors that he leaked the video which makes no sense & I can tell their feeding him things to think I'm in an abusive relationship. That really makes me upset to think about. Like they have no proof & it doesn't make sense, why would he when he could be arrested for Revenge porn. I'll call him & tell him what was said.

I forgot to tell him that they said he blamed me for it being released.

I really hope I'm discharged today. I miss Ralph & don't wanna go back to Cali.

They also tried using my sexual trauma against me.

I keep hearing different things about being discharged. I just wanna get out at this point. But as always, mom & dad are making that happen. Honestly I feel being here & isolated is making things worse. I feel like I'm not being listened to by my team either. I thought it was clear I don't want a family meeting.

I really wanna go home w/ Ralph today. I just need him now.

So I'm not leaving yet, but it looks like I will tomorrow, hopefully. It seems like mom & dad are trying to make it seem like I can't make choices for myself. Which obviously isn't true but they are trying EVERYTHING to make it so me & Ralph aren't together. They also said that Chris never called. Well, he did. I have no reason to lie anymore. I have to stop trying to control to the point that I lie like I did. I feel like I'm getting better. I hope I can & that it's not too late. I'm gonna ask for a bible to.

Since starting Simbalta I've lost my appetite a little.

I'm concerned about Chris trying to contact me again. I don't know if I fully thought of how scary he is, my parents told Ralph that Chris never called, but I know he did. I know he tried to find me & was either going to worsen my health or manipulate me. Even if I didn't promise to Ralph to cut contact I need to for myself. If I leave it alone it will stop. I really think the year break is the best choice for me. I know I should be trying to focus on myself, but it's so hard. It's so hard to know people don't want me alive or to be alone. I know it shouldn't effect me, that I need to be a warrior & not a victim. I'm trying so hard to be that warrior. I hope that I can be in the long run.

Kenji, Chris - P7-A ASAP
when out.

Debating on asking for hyroxine
cause I'm having some anxiety.
I really am concerned about how
he found out I was here. ~~It's~~
if he'll leak that I'm here.
What if I get calls from the KF
people? This is the type of stuff
they love to jump on. I like that
Ralph is gonna block KF so I
can't see it, even if I'm tempted.
I can't express how much I'm
greatful for him & his kindness
towards me. I keep getting self-
conscious cause now everyone
has seen me in one of the
most intimate positions I've been in
that was only intended for me & Ralph.
Hundreds of people have now seen it.
It brings all the trauma back
& it's so fucking hard.

I've lost like appetite for full meals,
but snacking is fine. Unless it's
Chick-fil-A... I miss Chick-fil-A

Reminder: order Chick-fil-A ASAP
when out...

My period is still late, 3 days now.
All my tests are negative but I'm curious
if it's possible to not produce the hormone
that sets off the tests but still be preg.
It's the not knowing that's kinda
getting to me. I also think I should
go back to being on birth control.
If I'm not preg now, I don't think
mentally it's a good idea. Maybe in
a few months, maybe a year. ~~Now~~ Now
if birth control fails I'll keep my
child but I don't think actively trying
is a good idea for me. I think I
underestimated how much it takes
mentally. Maybe Ralph will agree.

I was supposed to call before
group but I was so tired & forgot.
I'll have to call afterwards. I feel a
little uncomfortable still being in here.
I really want out. I've been having
some flashbacks too which isn't helping
like at all. Cause there's a lot of men
here. This one guy is kinda making
it hard to forget about self-harm.
Really not helping my self-harm thoughts.

I feel weird admitting I like the pain
of self-harming myself.

This guy reminds me of Rae, it's kinda
familiar like when he'd go on philosophical
tangents.

I really miss Raph right now.

I keep having flashbacks kinda badly.
Like remembering having to pretend.

I do like the people here. & that I'm not alone. It's comforting to know I'm not alone. Like I know I'm not but it's still nice. Doesn't change that I miss Ralph.

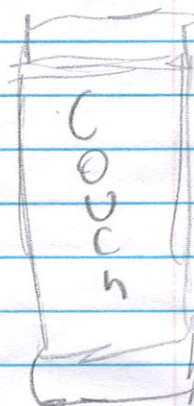

Still no appetite, having headaches & nauseous. I really want out by tomorrow. I miss my baby & him holding me & kissing me. It almost hurts to know that we're so close but so far. That I could be w/ him right now if I never went w/ my parents. It's just messing w/ me. I miss him calling me baby girl.

Ralph was telling me about the show tonight. I hope it goes well. I feel bad for not being there, being in the corner giggling & smiling. Tonight is going to be so hard on him & I won't be there. I wish I could drink, just a little. But I know one drink leads to a pint. A pint leads to flashbacks. & that leads to crying.

Still no paper, day 9 now.

Still no period, day 4 now.

I keep trying to find but I suck
at drawing mb!

I am playing a game that I got
out tomorrow. I guess I baby. IDK
now. I just thought I'd write it but
it's still in the air. I'm not sure if I can
hold him. I'm not sure if I can
him. To be honest, I'm not sure if I can
it half. I'm not sure if I can
think. I'm not sure if I can
make him
weekend. I'm not sure if I can
some food. I'm not sure if I can
toys. That's what I'm not sure if I can

I keep trying to draw but I suck
at drawing ugh!

Everyone thinks I'm older than I am.
I'm not sure why. No makeup, I'm
always up. Not to sure. I wish I could
call. Right. Right. I wish I could
just see him.

No. Well. On getting out yet!! AHHHHH!

I am praying & hoping that I get out tomorrow. I miss my baby. IDK how many times I've written it but it's killing me. To not sleep w/ him, to hold him when he whimpers. To kiss him. To make love to him. It's making it harder to sleep at night. To even think. I just want him. More than anything. I keep thinking of our weekend in Virginia Beach. Obeying in some food, talking, using those new toys... That's where my mind keeps going. God I miss sex...

Everyone thinks I'm older than I am. I'm not sure why. No makeup & hair always up. Not to sure. I wish I could call Ralph right now. I wish I could just see him.

No word on setting out yetttt AHHHHH!

Not getting out all weekend... I really
wanted to spend the weekend w/ mi vida.
My Parents keep lying to me & Ralph &
my Doctors, it's really hurtful. Plus they
keep talking to Chris which is so hurtful
It brings back ~~me~~ all my trauma.

Poem

I know life cuts.
And it burns w/ Rage
And the doors that shut,
People not on the Page.

I can stand & yell,
But can I sit silent?
Is it honesty to tell
And be freedom's pilot?

I don't just miss
But I desperately crave
For his embrace & kiss.
I hope I can be brave.

New Plan, Get the 48 hour forum.
This shit is taking too long. I miss
Ralph, & I'm not as sick as they make
me out to be. Yes, I have trauma.
But reliving it every day isn't helping.
How can I move on if I can't move forward?
& I'm tired of my Parents' control, even
now... But the trauma doesn't make me
a child. It doesn't make me incapable.
Everyone calls me strong but isn't
allowing me the choice to prove it.
Also, still no period. Pregnancy?

What Anthony said helped, that my
boyfriend sees me as strong. I know
that's how Ralph sees me, but it's
nice to hear. Still too nervous to
eat honestly. Need a shower. No
Towels though. Fuck it.

Asked for forms, just need to
sign them. Then I'm a step closer
to mi vida & working on our problems.
So close, it'll all be ok. It has
to be. I don't see things getting
much worse at this point. I think
this is my lowest point. But
people here need more help than
me.

I'm all anxious for the forum, or is it
form? I don't care I just want out!

Ha! It is signed, I'm getting out!
I'm gonna see my Baby! I'm so
excited

Finally Brushed my hair, thank god.

I think the other reason I'm convinced
the baby is cause I'm tired, what
for Disney weekend.

...you are, he does
tho. Maybe 25 haha.
again everyone thought I was
then I am.

...it would make no sense for it
...it's just nonsense.

Apparently I'm the baby here, haha.

Ralph has to play "Ice, Ice Baby" & "Baby come back" for 9 months when I'm pregnant.

Still no period. Still nauseous to from certain foods. Not sure why but still happening. I keep forgetting to ask about that. If it's possible to be pregnant w/out setting off the tests. I also just feel sick in the morning. I can't tell if it's the meds or not. But it's not fun. Like I feel like throwing up constantly. I just want to see mi vida already. Can you get sick from not seeing someone?

I think the other reason I'm considered the baby is cause I actively waited for Disney weekend.

Ah I'm not the only baby anymore. There's another 18 yo here, he does NOT look 18 tho. Maybe 25 haha. But then again everyone thought I was older than I am.

~~Just~~ Just hitting that Rae & hollow
& everyone won't ~~be~~ won't wanna
'be my friend anymore... I'd understand
but still hurts to think about. It's
my own fault for lying but I still
wish that I could make it up & not
just lose them entirely. Maybe...
I guess that's part of starting fresh.
New life, new friends. Tho I'd be lying
if I said it didn't hurt to think
about.

I called Raph & he laughed when I
told him how I was watching
Disney movies. It was nice to
hear his laugh, I can almost picture
his face as he laughs. So close to
seeing him, then I can feel his arms
around me. I'll be able to kiss him
again. I can't wait...

I'm kinda sick of the video being brought
up. How can I move on if it's always being
mentioned. Not to mention the Docs insisting my
boyfriend leaked it. As if I don't know him
the best. As if I didn't consent to the
video. Again it would make no sense for it
to be him. It's just nonsense.

I can wear my normal clothes finally
and Edie started crying cause
it's like a big deal to be able to wear
clothes here. Can't wear my hoodie but
I got my t-shirt & jeans. My hoodie
has things on these girls' names.

Raph hacked KF from Raper so can't
see it even if tempted so I'm not in
trouble. I used to remind myself to smack
him if he looks at it.

One of the girls here is really sick
of kinder threatening so I just left instead
of creating conflict. I can't be upset, my
class is very mentally ill. But even to
move ~~out~~ this place. I think I'll just
call Raph again.

Just as Raph my dad tried saying
that means I'm going to trick
Raph into thinking I'm pregnant. I
didn't even say that. I was honest - was
taking two tests & the negative result
I got when I came in here. I even
said it could be stress. Like
yes it's weird but it's not a lie.
Keep Raph around.

I can wear my normal clothes finally
& poor Eddie started crying cause
it's like a big deal to be able to wear
clothes here. Couldn't wear my hoodie but
I got my t-shirt & jeans. My hoodie
has strings & those aren't allowed.

Ralph blocked KF from Router so can't
see it even if tempted so thank God for
that. I need to remind myself to smack
him if he looks at it.

One of the girls here is really sick
& kinda threatening so I just left instead
of creating conflict. I can't be upset, she
clearly is very mentally ill. But even to
much for this place. I think I'll just
call Ralph again.

Still no period, my dad tried saying
that means 'I'm trying to trick
Ralph into thinking I'm pregnant. I
didn't even say that, I was honest w/
taking two tests & the negative result
I got when I came in here. I even
had said it could be stress. Like,
yes it's weird but it's not a lie to
keep Ralph around.

I would like to know why my period ~~is~~ is late though. I mean this isn't normal for me. Though all of this isn't normal for me. So it could be just change of settings? But it was regular at home, so I'm not certain of anything. But certainly it isn't a scheme to keep Ralph w/ me. It's bullshit, my parents are truly trying anything. I understand where they are coming from but I've been getting help. And they've barely spoken to me. Ralph has called me multiple times every day I've been here. They've taken the route of lying & manipulating not only my boyfriend but also my doctors.

What's with pigeons being dicks in animated movies about animals, is it cause they're trash birds? Now I remember that video Ralph took at Hermosa w/ the birds. That was such a good day. If there is any reason to want my phone it's for those videos & our pictures. I know Ralph has copies & all but I'd still like my own. I hope mom & dad send me my picture album. I can add those to it.

When I get out Ralph mentioned wanting another pup, maybe we could get an emotional support dog? Not just for me but I think it would help us both. It just seems like a good idea for us. Plus it could help us bond, to take care of something together. A little Counsel type dog, haha. A fluffy rescue pup that's good for cuddling. I'll mention it to him when he calls later, I think he'll like the idea. First things first, just gotta get out of here. But something to think about. I do think things will be ok in the long run. They have to be, if me & Ralph are willing to work on our problems & stand together as a team to fight off all this bullshit. I'll do everything to stand by side & support him not only as a partner but as his friend. I can't wait to be home. I'm glad people here like me. That's a good trait I think I have, I usually can get people to like me or at least be friendly to me.

So me & Ralph were talking & how only way I can be kept here is if I'm a danger to myself or others & he said how it was laughable for me to be a threat towards others. Though that "not all there" girl was being rude about the phone. I just wanted to talk to my boyfriend, I haven't seen him in over a week. Though the tech, Theo, stood up for me. Which made me smile. Shadonna asked how I can be so nice to people, I explained that it's how I balance myself. If I am able to be kind to fellow man & bring joy to their life in any way I can I am happy. Now I'll trash or complain but overall I try to be as kind as possible.

Eddie just lectured me on my relationship, he doesn't understand the situation but because I'm living w/ him before marriage that makes it wrong. I've been nothing but kind, I even draw a stupid picture & made tea & shit. Yet he decided to trash on the only thing getting me through any of this. "who cares for you for 9 months?" Well who left me here & hasn't called me? Answer to both: My mom! Just because your dad doesn't make you wise.

I won Bingo & said it was cause I
had faith, hehe.

I finally get to listen to music!
It's all emo & Best Day in this
Place!

Lecture on pregnancy right now, bleh. But
negative on blood work to. Unless I'm
a freak case of constant negatives
or something. But I doubt it.

I'm all worked up thinking about Eddie's
bullshit. Like it's my relationship that he knows
nothing about but because he's eased ~~up~~ on a
few convos of mine he assumes he knows all. You
mean I call the only one who is currently supporting
me? But of course he wouldn't know since
he only makes assumptions. Then mocks him w/out
knowing him? Accuses him of pimping me?
Telling me to go home crying to my mom
because she didn't abort me? Assuming
that the few days he's even known of my
existence is enough to preach his bullshit &
to leave my boyfriend? Fuck that. This is because
of that new girl. She's only one crazier
then him. Thou shalt not judge, for they are not
the final judge. Should've said that.

That really mentally ill lady shouldn't be here because she VERY clearly is so mentally gone that she is not capable of her own choices. I don't think she even knows where she is half the time. Though I feel pity more than anything. I feel sorry she can't grasp her sense of reality. The more cynical part of me honestly believes it's an act. It's just all too... convenient. But I'm no mental health expert.

So the resident talked to me & tried to push me to stay but stopped as soon as I brought up that I never signed a release info agreement to include my parents on my case & that I was pretty clear that I didn't want them involved. The only person I HAVE actively wanted involved is my boyfriend, which they pretty much denied. Because of the info from my parents that they got without my permission, which the more I think of the more it upsets me. Like that was over the line & illegal as fuck. It's a huge violation on my rights as a patient. & they took advantage on my naivety about that. Which is all sorts of fucked up.

Tomorrow I'll be out, Ralph can hold me & we can put this huge mess behind us. Which is all I want in the end. I wish certain things turned out differently, like w/ my parents, but best to make some good out of all the negative. Some of the good is I've gotten a lot of my mental health under control, me & Ralph will learn to only grow stronger together, I made a new friend, people here have treated me w/ nothing but kindness, I found medication that works for me, if I focus on the good that has come from this whole ordeal then the negative doesn't seem so bad. Or at least it's minimal compared to the positives & benefits. Plus I do think a DBT therapist is my best route since it's more focused on self-harm & to distract the mind ~~from~~ from wanting the self-harm. Which was my problem, was the immediate gratification of that relief from cutting.

After I got lectured by Eddie I had a whole part in my head after as a response but now it feels so insignificant. While it enraged me at the time. Though that mentally ill lady is freaking me out w/ how she looks at me. I think she may actually wanna kill me, like I'm not even kidding with how she just stares at me like she wants to shank me or some shit. Plus I'm pretty sore it's her doing w/ the pencils & markers being gone. Ralph said he was gonna buy me new things to draw w/ as soon as I get out. Which I'd really like honestly, I wish I could draw more while in here though. Honestly think my "Traditional" art skills have improved since being in here. Another positive to look at in the long run, overall. One more day though & I'll see mi vida! That's what I'm most excited about. ~~It~~ IS to see Ralph. I'd gladly go through this a million times over to just see him. Less than 24 hours to go.

When you said I should sit still

Can I make it right, can I spend the night

At home

Night falls

I fall

& where were you?

& where were you?

While I, I died

& where were you?

I fell into the moon

& it covered you in blue

I fell into the moon

Can I make it right

Can I spend the night

Warm skin

Warm grin

& where were you?

& where were you?

High Tide

I hide

& where were you?

~~I fell into the moon~~ I crawled out of the world

when you said I should n't stay

Can I make it right, Can I spend the night

Alone.

I've literally been asleep all day, something I was trying to avoid. I am so stupid. I just want kiss my baby already. It's all I've been thinking about since.

Anthony is really flipping on Jesele. Like calling her fat & not pregnant & calling her baby stillborn, which in my opinion is too far. & he keeps disrespecting the poor staff. I actually really like the staff. They all have been super sweet to me & taking care of me, making me feel better when I've felt hopeless. I don't know I can't picture myself disrespecting the staff like that. It seems just so cruel. I know to us we seem like we're just another job, another task to be completed. But to them we are people who have struggled & don't want to anymore. They want to help, the least to do is appreciate & respect that. I don't know maybe those are my thoughts because I was raised by my mom who's life was saved by medical professionals & ~~my~~ my grandma Beatha & Grandpa Bruce were nurses, & crazy Grandpa worked as a tech, so maybe it's for that I have a lot of respect for medical professionals & staff.

Through choice, I pick him

I consider myself a passive preacher, I think the best way to convert a person is through showing them generosity & kindness even when your own life has fallen apart. I've faced trauma & hardships that have left me completely broken & crushed, I've let my mental illness control my actions, but I still have tried to show kindness. Even when I don't like someone I do what I can to show generosity. But also try to keep my religion into my politics. Like I try to distinguish between morality & legality. I can judge someone based on morals but overall if it doesn't infringe on someone else's rights then I could care less about the legality of the situation.

Through choice, I pick him

It's him I love
Even though this
He is my other Dove.
And I just simply miss.

Just to feel his presence,
Dopeamaine will flood.
For he is my present,
Love a flowering bud.

Even at my worst
I crave his voice,
My personal forest
Of independence & choice.

And with this fact
I choose him
And it is no act
Even if I'm dim.

I'm happy for fate,
because it played out
without any bait,
But with a load shoot.

I love you, Ethan
So very much
I'm your biggest fan,
Just I get to have your touch.

Shadonna seems excited to meet Ralph, which is kinda fun cause she's been a good friend to have here. It's nice to have someone around that I can vent to & laugh with even through all this stress & pain & someone who can talk to me like I'm an adult & not a child. Plus I think it's another positive from this ordeal, a new friend.

Ralph got a room at the Hyatt! It's gonna be so fun! We're gonna be fucking like ~~rabbits~~ Rabbits though. I keep thinking about his hands on me... I have every night. A collar around my neck as he yanks on my hair... I need to have it so bad!

I'm finally going home w/ mi vida! I am so excited & happy! I missed him so much & I finally get to feel his arms around me which I have been craving for a full week. I need this stupid meeting over already! Unfortunately Shadonna can't meet Ralph since she's leaving soon but I still have her number & she has mine so we'll be in touch thankfully.

August 18th 2020

Still had to sign some forms to be released, gonna be leaving around the afternoon & finally get to see my baby! That's what I am most excited about, seeing him. Right now I'm being nosey & watching the really mentally ill lady be carted away w/ police following close by. I knew this would happen honestly, that woman is behind this little volunteer program. And ~~that~~ they're strapping her down too, I hate to say that I knew this would happen. They're taking her to the real money bin. So I guess she really wasn't acting, which I feel bad about. I don't think she truly understands what is happening honestly. Which is why she is being taken away.

I got to talk to Nancy before leaving which is nice. Maybe I can attend one last group therapy session. That would be nice.

I made the last session just barely.

August 18th 2020

It's been a busy day. When I got out of the hospital I jumped into Ralph's arms & he picked me up & I even squealed. My dad & Chris have totally decided to prove they don't care or love me. Dad was talking shit & mentioned I've been in the psych ward. I am curious if I can sue for that also since it broke patient confidentiality. Chris did a stream w/ Mordane Matt & admitted to getting nudes from me as a minor. Because that's smart? I'm so happy to be back w/ Ralph though. He's still easing me into things & so for tonight I'm staying at the hotel during the show. I do appreciate that he's easing me back into things, I'll admit I have been a little overwhelmed since I got out. Like when we went to eat at Founding Farmers. Still just trying to adjust to so many people being around me who aren't more familiar faces. I'm gonna just watch The Office & eat pizza & nap. Didn't realize how much time I wasted on my phone & how it took care of a lot of boredom but phones kinda seem more irritating than before. It's also nice to not be on social media 24/7, I still know of things happening around me but I'm not swallowed by it whole. Still no self-harming urges, so that's another positive. Having some pain from the nose stop hard & Rousa sex w/ Ralph. Though using the pen to help.

The imagery of the bullet, pen, & pizza at my side literally is the most accurate representation of a female's mental health break which is hilarious to me. Plus fucking The Office in the background adds to that. Though the thought just hit me: Did Chris bring up the minor nudes as a way to make me look bad? His mom is so obsessed w/ the idea that the minor is in the wrong if an adult solicits a minor for sexual favors so I wonder if he thinks that's common? But honestly it just makes him look worse, I shouldn't be thinking about it. For the most part I have, but it alludes me how someone, especially someone who wants to be a cop, thinks that's ok. Part of recovering is going to let my angel over the trauma go. Not just for my mental health but also for my & Ralph's relationship. Thank God things like this don't last long, the internet has an attention span of a group of toddlers. Unless they are extremely autistic & obsessive. But people also autistically & obsessively support Ralph which is good. Not saying it's wrong to support Mi Vida just some people are so loyal & fanatics that someone could shoot up a school & they'd still send in "Fucking King!" type comments, Ralph has some people like that who will continue to watch & send money. I'm also pretty sure my dad will start a show of some kind in the process, father loves the attention.

I wish my menstrual pain would stop, it's getting so painful. Even just laying down feels so horrible, but it is a distraction. More of my penance I guess. Hopefully it doesn't take mi vida long to get back. I really miss him. I don't know if it's like separation anxiety of what but him being gone this long w/ no constant communication makes me miss him greatly. But at the same time makes me cherish every moment together far more. I hope ~~he~~ he comes back soon though. Maybe more neck rubs too 😊 ← Poor attempt at an emoji...

August 19th 2020

Mi Vida brought me a bunch of snacks so I don't starve & just a mini vodka but I was so tired that I didn't even bother drinking. Pks I was already nauseous & I didn't have any good mixes. Also his fans paid him like \$500+ to shave his head, now I'm thinking I should've definitely watched too stop him haha. We also found a little system so that I can fall asleep w/ sound on but he doesn't have too which is honestly amazing! We're going to get some food soon & maybe some Starbucks too. Though I need to find out who made mi vida shave his head cause now I can't play w/ his hair --. Though it's kinda fun to run my hand over his head, haha.

Staying at another hotel, mi Vida bought me some glitter pens & inking markers. My dad is trying to claim he can keep MY wallet, that has all things that are legally mine like my debit card, my ID, my Social Security card, etc. All things that are in my name & under my control. I don't care if they keep the phone & laptop, those can be easily replaced. But those are some pretty big essentials I need to have on my person. Not to mention those clothes, backpack, & purse are also all mine. It's well over \$200 worth of my stuff. They wanna take legal suit but if anyone has any case it's me. But they don't see that.

PANSexual

Mi Vida just left for work, Now it's time to kill some time. Let's try some of these Glitter pens:

Black Glitter pen

Red Glitter pen

Blue Glitter pen

Light Blue Glitter pen

Yellow Glitter pen

Purple Glitter pen

Magenta Glitter pen

Green Glitter pen

I really like these pens, maybe I can use the m to kinda organize my thoughts, make a little "Thoughts" key. That's what I'll do w/ my time.

Color key Thoughts:

Black | Random Thoughts

Red | Stressful Thoughts

Blue | Depressed Thoughts

Light Blue | Excited Thoughts

Yellow | Happy Thoughts

Purple | Curious Thoughts

Magenta | Frisky Thoughts

Green | Important Thoughts

Then I'll just title a section of notes or something with the colors to match the mood of the notes written. Maybe I can make a mood Tracker too.

This South Park episode is so fucking weird, like there's some 5 year old w/ cancer & shit. Like what the actual fuck is this that I am watching?

God I hate teen mom, everytime the ad for it comes up I just roll my eyes in annoyance. Like, yes please encourage sixteen year olds too think it's ok to get knocked up while in highschool because that's smart & moral in every way, shape, & form--

It's still a little weird to be so disconnected from other people, at least phone wise. It's a little nerve-wracking but it's a little better each day. Still have some anxiety about it though. Writing helps to take the anxiety away though, I just wish time would go a little faster. I hope I can get my wallet back though, I really want to get some new clothes on my own so I don't waste any of mi vida's money. But of course my dad is trying to make excuses for keeping my property. I'm sure Rayn will talk to Reikell for about how "legal" that is since I have repeatedly asked for my property back. Guess we will see.

I wanna ask mi vida if he wants to see New Mutants, it looks kinda cool. Plus it would be a fun little date for us. Especially since he wants to see Unhinged. I mean I wanna see it too but I think like a "Movie Day" type thing would be a fun outing together. Will bring the idea up.

It seems my period finally came but it is beyond painful, even w/ the peno. But it's super light & almost a pink color. The pain is going through to my legs so that they're buzzing w/ pain. It's also making me feel super nauseous & warm. There's still an hour till the show is supposed to be over. I'll need to ask Ralph to bring my pads, pretty sure they're still at home. But it hurts like hell.

I made some cute stickers & made a little pillowcase one for mi vida. Can't wait to show him when he comes back. I think he'll like it. He always gives me kisses & snuggles so much I can't really need with my own right now. I hope he comes back soon. (2)

August 20th 2020

we had a nice walk in the park, I'm hopeful we can make that a regular thing cause it's good exercise but it's also pretty. I really liked it, it was a perfect little outing.

Ugh I hurt so much w/ my clamping. I feel like almost throwing up from how much it hurts. Hopefully Ralph comes back soon w/ some pain killers cause I am shaking in pain. Sleeping helped me be distracted a bit, had some weird as fuck dreams. But I also can't tell what time it is cause the clock reset & it doesn't say on the TV so I have no idea how long till the show ends either. If the pain keeps up this bad I don't know what I'm gonna do.

I made some cutesy stickers & made a little KillStream one for mi video. Can't wait to show him when he comes back, I think he'll like it. He'll probably give me kisses & snuggles too which I desperately need with my pain right now. I hope he comes back soon 😞

August 24th 2020

Forgot what today is but haven't been able to write for the weekend. Too tired to bother with the Glitter pens right now. On Friday we went to a party, I met Cassandra & her boyfriend & her daughter & her daughter's dad. They were all really nice, her daughter was the cutest thing ever though. We spent the night at Cassandra's, they had a cute office with a futon me & mi vida slept on.

Then Saturday we went to DC & got drunk with Christain & Yoni. Yoni got super fucked though, I don't know if it was a combo of ALL those drinks he had & the hits from the pen but he was going off. We had this really nice guy perform cool magic tricks for us, & you could tell he was really into it, & then Yoni started calling the poor dude a Satanist. Then started harassing this couple sitting next to us. We then sent him home, Christain got a pretty ~~funny~~ funny picture of Yoni just passed out on the floor. Me & Ralph went back to the restaurant too sobered up & eat. Now we're finally back home, I've been bingeing American Horror Story. Finally watched Freakshow, now watching Coven. Freakshow was pretty good but still can't beat Asylum in my opinion. Right now mi vida is working. I may write mini reviews in my journal since I can't make videos right now. Something to make me feel busy or even entertained. Maybe I can get a sketchbook soon, that'll help.

I kinda wanted to watch the show tonight but I may have to wait longer. If I get it, I just like seeing him getting all amped up for his work. It's nice to see. Plus it's adorable, especially when he looks over at me & gives me that loving look. It's the same look he gave me when he first held me. The same look he gives when he tells me he loves me. I love that look. It makes me feel so complete & my heart starts fluttering. Especially while his arms are around me. It makes everything easier to deal with. It helps with all the crazy going on in what my life is. He just helps in general so much, his kisses, his embrace, his presence, his love, I want to be worthy of it all. Be a perfect housewife, do what I need to. I can't wait for the mess to be over. It seems to be cooling off a little bit now. Chris emailed mi vida though, begging to "talk as friends". If he wanted my friendship he wouldn't have groomed me at 19. I wish more people knew how that "man" had scared me into being with him. How he threatened me, my family, my brothers. He & my own father releasing my private traumas, as if it is their story to tell instead of my own. After pro claiming they care for my health above all else. Playing with me then crying when I took

what I learned from them & used it against them. Should I have done what they did to me? No. Instead of rising above their pitiful selves I only lowered myself & let the illnesses I have play in my head to justify my actions. But now I can be better. Me & Ralph can do what we can to be the best we can be. Live a happy life, marry, have kids, take silly trips & watch things together. Just be together. I have security & trust in his love & in all honesty I haven't ever felt that before. I will say when he brought up going to a strip club I was livid & wanted to cry. I know I'm pan, I get that I'm a degenerate who's scarily into pain, but there's another level to adding someone else to sex. Man or woman. I know the saying is "it's just sex" but it's different for me. It always has been. I'll find a person objectively attractive but to actually want to have sex with someone I have always needed to have feelings. One way to ever want someone in that way, just to feel deeply for them. & now that I have sex daily with someone I love, no matter how rough or kinky, it has some deeper meaning to me. And to share that? To share something that makes me feel so whole with another especially when I need it more than ever hurts more than anything I've felt. Am I not enough for him? or is it simply that we see sex differently? I know we have to, not just based on gender but experiences. He's had sex far more than I.

Is it wrong to be my sexuality & feel
jealousy over that thought? or to tear up &
feel a stabbing in my chest? Am I supposed
to want multiple partners? I don't want to tell
Ralph how badly it hurt, honestly how hurt I
was. Even if I was so drunk, I can't do it.
I just can't bear that pain. I don't want him
to know how badly it hurts because I don't
want him to feel bad. But I also want him
to understand that it is a big boundary for
me. Even with my sexuality, even with my love
of big tits, but I don't want another woman
touching him like I touch him. I don't care when
he's on the show & sexualizing other women or
even me because it's a show. Entertainment for other
people. But when he seriously suggests another
be apart of our sex... I swear I may cry
next time. Writing about it helps though, I
couldn't write a lot of these thoughts down
because I didn't have my book with me so it
has been spiraling around in my head all weekend
since I heard it. Just getting it all written &
off my chest has been relieving & therapeutic.
Still waiting for the show to be over so he
can come snuggle me & kiss me. I love that
man. Even if some pain still lingers, even if I
still need to recover from trauma that still
plagues my mind & in my nightmares. Even
with all that I still love mi vida, more
than anything.

AHS COVEN

& this is what happens when I binge, I draw god awful references to said binge. I kinda like how this came out, simple but screams "witch coven". I like how the glitter doesn't ruin it either. It kinda adds

August 25th 2020
We're talking about going to El Paso for our birthday. Since our birthdays are so close together, we can stay with his friend for a week & go shooting. I need to think about what to get him. I'm sure I will figure something sweet & meaningful out. Multiple gifts even. Lots of kisses & snuggles as well. I'm kinda glad our birthdays are so close so we can celebrate together. It's not like just for me or him. It's for us both. To both be happy. Honestly, I always felt selfish for requesting birthday treats, I felt selfish asking for anything ever. I don't feel worthy of gifts or birthday celebrations but now that it's not just for me & that I can share it with my love. I couldn't ask for a better birthday gift. A celebration we can both take joy in. We can both take pleasure in it, & that makes me far more excited for my birthday than I have for any of my birthdays. More excited than that trip to Reno for a spa trip with mama & crazy grandma. Because now I can have the best gift of all: my baby's smile. His happiness. His love. This will be the best birthday, even if it's the first one I'll have without my parents or brothers. Even if I miss my brothers I will send them birthday & Christmas gifts. But not my parents. Not after releasing my private mental health matters & issues to all of the people who ruthlessly mocked me for them. Lied about me & targeted my brothers. Fuck them.

August 25th 2020

So Chris tried to send me a package full of stuff, I didn't get a look inside of it. But Ralph opened it & said there were things like clothes & notebooks & a letter. Gave me such a panic attack to see. Ralph said it didn't surprise him, that he thought something like that would happen. But he doesn't think that Chris would be dumb enough to come to the house. I disagree. I think he'd say it was a "Rescue" attempt. He is that dumb & that crazy. He's always had an obsession with me since I was 14. We just got back from watching *Unhinged*, it was just so goofy. Not a movie I'd go out of my way to see again in all honesty. But it was fun to just sit there & snuggle & eat a nauseating amount of popcorn. Though I was so close to passing out cause I was exhausted. Still kind of am. I also remember a nightmare I had, where I was pregnant. I gave birth to a daughter, she had Ralph's beautiful blue eyes & little freckles. But the dream turned into a nightmare, my own father took my child. & there was nothing I could do, I remember feeling trapped & unable of moving or running for my daughter. Just paralyzing fear. It wouldn't happen, not for real, but that is how much I fear my parents. Maybe a sign to illustrate how ill-prepared I am for motherhood.

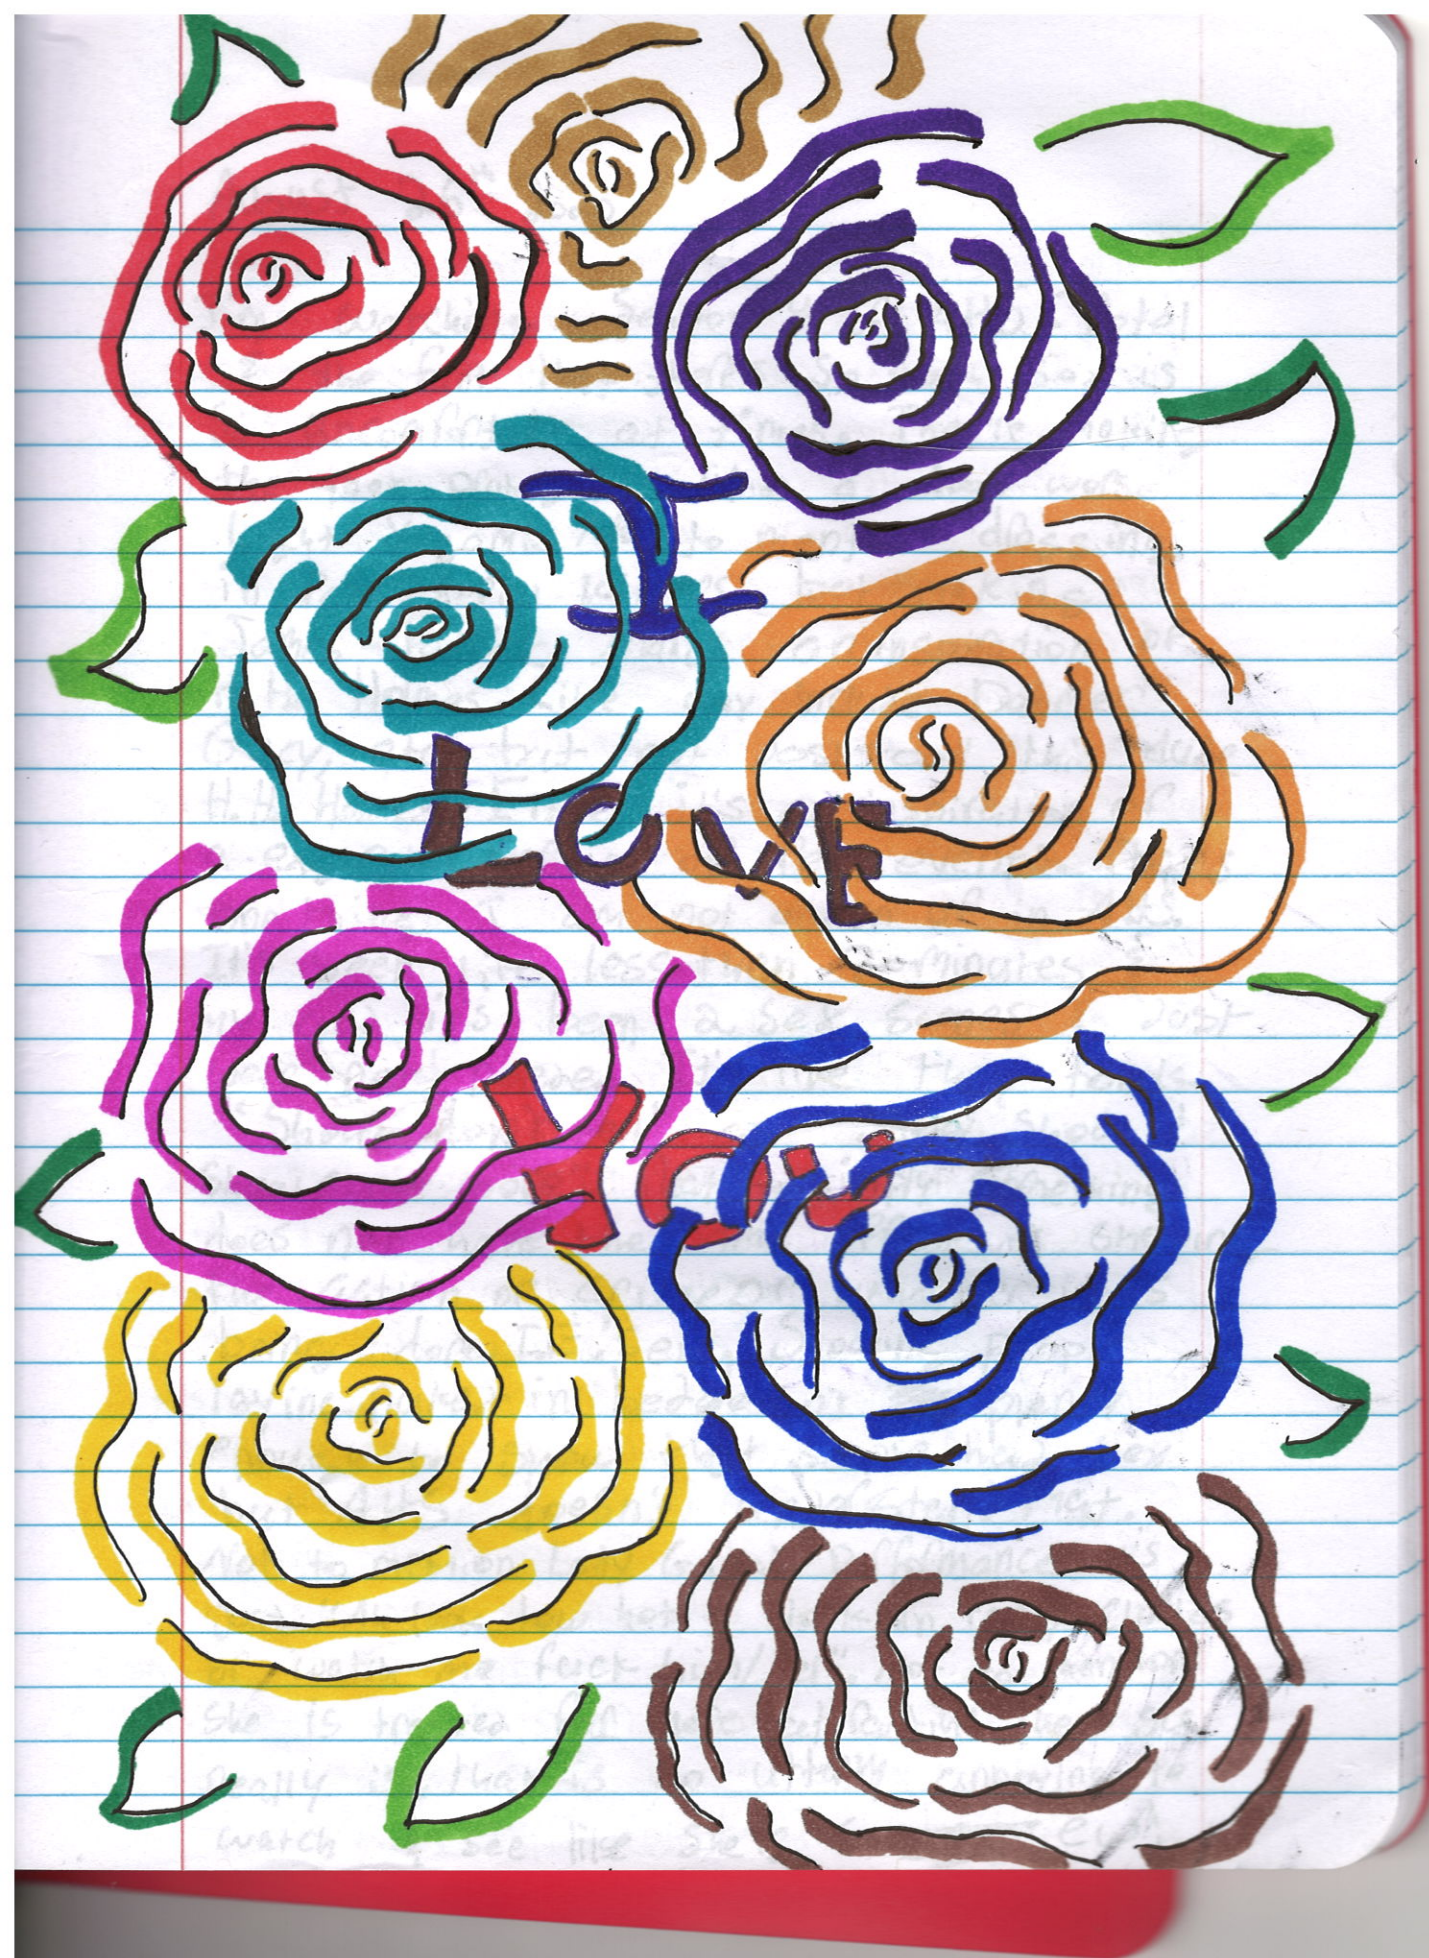

I know I had more bad dreams but I can't remember them at all. I just know they happened. I know that I still have them a lot but I don't remember them. I'm debating on making a sandwich honestly. I'm kinda hungry. But also sleepy. I'm also Cuddly but also hungry.

I got so hungry that I drew a cupcake. I would love a sandwich though. But my legs are so sore from fucking though. But fuck does a sandwich sound fucking great. I could make one but I want to lay down a little bit.

I'll eat after I'm done binging AHS because I must finish.

Finished Season 3, Coven. Now I'm watching Hotel.

August 26th 2020

I'm watching Season 4 of AHS: Hotel
& the fact that there's so much sex is
so uncomfortable at times. They're making
the main protagonist like a 100x worse
Light Yagami. Not to mention dragging
in real serial killers but making
James Patrick March an inspiration of
H.H. Holmes. Like why include Dahmer,
Gacy, etc. but not just call this dude
H.H. Holmes. Either it's an inspiration of
a exaggerated version of real events. That's
one thing I am not a fan of in AHS.
It's been like less then 30 minutes &
my god it's been 2 sex scenes & just
were not needed. It's like they took
"Show don't tell" as "Show, Show, &
Show some more". That to imply something
does not have the same effect as showing
the action or crime or whatever it is
being done. It's sex. Showing people
laying naked in bed doesn't ~~show~~ plenty
enough to show that people have sex
but AHS doesn't understand that.
Not to mention Lady Gaga's performance, it's
just "Ah look how hot I look in fancy clothes
or watch me fuck him/her". Not to mention
she is treated far more attractive then she
really is, that is so utterly annoying to
watch & see like she is so ~~ew~~ ew!

Though the ~~guy~~ girl on girl action while being stoned is... interesting. Interesting enough that I wish mi vida was under me as I kissed him hehe. Funny part though is they respect the trans pronouns. They all call Liz a she, they've made jokes sure, but not one has been a dick & gone all crazy on Liz. The most they did was call him faggot. ~~Gaga~~ Gaga is such a bad actress like she always looks like she's lying. I'm so hungry again. Though this scene with Liz & her son was heart touching. I loved it actually, it's kinda sweet. But then the next scene was Gaga & ruined it all together. Though knowing American Horror Story the son is gonna die. ~~Another~~ Another funny part is Iris' tribute video to herself. I think out of all the characters Liz is my favorite, sassy but morbid & funny. Plus the most actually complex & multi-layered character of them all. Finally looks like they killed her off enough of the stupid vampire gaga shit. I HATE that character so much. Just so annoying to see. Damn it, they just killed off the stupid pretty boy. That is such bullshit that it's stupid. Also why all the threesomes in this show. Like in this season there are more threesomes than Woodstock for some reference I've never been so I don't know at all. There's also a lot of child death in this show. It's so

Melciess. But Liz & Iris' Partnership is Funny. Though I don't like they're attempt to kill Queenie. I never liked them all co-existing in the same universe. I think it's lazy or at least less entertaining. Like it would be cooler for them to exist in certain universes with certain rules. Now if there were spin offs from other seasons then that would be kinda cool. But to have them all co-exist is so much less interesting. Or like where each sub-category ~~of~~ of horror is in the same universe. Like Hotel, Murder House, & Coven all involve Ghosts + other Supernatural creatures could all be the same universe but Freaky Show, Cult, & 1987 could all be in the same since it's more like slashier type horror rather than leaning on Supernatural. Hotel is just trying to be as funny as Cult but also as dramatic as Murder House but as scary as Roanoke. It has it's moments, like Sally being a social media star or finding a way to keep up appearances for the fashion business those ideas are so cool. But when Gaga comes in or her pretty boy I can't help but roll my eyes at the attempt. Had to keep myself from doinking out to Mi Vida about the show. I do think it helps to write about it though.

ugh more Lady Gaga, I thought she was no more! Oh well Season 4 is done finally. I'll rewatch Roanoke till Mi Vida comes back & I can force him to watch Murder House. Or ride him. Or both. I found out when I ride him I cum incredibly hard, which may be TMI but literally it feels amazing. I could write so many pages of how amazing it feels when we have sex, pages on top of pages. I know I have a high libido but it feels a little different. It's a craving I haven't felt before. And I think it's because I love him. Because I have never felt that with someone else before. I have never craved for someone like I crave Mi Vida. Especially when I'm under the influence. I'm not sure why, I am slightly curious how it would be on Acid. Would that craving intensify? Would it feel longer? I'm scared of trying Acid with my anxiety, though. Sometimes even THC can trigger me to overthink & have anxious thoughts. So I'm not sure how I would be on something that's a lot different than THC. I know Ralph wants to try it with me. Could I do that for Mi Vida? Take that step & do that with him? I don't think he'd pressure me too an obscene extent but he'd for sure try pursuing me into it. I might as well. There's no way I'll know

My dad is also emailing Mi Vida's guests to the point Boogie unfollowed him. I feel terrible. It is my fault, if I wasn't such a useless piece of shit it would n't be happening. Some nights are harder then others, with mourning the detachment from my family. Sometimes I wish for my mom to hug me, even when I am so angry & hurt by them. Part of me thinks of all the things I could have done. But what can I do now? Nothing. Is it better to do nothing & sit in bed to only think? To Resent my mom & dad for all this pain. How they think my mental health crisis was free to share? I'm still waiting for them to release my rape statement. Or worse, contact Joe & then he can speak publicly. He'll say he never raped nor abused me. But I relive that day too much to bare. And of course he'll never pay for what he did too me, but never pay for his other victims. Part of that - if not all - is on me not reporting & just being silent for so long. But no one would come forward & finally when I do it's too late. Joe will never face justice, neither will the cop who turned me down. Am I so terrible that my rapist deserves to walk free & seek no punishment? Is that part of my penance, to see that play out? For him to contact & torment me every year or so? I desperately hope it is a test & that in the long run it will come to a stop.

It seems now everytime that Mi Vida has to do streams I count down the seconds till he's back in bed with me. Just for his arms to be around me. New Mutants is out too & we're gonna see it hopefully in a drive-in so we can get high & make-out in the car. Maybe I can suck his dick while we're watching, get some fast food before we get there? Just some thoughts about that night. Still counting till Mi Vida comes to bed so he can spoon me & kiss me. & fuck me & make me cum all over his cock. Maybe use the ~~new~~ whip or even the candles. I am in such a mood for sex right now. Especially with the candles & ~~new~~ whip. Not even the cuffs, just the candles & pain. I'm certain I can get Mi Vida to use some fun toys on me tonight. I think. But if he's tired then maybe not. Downside to his line of work is how late it goes on. Plus today I've barely seen him or at least just haven't spent a lot ~~time~~ of time together today. I just want to feel intimate but we will tonight & tomorrow, & for many many more years. Plus it's been a busy day I'm sure. Well busy week since I got out. Still can't believe it's already been a week. I also just found out that Ralph's middle name is Oliver & for some reason I just thought that was the cutest

Shit ever. Something about the name
oliver screams "ADORABLE" at me.
I can hear him yelling in the studio
from the room. I can hear him banging on
the desk but can't tell if that's anger or
if he's just pumped up. Or he's trying to
entertain the audience maybe? I also keep
debating to get My Mint @leos with
some milk. Because that sounds amazing
right now. I think I will get some
cause I am stoned as all shit currently.
I ate all the thin mint @leos. That is how stoned
I am right now. We're gonna eat the flatbread
we got at the store & I am so wanting
more. I also noticed the witch in Reanake
was fucking Lady Gaga. I had never noticed
until now. Just now noticing how many
pages I've written today, either it's from the
boredom or THC in my system. I'd love
more sweets with milk right now. But
THC also has made me horny as hell too.
I hope the podcast upload is almost done so I
can fuck right now. Use the wax & drip it
down my chest & stomach & thighs. Maybe
have the wax dripped as he eats me out. God I
need that right now. THC makes me so
horny that I can't even restrain writing about
it. It's all that's going through my head right
now. It's mi vida fucking me & causing me physical
pain. Grabbing my ass & fingering me.

August 27th 2020

I saw that little skeleton cat Gid got me on my birthday & it hit. The pain of missing him & hearing his voice & facetimeing him. I'm certain mom & dad convinced him that I deserted them all. I just want to hold my baby brothers & tell them how desperately I miss them. I'm the one who raised them, I put so much time into taking care of them. I would show them off & how much I loved them. But I haven't even seen their faces in a two week time span. No pictures, no videos. I can't get them from my Instagram cause it's gone, & it's some of the worst pain I have felt. So much so that I had the first nightmare I've had in a while that I woke up yelling. I haven't had one of those for a really long time. At least before I had pictures & videos, like the one where I had was absolutely terrified of this duck that was in Disneyland. Or Giddy as Pennywise for halloween. I don't get to see those anymore. No suicidal thoughts have occurred but I have had the "Things would be better if I was dead" type thoughts. I don't actively want to end my life but I'm at that point that if I was bleeding out & I had to keep fighting to live I don't think I would fight very hard to keep living.

5656 "15 tawna
Mi vida ~~took~~ took me to get some
sushi & then we went to this nice art
store & I got a sketch book & pencils.
Then to "Say thanks" we had amazing
sex haha. I'm also binging True Crime
Docs & stuff like that. I'd watch Youtube
but mi vida probably doesn't want me
to yet. Still can't watch the Show yet, even
though it can get really boring without
him with me. Like, yes I like some time
alone but I also want some time with
my baby. Seriously I want a day with him
like the first weekend I was here where we
just got high & fucked all day. It's days
like that are so stress relieving. Still waiting
for Show to be over, he mentioned using the
bullet tonight which is: Yes Please! I love
using that thing, it's so amazing. Maybe we
can use the candles too. The whip maybe
too? I need that like so badly right now.
Still just counting down till the Show is
over so mi vida can come to bed &
fuck my brains out. I hope it doesn't take all
night tonight. Especially with Trump being
live. I hope he lets me watch the Show
again soon so I'm not as bored while he's
on. Then I can have something to do other
than binge watch true crime docs & know
every serial killer ever by name till my
knowledge is nothing else but that.

August 28th 2020

VMM

We just got back from watching New Mutants which was really fun. I may have to make a statement though soon because my dad keeps releasing shit & it's insanity. Some days are better than others when it comes to thinking about my parents. Some days they're just dead to me & I don't think about them. Others feel harder to bare, accepting they don't love me can be hard to remember. I'm just trying to be brave for mi vida. I just don't want him to worry too much about me. I already feel like a giant burden on him sometimes. But I get to watch the show tonight, finally. I think that'll be some fun cause I won't be alone in bed trying to pass the time till the show is over. I kinda missed watching in the corner. I can't wait till we set up my desk cause it'll be easier to draw with a desk. It'll be just kinda nice to have my own little area. Then I can keep my art stuff somewhere other than the side of the bed where it could get stepped on. Plus I can keep my little knick knacks on the desk too. So the show started... & he forgot I wanted to watch tonight... So yet another night of counting down the seconds till it's over. At least we have the weekend to spend...

I can hear him yelling, hope it's all ok.
But I won't know till it's over. So I'm just
sit & wait till then. I drew so much my hand
hurts. I'd love to watch some ~~draw~~ drawing
videos. Like it's fun 2 draw was one of my
favorite channels that had drawing videos. But
Ralph still wants me off Youtube. So no drawing
videos yet. Maybe if I ask tomorrow, like so he
can supervise me? or just so he knows I'm
watching videos about us or everything. I don't
know but Netflix can get boring after a while.
Like I don't just watch drama or commentary
videos. And frankly I don't want to just yet
cause it's just too much effort to pay attention
to it all. I can hear him still yelling, I
wonder how much longer? My dad was threatening
to send wellness checks... After disowning me
not just publicly but also released a shit ton
of very private info about my mental health,
yet he has the nerve to threaten wellness
checks if I don't have contact? Sometimes
all of this makes me want to cry in agony
& disbelief. That my mom, who has her fair
share of mental issues, can say she approves
of the releasing of my mental treatment? She
ran into her room with a god damn knife
threatening to kill herself. But if I released
that I'd be portrayed publicly by my own
parents that I have to be sociopathic
to bring it up. My mom suffers from

August 29th 2020
very similar trauma as me. Which is why her standing by my dad is so shocking. She actively picked my dad over me. Her daughter, her first baby. I'm the one who was in her womb for 9 months, but I guess her husband - The one she claimed to be abusive to her - is more important to her than her first born. Well no wonder I have low self esteem when my mother will happily let a man come before me. He can have support through releasing my private medical crisis but she can't call me more than once in the hospital or tell the truth about Chris being told where I am. I'm not even questioning about my dad because he didn't carry me around for 9 months. But apparently my dad released more text messages that he had with mi Vida. I don't know what he's trying to accomplish with doing that, like what's so incriminating about asking for my ~~the~~ property back or saying if he doesn't stop that we'll need to put out a statement from me.

Ideas for gifts for Mirida:

- Kill Stream Shot glass
- Lemon ~~car~~ car decal (with words "superchat mobile")
- Bodack shirts
- Commissioned art
- new desk chair

I think for Christmas I'm gonna buy the boys gifts & just sending them in a package wrapped & ready for opening. I'll do same with every family member that I can send gifts to. More doctor who things for Eyore, something Avatar; THAI for William, Giddy may like a stuffed Ape plushie, & Chad can have something Mickey mouse related. Maybe a goofy hat? It's only barely September but I like planning this shit out. I don't think I'll get mom & dad anything this year. I think for Chad, April, & the kids can be a fleece blanket with family pictures of them? & some family bible quote in the middle? For crazy Grandma I'll make some supernatural themed mug, actually scratch that I'm gonna make her that Bar Bar dinks mug. Grandma Reatha is always the hardest but maybe like one of those glass blocks w/ the picture in them w/ like her & grandpa Bruce's wedding picture?

I like the little ideas I have for the boys, hopefully I can get a printer so I can draw some of these designs. Then I can upload them on shirts or whatever? I may get them multiple gifts too, I think it'll be a good idea. That is a little hard to figure gifts out since he's still tiny. First I need to get Willy's Birthday gift, the Eyore's, then all their Christmas gifts, ~~that's~~ That's Birthday gift, then Giddy's.

Riley is his girlfriend. I like hanging out with all of them, they're really fun & nice. I am a little nervous cause I'm certain they know what I'm doing. I know Christina & Lori know about the video boys looked so it's a given for them that they know too & maybe even more. But they're nice so I don't think it'll be bluish. Mr. Wida also brought me the whole Kingdom Hearts collection! I finally got to the Fall with the Satan from Fantasie which is always a bitch. I don't know why they don't have a Save Point after you defeat Satan. Or let you go back to the old Save Point. I think I'll just try the Hercules cup again, it's not as hard (except for defeating crowd).

September 2nd 2020

It's now September, my 14th birthday is now 15 days away. I'm now closer to 20 than I am 17 which is... a weird feeling in all honesty. Still haven't spoken to any family, or friends. We're going to DC this weekend & may stay at Yoni's, if not then Yoni offered to split pay for a room for us as a "sorry" for when he got incoherently drunk. We're gonna meet one of Mi Vida's patrons & we're gonna see Max & Grey & Riley & his girlfriend. I like hanging out with all of them, they're really fun & nice. I do feel a little nervous just cause I'm certain they know what happened. I know Christina & Yoni know about the video being leaked so it's a given to think they know too & maybe even more. But they're nice so I don't think it'll be brought up. Mi Vida also bought me the whole Kingdom Hearts collection! I finally got to the Part with the Satan from Fantasia which is always a bitch. I don't know why they don't have a save point after you defeat Satan. Or let you go back to the old save point. I think I'll just try the Hecates cup again, it's not as hard (except for defeating crowd).

Still kinda wish I could watch
some drawing videos, especially some
Disney drawing videos. I forgot to
ask if it would be ok just to
watch drawing videos. I don't think
he'd mind but I want confirmation
beforehand so if I do we won't end
up fighting or something. I could
try from memory but that is 10x
harder than from reference or from a
"How-to" video. I'll ask tonight, I'd
really like to draw some Disney stuff
like in Cali Adventures in the little
drawing class they have. ~~Have~~ Have to
wait for the show to be over so
I can spend some time with mi
vids.

September 3rd 2020

So dad got into my Discord after lying in a note that he didn't have access to my accounts or devices. Then he keeps threatening to have mi vida arrested but... for what? The video was recorded with my consent, there's no evidence mi vida leaked it, he & I have not responded to him & most mi vida has done is say that he won't be able to see his grandkid because he's done this which is true. If my mom tells me she doesn't support what my dad has done then I'll let her see her grandchild but if she is supporting this harassment & lies then she won't be able to either. My brothers can see whatever kid me & mi vida have because they haven't done anything wrong nor have they betrayed me in such a way. My dad thinks he's basically God but now he has a small Autistic Audience to suck him off & boost his ego so that he believes everything he says. Even if it's a lie. I've wanted to cry from this all so badly because it is heart breaking but I'm trying to be as tough as I can.

I may have to put out a Statement but I don't know. This weekend ~~we~~ will hopefully be a relief, we may leave tomorrow instead for DC. We're gonna see May, Grey, Riley, Riley's GF, Canstein, Yoni, & a few more people so it'll definitely be busy enough to distract me from everything & being without my phone & no communication, w/ anyone else right now. Past 3 days I've just been playing Kingdom Hearts which is honestly very therapeutic. I'm still drawing too so I'm not just playing video games all day. I've been having dreams where my birthday gift to mi vida is a positive pregnancy test in a little box. Honestly I would be very happy to do that too, it would be adorable to see his reaction to that too. I think he'd be really happy but first I'd need to be pregnant for any of that to work. Maybe I am & that's why I'm having those dreams? Doubt it but I'd love that so much even if I'm ~~not~~ not trying but we still aren't using any birth control so it's possible but not sure how likely it is. Maybe by Christmas & I could buy a little Onesie that says "Can't abort the Petoff" with the test on top of it. I hope that's how it works out honestly.

would a baby bring us closer
right now? Would it make us
spend more time? I assume yes
but of course I know nothing
about any of it. Now I have to
wait for the podcast to be uploaded
which feels like forever sometimes. I
just really wanna spend time with mi
vida already. It feels like this
week we haven't spent any time together.
I know he has work & all but I
just feel a little lonely without him
all day except for a few hours at
night. But we'll thankfully have the
weekend with friends. But I'll persuade
mi vida to press on my back cause
it needs to pop like really badly.
Also just hit me: Dad is trying to
get mi vida arrested for just being
with me but he's fine with Chris. A
man who actively groomed me when
I was 14 & would abuse me all
the time. So he's ok to talk with
& support, but the one actively not
only helping my mental health but also
actively picked his caller for me. The one
who didn't abuse me as a young teen.
But it's a-ok to give Chris my location
& tell him I was in the hospital. It's been
so hard to not break down crying.

I still really hope that the weekend will be more fun then stressful. It seems like it will be, thankfully. & it doesn't seem like May hates me. She was asking Mi Vida what was my phone situation cause she was trying to check up on me & make sure I was ok. Which made me feel better cause I really like her. She & I get along very well & it's good cause I don't have any friends here so having ones I can see more often is really great honestly. It's been great to get out & hang out with people that are nice. I wonder if people sale actual "Sticky Quips" cause I want some just for the sake of it. Also wonder if someone does custom Punties cause I think if I made one for Mi Vida for his birthday or Christmas would be fun to do. I have a bunch of ideas for gifts for him for his birthday & Christmas. A lot that I think he'll really like which makes me all excited cause I really wanna work hard on those gifts. But it means I'll have to save up a lot for everything. I think the personalized stuff means a lot more cause it's some extra thought into it & it's also fun to make personalized gifts. Though if we're leaving tomorrow I need to do

September 9th 2020

Some laundry so I can actually wear some clean clothing. I'm gonna try my best to not get too drunk this weekend either. I think that's partially why I'm not pregnant yet is because of how heavily I was drinking. So maybe if I lay off more then it'll increase my chances which is what I kinda want. Not as like a top priority but I'd like it in my life, especially since I don't have any blood family around or in contact. My own little one that I know is blood would be nice for the times I miss my family.

September 9th 2020

The weekend was fun, however I did get pretty messed up honestly. I got sick from how much I drank. Thankfully at happy's they never bother to card me. I think it's because they don't assume Ralph isn't stupid enough to date someone under 21. Dad & Mom did an interview with Godwinson which broke me honestly. It just shows me they really don't care about me. Just about making a point. My parents also hacked into my shit, which is illegal. I've tried not crying so much because of it. It also ruins any chance at legal action against Joe. Not like they care that they've ruined my rape case. I'm not perfect nor am I the best person ever, but do I deserve having any form of justice against my rape taken away by my own parents? There is a difference between a bunch of random people online trying to discredit me, but my own parents publicly? They've not only ruined my chance at finding closure & justice but any chance at a career that I desperately wanted. That was all done by my parents. They also assume just because if Ralph kicked me out I'd go home & not to anyone else like May or even Shadonna. I had to put out a statement to try & address all this shit. It hurts.

Am I just that worthless that my own mom
& dad attack me like this, my own parents
who ruined any chance I had at finding
closure & justice? I know what I did
was beyond terrible, but is this what I
am worth to my parents? It's so hard
to even think how my own parents did
that to me. & how they could do the
stream that had to have my brothers
away for 3 hours. It still kills me to
think about any of it. Ralph says we
should get married so that legally my
parents can't do shit & how my next of
kin rights go to him. It also means
if we need to get a restraining order against
my parents then it will cover ~~me~~ us both
rather than needing two separate orders.
What if now of all times I got pregnant?
It honestly might be a happy thing. A
little bundle of joy to call our own & to
look forward to, it would be nice to do.
But if I was my parents would fight
harder to get me home because they will
say some bullshit like their grand child would
be ruined. I just filled up my
sketch book & even made some
sticker & tattoo designs & now my hand
is in so much pain. Dad keeps claiming he's
pressing legal charges but I can't even
think of one. Plus all the "evidence" is

through illegal means, it's admissable.
Yet they can't address how they ruined
my chances at my civil case. They're
talking so much shit & siding with
people who actively wished for me to
self-harm, mocked my sexual assault,
~~played~~ played on my mental health, all
because they don't like Ralph?

I don't know how anyone doesn't see
this as pathetic? Also again, what
legal grounds do they have? Revenge
porn doesn't work since I was the one
in the video & won't press charges
because I don't believe Ralph released
it. They can't use messages on private
accounts since it's my account, so drug
use? But that's not something they
can press charges on because it's
not a crime with a victim. Then they
went on about how I "couldn't have had such a
nice wedding" if I did what they said. How
is that not fucking abusive & narcissistic?
It's pathetic & sad & stupid beyond all
belief. What will they do next, SWAT us?

All for "my sake"? I wouldn't put it
past them to do. I think we should post
the notes since they're so fond of releasing
of ~~the~~ private shit. I miss texting May
& talking to Shadonna about this
all & it kills me so much.

I really hate that it's all happening
I hate my parents are this heartless.
I hope it causes them a facking divorce
& my grandmas disowning them.

September 10th 2020

I wish I had a phone right now just so I could design Ralph's birthday gift since it's only 10 days away. I wanna get him a little short glass with the killstream logo or something Bojack or both. If my parents didn't steal money off my card I should have enough for multiple things. I'd love to search Etsy for ideas but with no phone or laptop I can't which is irritating especially since we have the open phone policy so he can see any gift I search for. I'll have to talk to him about it tonight so I have an idea of how I can get him his birthday gift & to check the money in my account to see if I need to then rage about my parents stealing my money next. Since they love doing pretty much immoral shit to prove a point & it's all disgusting. I wonder what he has planned for our birthdays or what he plans to get me. I hope we can mostly just spend time together. That's what I'd really like since he's been so busy & working so much. I hope I can start helping with the merch stuff too cause that will be really fun & then I could help out a little bit with everything. Plus I have some experience doing that kind of stuff so I don't need a lot of like explaining on how to do it. I just need something to do when I don't have a lot to do in the first place.

September 13th 2020

It's late but still technically the 13th which means 4 more days till I turn 19. Mom tweeted at Mi Vida yesterday claiming if my brothers sent me gifts that Ralph would throw them away, which is completely untrue. Then he tweeted back saying how she should text him but she said she wanted to talk to me... after taking my phone & laptop & refusing to give it back. I cried while Ralph slept thinking about how my own mother has made the justice for my rape unreachable. My mother who herself was molested, instead of objecting to the destruction of her own daughter's case against a sexual crime stood by & let it happen with little regard to my well-being. Part of me still wants to defend her even now but it keeps fading the more it comes clear just how little I mean to her. How when she said her babies came first before all else was just a lie. Because if I really came before my dad she wouldn't have gone on Godwinson's Show & made a fucking social media account to relentlessly attack & abuse me under the disguise & deception of worry, concern & love. It's bullshit

Dear mom & dad,

I will not write separate notes since you want to proclaim how you're in this together, how mom supports all of this, how dad does the ~~same~~ same with mom. I assume you both claim you are christians, so please tell me what god would approve of this abuse. I'm not talking about the wish-washy stuff from when I was home, but all of the current mistreatment. What god approves of releasing your daughter's private mental treatment the day she is released? Something my doctors didn't have a right to tell you but did in hopes that it would help me. The same ones who proclaimed how you both loved me & wouldn't hurt me only to look disgusted when I told them how my own father had publicly disowned me, because they did believe you loved me. You called me once & didn't bother to leave your number. For a week I couldn't speak to anyone but Ralph because he cared enough to leave his number. You want to say how morally you're better, it's not true. Even after the pain I caused him & he saw all of the wrong I did he not once yelled at me, insulted me, or went to hurt me. He offered me real help & care & actively made an effort to make sure it would all be ok.

On the contrast you both refused to release my property to the point the doctors were concerned because I had no phone or wallet. You wrote notes calling me a monster & saying I never cut - which the scars on my stomach, wrists, & thighs would prove you wrong - that I was not depressed or anxiety ridden. You then publicly released personal information, hacked into my discord - which is illegal it was my personal account - you befriended the very same people who doxxed our family - which includes your sons - the people who ~~put~~ ruthlessly attacked me & harassed me, who mocked my rape. You went on Godwinson's stream & talked about how it's Ralph's fault my life is ruined when it was you two that have not only put my teaching career in the trash but also ruined my case against Joe. It is a major difference to have random morons online talking trash, it's another when it is your own parents. You want war, so I'll refer to my original point: what God approves of any of that? I've had to sit here & I accept that my parents stripped me from any justice or healing for my rape. I've had to accept that they released my private medical information, that my parents hacked into my accounts, released my personal texts

September 21st 2020
are going after my future husband
with little legal standing but side
with one of the many abusers I
had who scorned me since I was 14.
Ralph ~~he~~ understands why I did what I
did, because Chris was & still is an abusive
asshole. That phone you stole has ACTUAL
proof of his crimes but instead you told
him which hospital I was in & talked
to him. You can never fully grasp what
he did to me. What God approves of
siding with a man who actually abused
your daughter? My birthday gift is ~~just~~
just more abuse from my parents. I
would say it's hard to take this from dad
but surprisingly I didn't feel all that hurt.
But when mom got on Godwinson's stream
it broke me. Mom, you're the only one
who knows my pain from Joe & even Chris.
The only one who ~~he~~ understands the
pain of depression & anxiety & PTSD, & you
supported the release of not only my stay
at the hospital but the timeline of it
being made. That completely broke my
heart more than anyone could ever do to
me. Ralph could kick me out, cheat on
me, & ask me to get an abortion but
it will never compare to the pain I
felt when I heard your voice on that
stream. What was it supposed to do?

To hurt me more? It pains me to know how because of all this you ~~will~~ won't be able to see your grandfather, dad won't walk me down the aisle, & how any day death or tragedy could strike & the last thing I'll ever be able to remember of my parents is how brutally they attacked me publicly & turned me into a freak show act for the internet to gawk at & laugh at. No one else did that but you I wish more than anything that I could turn around & hate both of you but I can't. I can only hope this pathetic war you've tried starting ends. Believe it or not I don't want to lose my parents forever, but it's up to ~~you~~ you if that's what you want.

September 21st 2020

A very surprising weekend, we found out that I am pregnant. I had some testing done today at the hospital, I am very early along too. They said a few weeks so 3-4 weeks along most they could see was that I'm developing the lining for the baby & my hormone level is normal for how early along I am. I am having symptoms like the morning sickness & spicy foods make me really sick, my breasts are really tender & now having little discomfort in my stomach area too but doctor said it's probably just a little discomfort from the pregnancy. I also need to drink a lot more water. I need to eat more too, I'm gonna look at some ways to exercise too that's safe for the pregnancy. But everything is looking good. I'm gonna be on lockdown tho till the Covid shit eases up. So I'm gonna get a phone so I can have more things to do but also keep in contact with Mi Vida. My appetite is also way up plus cravings. Specifically for wheat type foods (noodles, breads, etc.) & meats & dairy products. Plus pickles. I'm gonna spend a lot of time on Baby Center to, just for some info on the pregnancy & advice. I am really excited for all

This. We got lots of support too which is really comforting to see. A lot of people are happy & excited for us, plus it helps out since people want us to have everything set up. I'm hoping by Christmas that we can find out the gender, I really hope we have a girl but my gut keeps saying "Boy" so I don't know. It's 50/50 right now. We need to think of more names & see what we like. People made jokes like naming the baby Bibble or George Floyd, which is kinda nice to see actually. I like that we have so much support on this, it makes things a little less stressful. Which is key so early on, low stress, lots of rest, good diet & just taking care of myself as a whole. I wanna keep a little counter of the weeks. I've always wanted to be a mom, I still can't believe I have a little life form inside me growing. Something that's mine & Ralph's to love & cherish. Once I eat though I get really tired. I really wanna tell the rest of my family like the boys & Aunt Mimi & Uncle Pat & Aunt April & Uncle Chad.

September 22nd 2020

I'm keeping a little tracker for the weeks into my pregnancy, at least an estimate of how many weeks. We're going to call the OB/Gyn in the morning for my next followup. I've been sleeping alot too, which I guess is a good sign. I think it means the baby is growing alright. Obviously the first few months were the most nerve wracking. But with each passing day the chances of something bad happening decreases. Still trying to drink as much water as possible along with resting as much as I can. I think I'll try to call mom too soon. I'd like her advice right now for the sake of the baby. Make sure the discomfort isn't totally a bad sign. The doctor said it wasn't completely abnormal & could be from my body adjusting to the pregnancy. I haven't had any bleeding so that's a good sign, plus all my other symptoms are typical so I'm going to keep assuming everything is ok. Ralph keeps falling asleep on the couch, too make sure I'm comfortable. He's really trying to make sure me & the baby are ok. Making sure I'm feeling ok, that I'm sleeping, that I'm eating, it's kind of awkward.
