How to Run Classic Offensive

To launch Classic Offensive properly, follow these quick steps:

1. **Make sure Steam is running in the background.**
2. Go to your CS:GO folder and **create a shortcut to csgo.exe.**
3. Right-click the shortcut → **Properties** → in the **Target** field, add this at the end:

```
-game csgo/csgo -steam -language english
```

Example full path:

```
"C:\Games\CSGO\csgo.exe" -game csgo/csgo -steam -language english
```

Now, just double-click the shortcut to launch Classic Offensive. Enjoy the classic CS 1.6 experience on the Source engine!

About Classic Offensive

Classic Offensive is a community remake of Counter-Strike, started in 2016, based on Counter-Strike: Global Offensive. Re-balanced and revitalized, Classic Offensive is an homage to the original vision of the game that started it all.
