This document will have topics/discussions of Grooming, Child rape, CSAM, COCSA (Child on Child Sexual Abuse), Child endangerment, Roblox condos, and Pedophilia

(If images are too small, be sure to Zoom in or Zoom out using Ctrl + or Ctrl -)

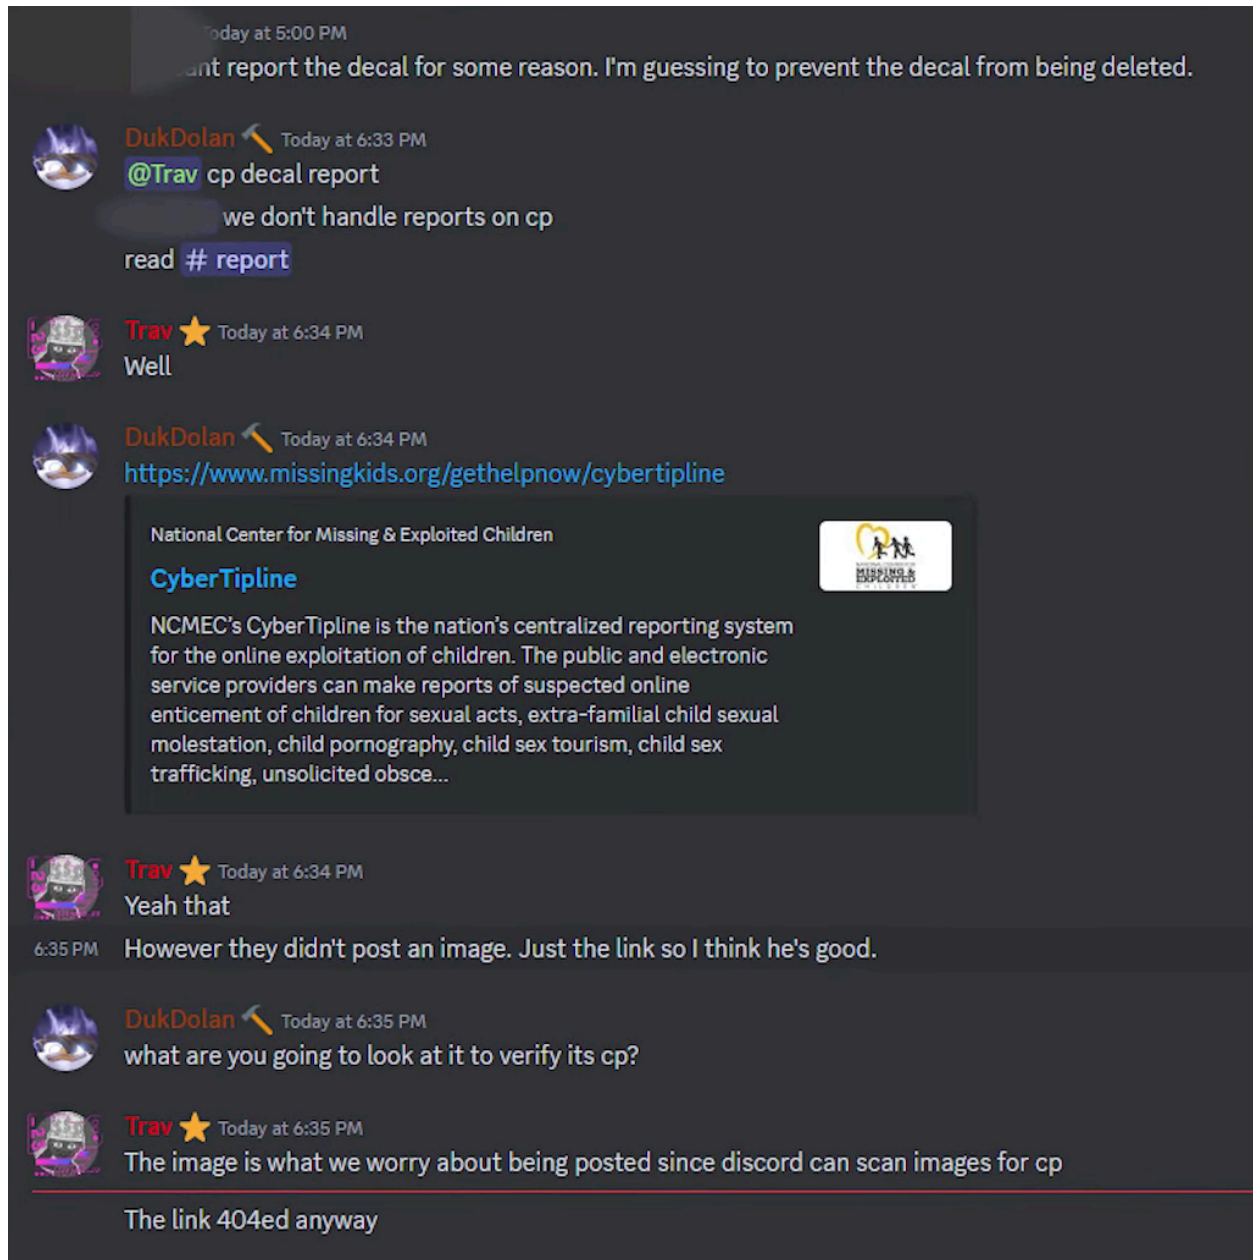

## Important notes (READ FIRST and links)

I have obtained a large part of this information from Parlo's Potemer videos, all [of which were archived here](#), [Dukdolan's VC confrontation with Travytrav](#) and [Dukdolan's Travytrav video](#). I have linked tweets made by Ruben sim from his Kiwifarms thread who were archiving his tweets, and I went inside Zman's server to find info regarding TheDuperTrooper and Travytrav's comments on Duper/association with Zman1064.

Keep in mind, This document has new and updated information that prove even more of TravyTrav's guilt since Dukdolan's video on Trav from January/February of 2025.

# Visiting CSAM links and Ruben defending such actions

Back in early 2024. MFD used to have a problem handling CSAM and the only users who could blacklist users were Admins and Travvytrav was the most active one.

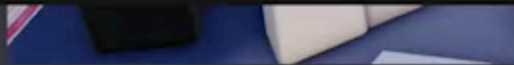

(Its unclear as to when this screenshot was taken but it seems to be from Early 2024.)

Trav instead of simply closing the report and blacklisting the user, decided he would click on the link which is highly illegal and dangerous since he didn't know it was 404ed before clicking on it.

Let me pull it up

It's a 404

(Image is somewhat broken)

This wasn't a one time mistake, It was a pattern between (potentially) multiple months of what is assumed to be February 2024 and August 2024, The user themselves had stated they already reported to the proper authorities and this didn't stop Trav from clicking on illegal links that he thought had contained CSAM content.

It is especially more disturbing and outright reckless not accidental considering TravyTrav had made an announcement telling people not to send images or links to CSAM content as “It could get us in major trouble” back in February and March of 2024, He absolutely knew the risks of this and yet still decided to click on those links/decals in August of 2024, a whole 6 months later.

**Kruben** Today at 9:33 PM

can we remove dolan's admin he keeps starting pointless drama with trav

he's complaining to me in my dms rn about how trav is a pedo because he opened a link to a decal from a mfd report that had cp in it

cause apparently helping roblox remove cp makes you a pedo if your name is travytrav

Ruben Sim decided to defend TravyTrav and claimed it was an act of “Helping roblox remove CSAM”, It is especially ironic considering he himself and multiple MFD members such as Dukdolan and TravyTrav Made a 150 page document proving how useless Roblox reports really were [Determining the Effectiveness of Roblox Reports](#) and an entire video for it [Do Roblox Reports Really Work?](#) Just a few months back.

### CP

-There was a time where people would mass report decal images of CP to MFD. Keep in mind, these are Roblox links and NOT direct links to cp sites. We had to open the page to see if the decal was still up or if it was moderated. Our team was getting extremely concerned about having these links sit in the MFD server. This was when I made an announcement telling everyone not to report decals of cp to us and to report it to the cyber tip line. [Ruben has defended me on this because it's literally part of the job.](#)

(second image is taken from trav's [response on kiwifarms](#), the entire VC thread is already archived, will be reuploaded if dolan's twitter is privated, taken down or the thread is down otherwise feel free to archive it yourself)

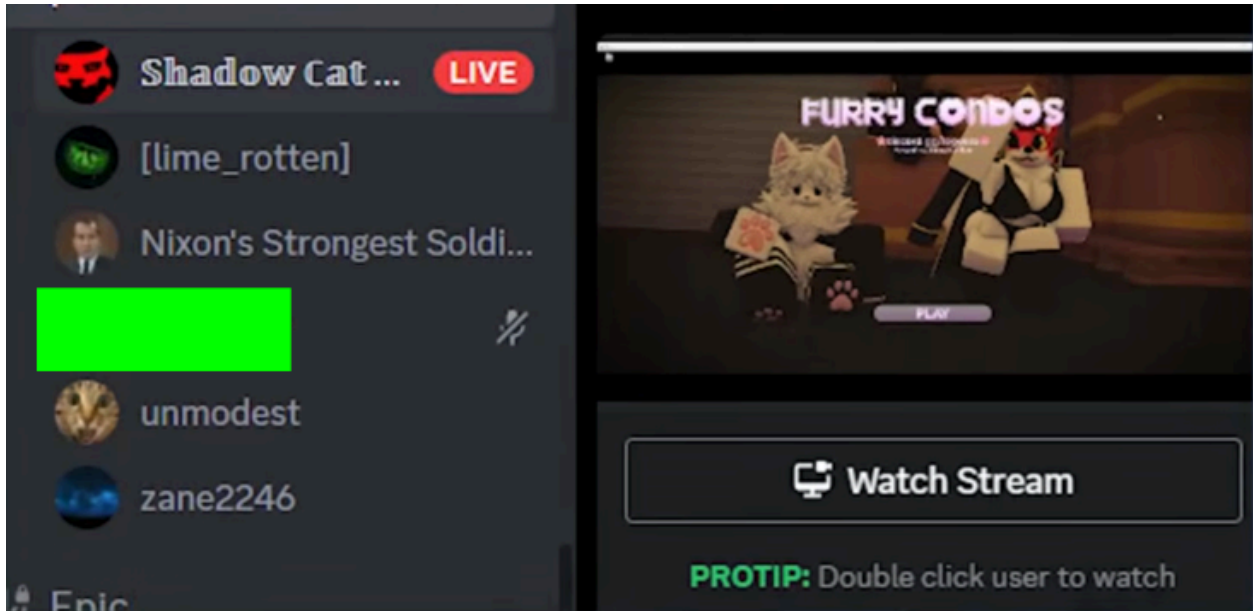

This puts into question how reckless Ruben Sim really was with his rules and standards at MFD and how could he ever be trusted with a platform that he has now?

## Raiding Condos with minors

Back in the 17th of February 2024, TravyTrav made the mistake of raiding condos in a public VC

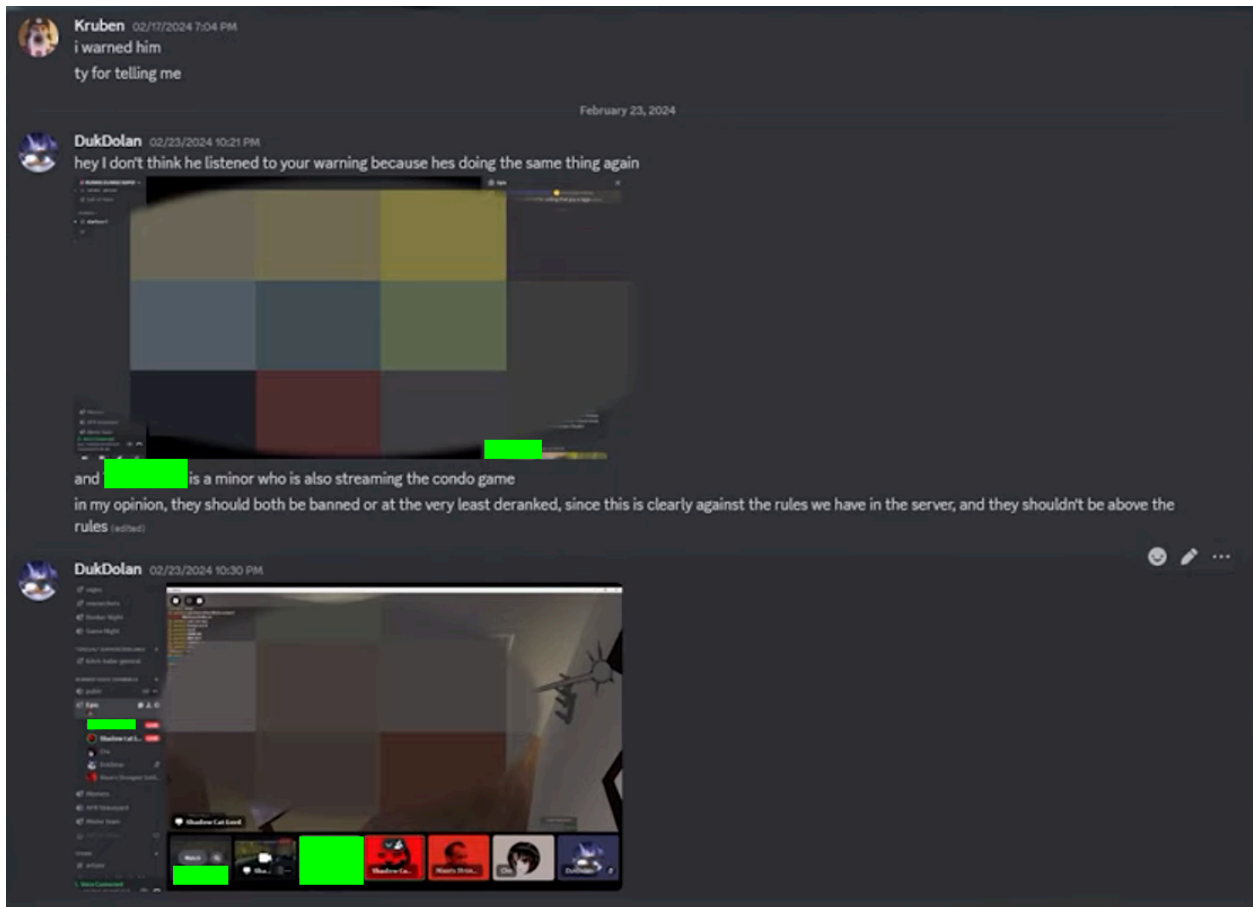

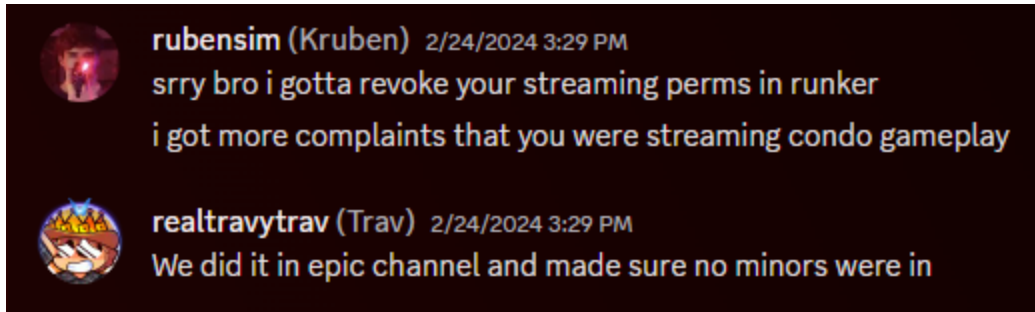

(Green is a minor we'll talk about later)

These were all in a Publicly accessible VC open for all roles and any minor could've joined to watch something that had contained detailed genitals sexualised avatars/models and roblox characters having sex on the screen. He also gave a key to viewers (Including minors!) to enter and raid the condos.

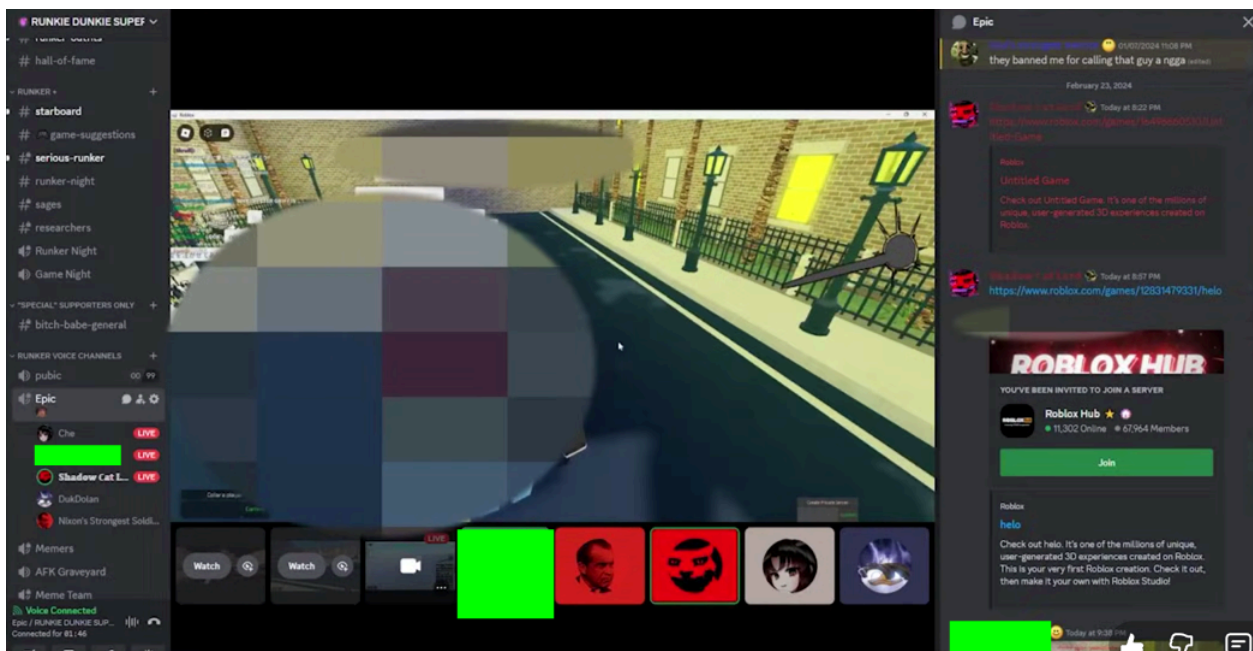

Dukdolan later that day would go on to report Trav to Ruben Sim about Trav's behavior.

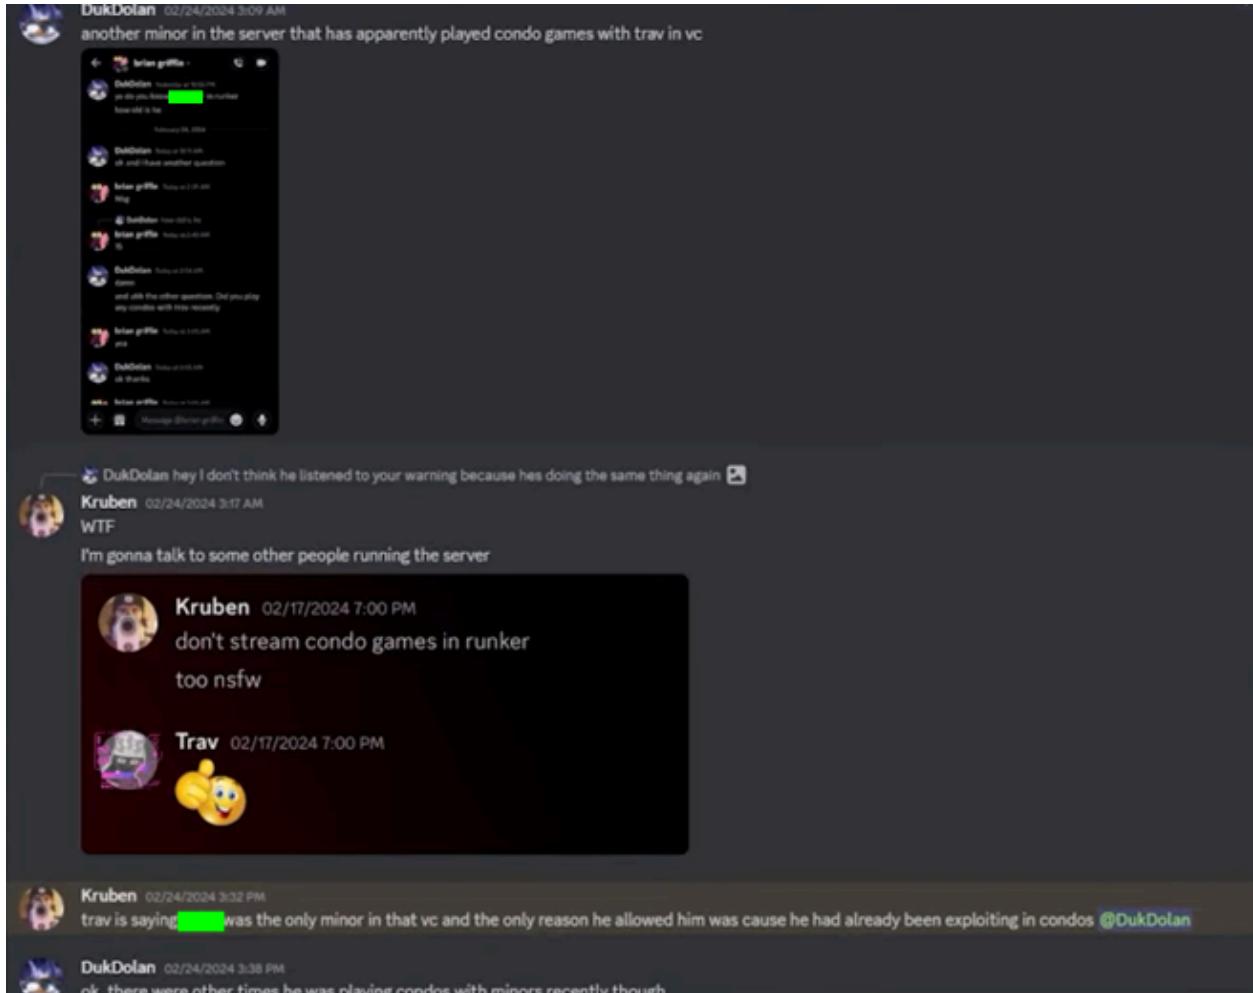

(Second image of Trav and Ruben in DMs is from [here](#))

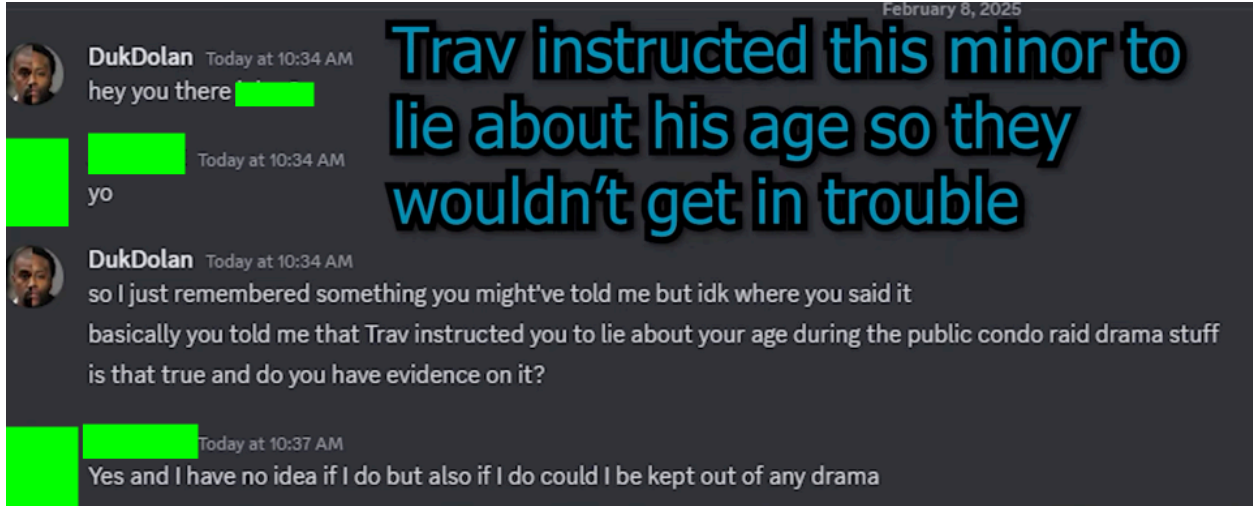

Trav would claim he did the second condo raid in the “Epic VC” and “made sure no minors were in”

Trav would be reported again on the 23th of February, 2024 and it was him streaming condos on the “Epic VC”, Green would also be seen streaming condos themselves and were included despite Trav stating he made sure no minors were in the Epic VC

Green was allegedly 15 or 16 (given from the screenshot and VC/comments by Dukdolan) and was allowed because he had already been exploiting condos (by Trav's response), Completely downplaying his own actions and shifting the responsibility onto Green.

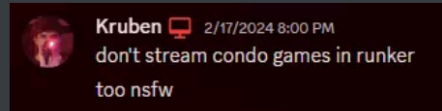

Allegedly by Green, He was told by Trav to lie about his age so Trav wouldn't get in any trouble.

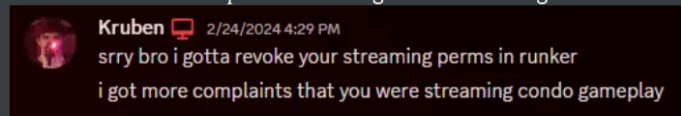

### Condo Raids

-This is one of the very few claims that is true however, he turns it to be way worse than it is. This started after seeing a condo was uploaded with gears enabled. This allows you to use your marketplace bought items in the game. We placed bombs and shot many gooners trying to erp.

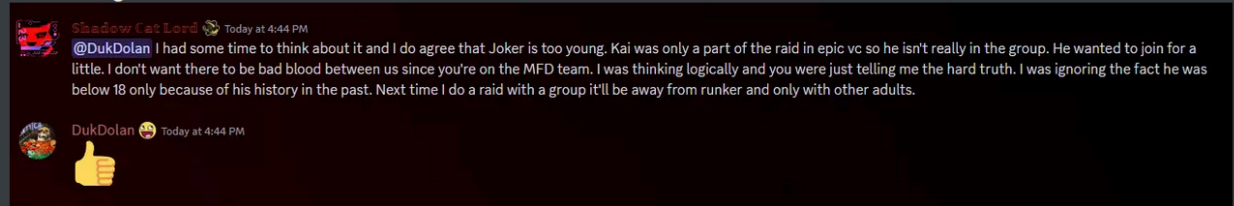

The mistake I made was holding this in a public vc where anyone of any age can join. Ruben warned me about it and I moved to a vc that was role locked.

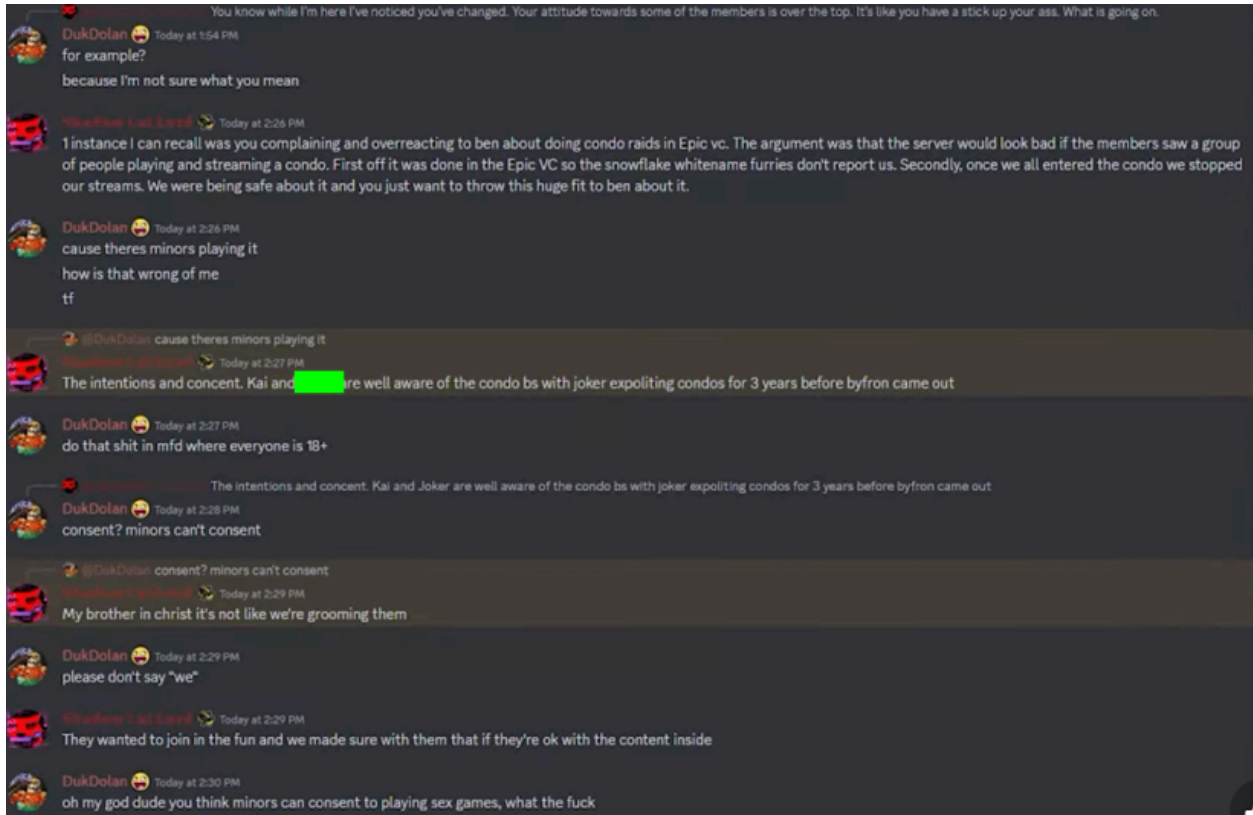

There was 1-2 minors present which got me warned again.

I then took it to a gc where I confirmed that everyone there was an adult by ID verifying them. I apologized to Dolan about it in this image.

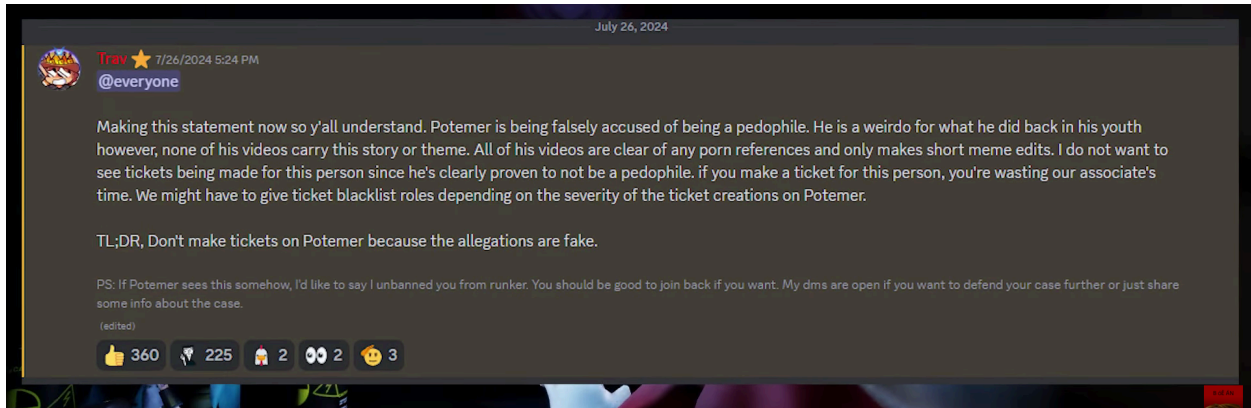

TravyTrav would attempt to downplay this on a Kiwifarms post stating it was a "mistake" and that "it was just us killing gooners with bombs" completely downplaying the nature of having a minor present in these scenarios which is not only illegal but also highly irresponsible. Trav also states a minor named "Kai" was in the so called "locked" Epic VC"

TravyTrav in his Kiwifarms post failed to disclose as to why he was arguing with Dukdolan about this issue, and excusing it as “They wanted to join in on the fun” and “They said they were okay”. This is not a response that should be said by an adult or at the very least, a high ranking member of MFD.

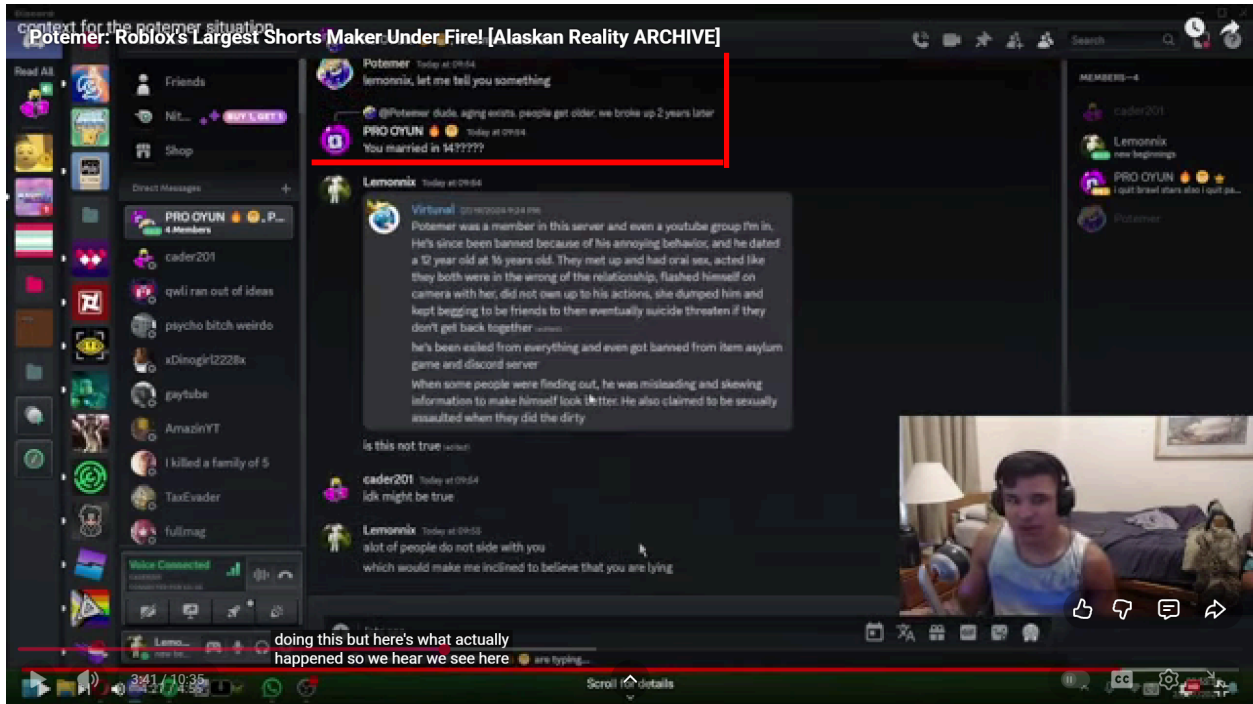

On July 26th, 2024 I created an announcement in the Mod For Dummies discord server following Alaskan reality's video about Potemer. Within this announcement, I denounce the pedophilia claims and just label him as a weirdo. I go on to saying that any tickets made about Potemer will be ignored. This was to ensure our ticket system doesn't get flooded with the same report.

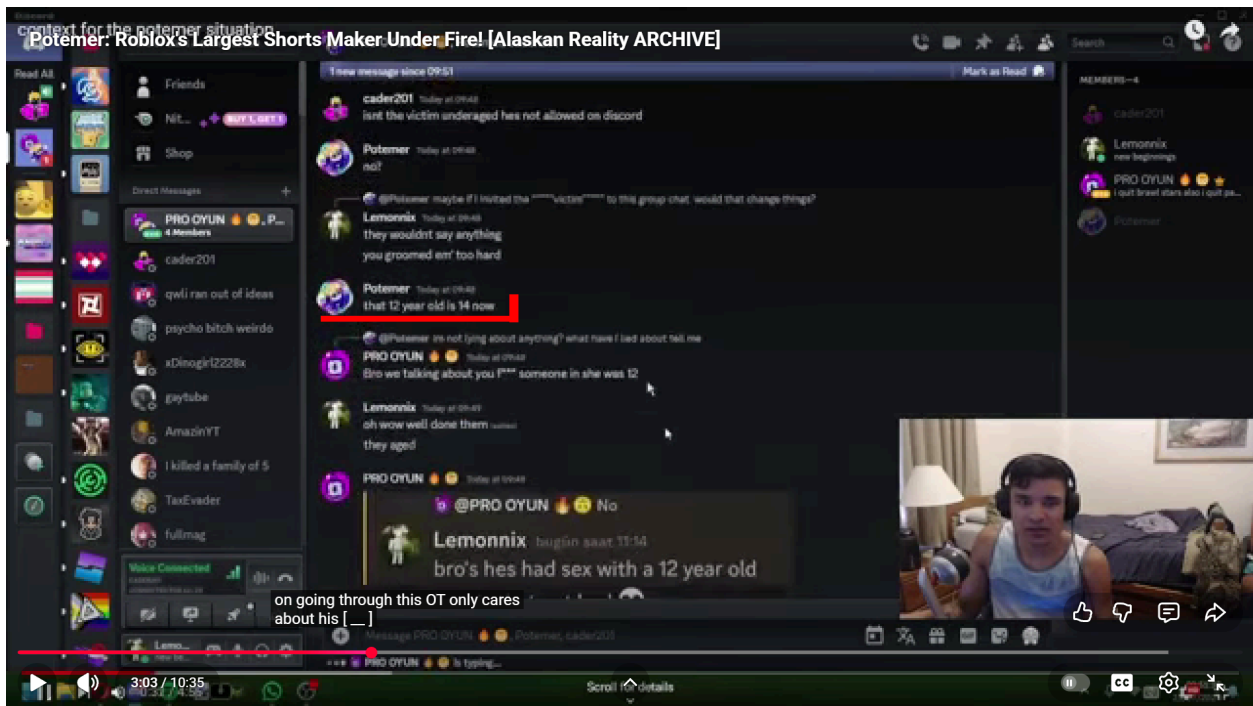

Shortly after creating the announcement I receive a message from Potemer asking if I'd like to be added to a Group chat with the victim. In the group chat, I ask several questions to diagnose if this is something worth investigating. After seeing statements from the victim herself and matching statements from Potemer, I concluded that this was a private relationship that the parents knew about which got leaked online. I labeled this as "2 kids in love" since this didn't fit any of the past cases.

([Trav's community post](#))

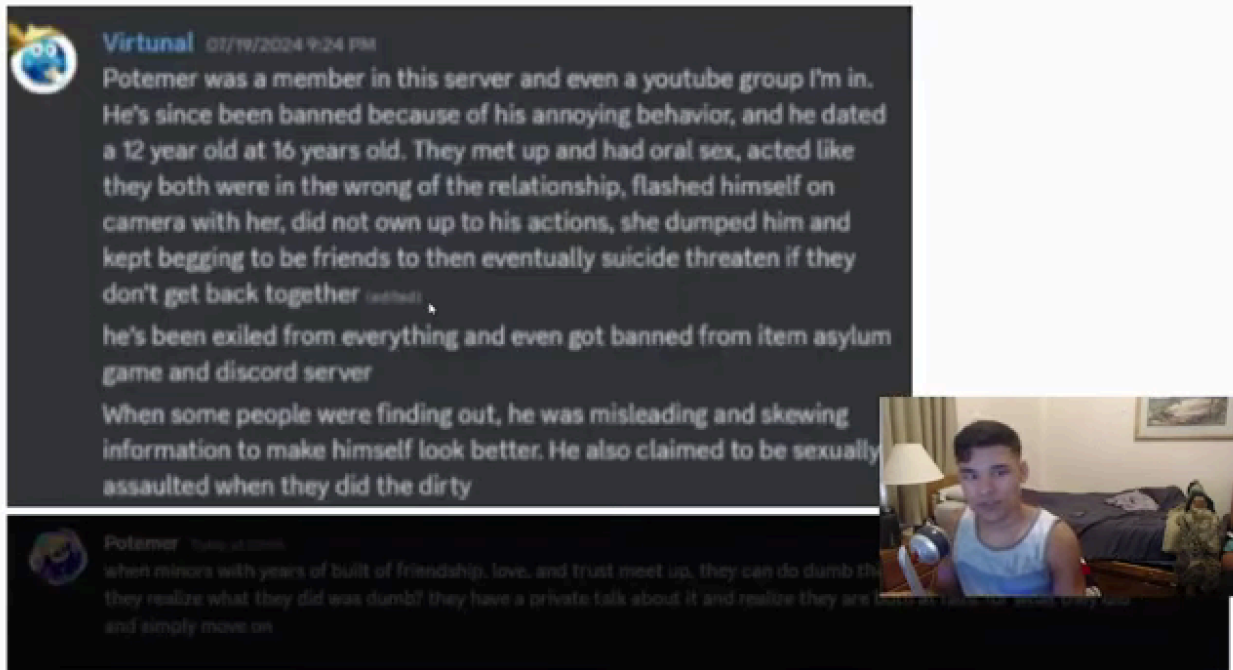

Travytrav would state he chose to make the announcement after [Alec's video](#) and shortly after; was added into a GC with Potemer and the Victim (We will get into this later, for now it's about Alec's video).

“Dude aging exists. People get older we broke up 2 years later”

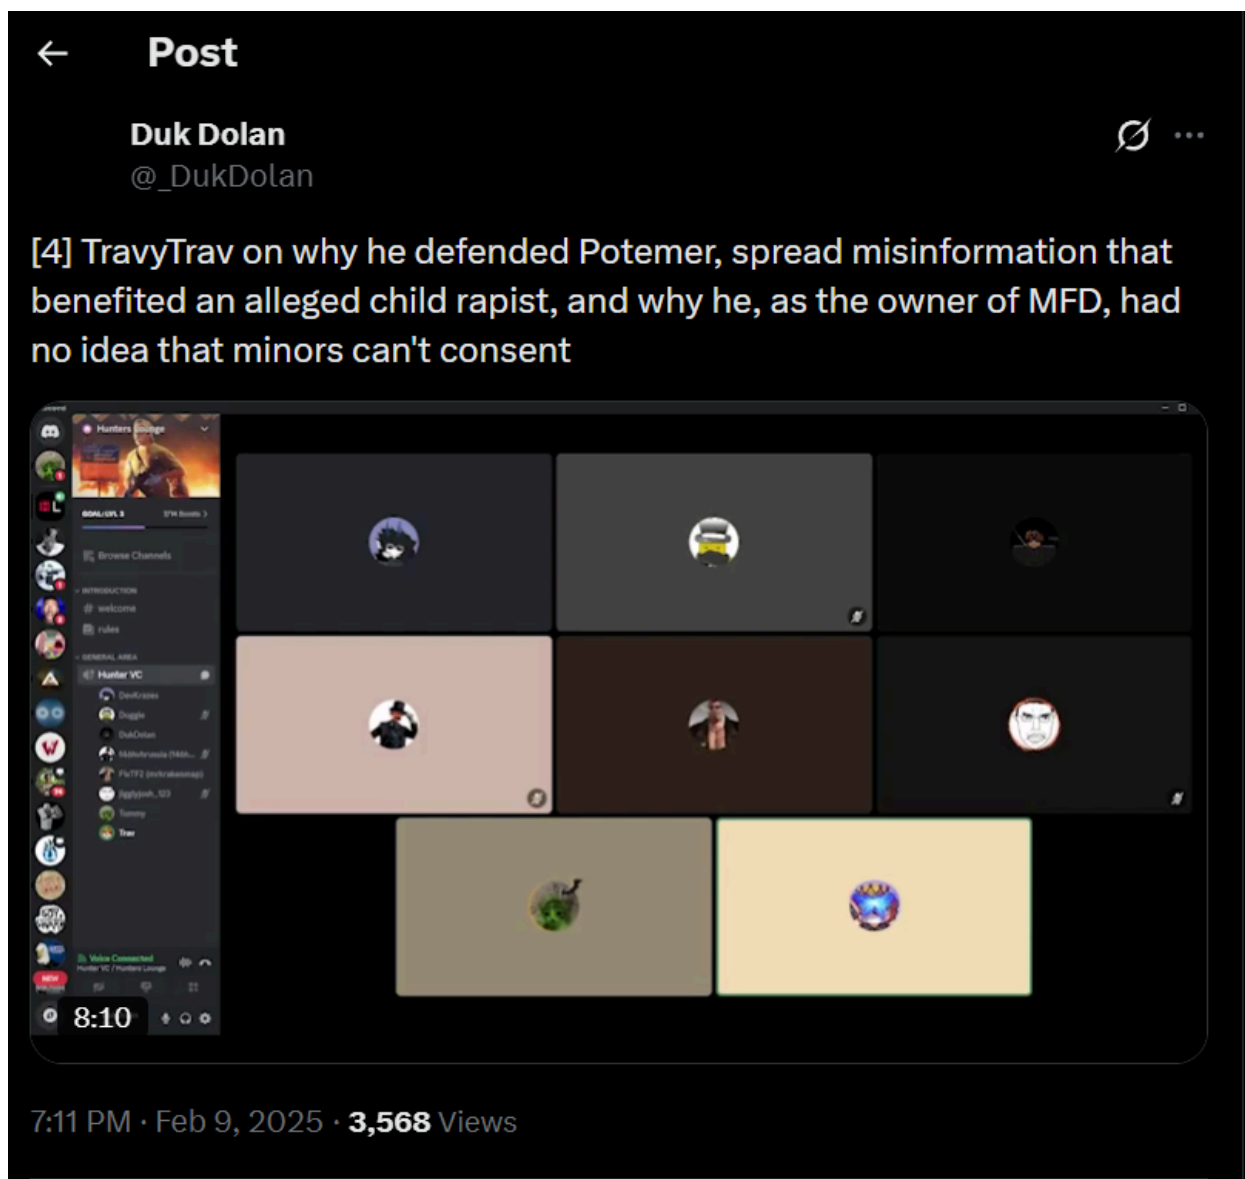

“That 12 year old is 14 now”

“when minors with years of built of friendship, love, and trust meet up, they do dumb things, and what do they do when they realize what they did was dumb? and they have a private talk about it and realize they are both at fault for what they did and simply move on”

(I apologise for the low quality screenshots but this was the only archive available of alec's video as its in 360p)

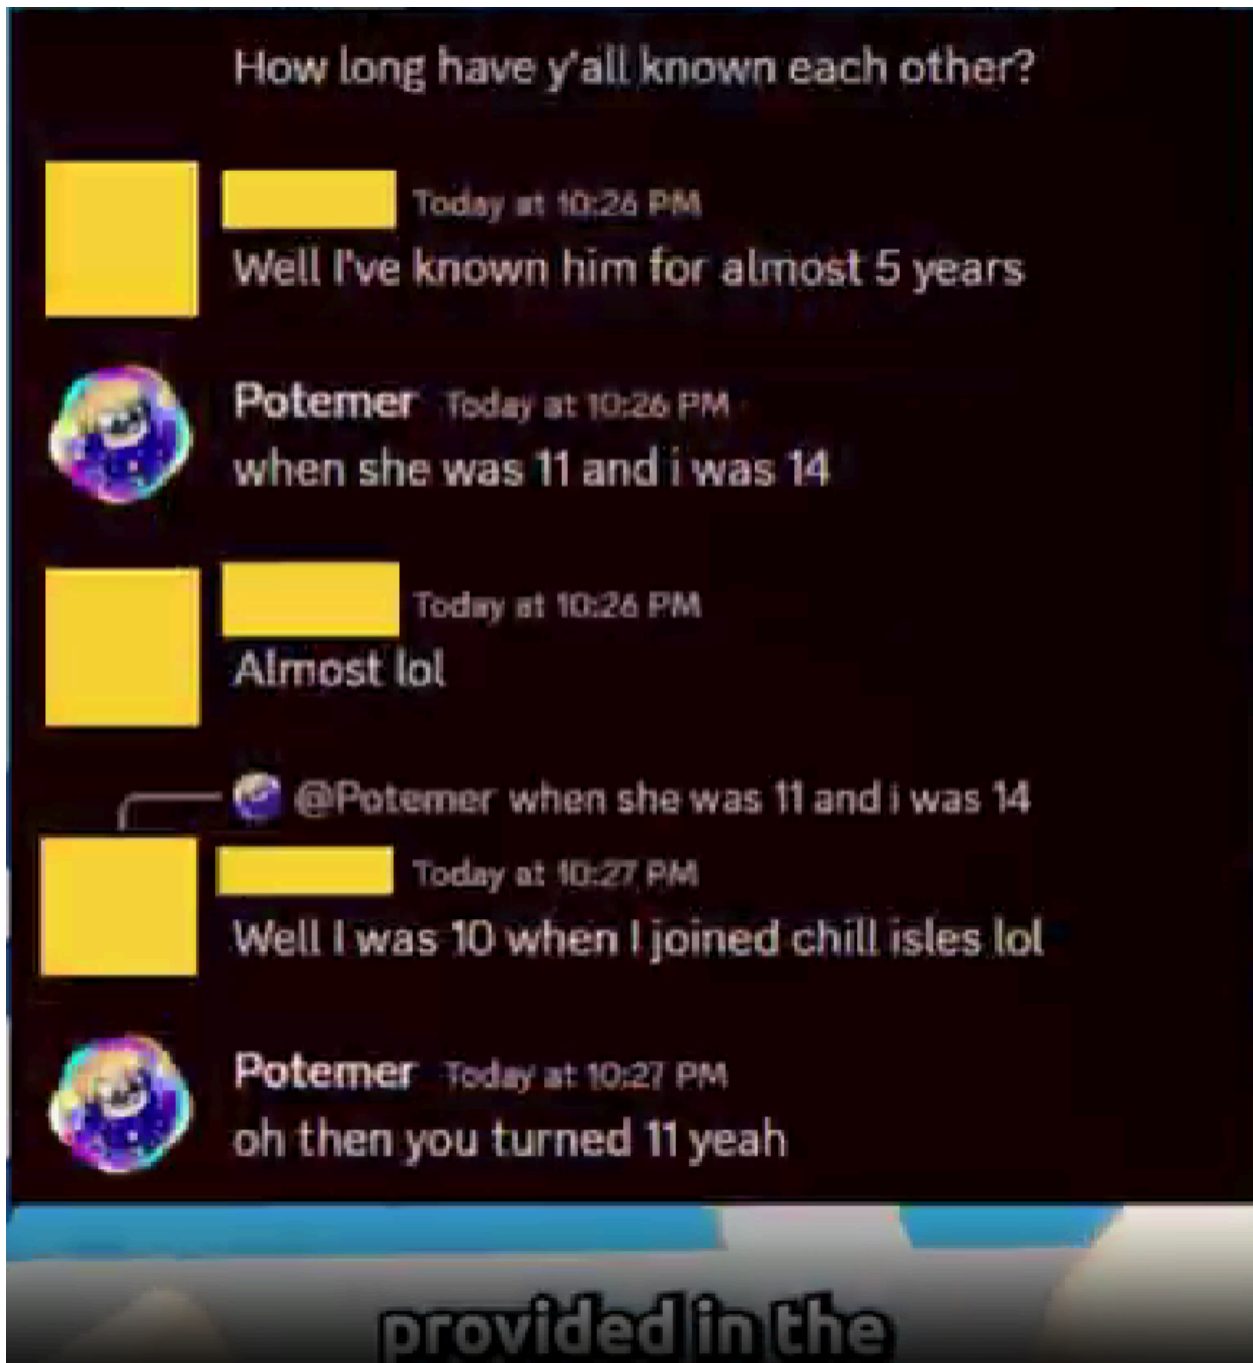

TravyTrav clearly would've known she was 12 and Potemer was 16 at that time since he was one of the individuals who watched the video. This is the first sign of Trav defending obviously very predatory age gaps that's illegal basically everywhere in the world and is immoral.

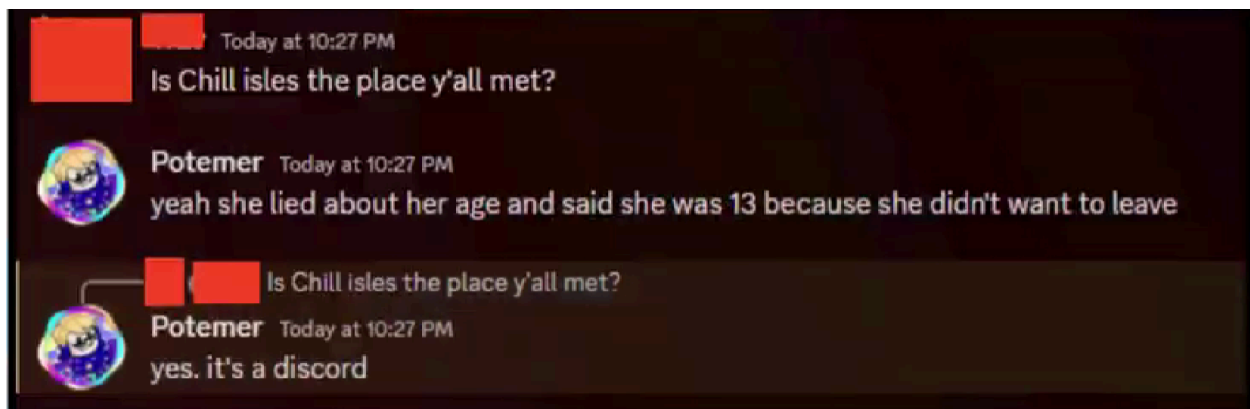

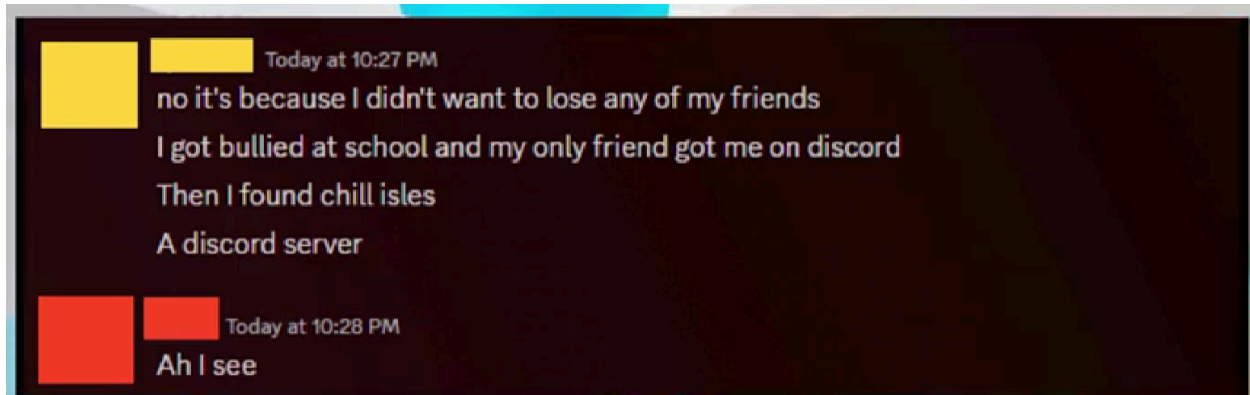

Additionally! TravyTrav also claimed he started with 12 and 16 from Alec's video on a VC with Dukdolan and Tommy from 0:25-0:44  
"I think if I remember correctly, this started when I discovered alaskanreality's video cause I remember I did watch it and that's where I started with 12 and 16." This shows how he was already defending 12 and 16 right at the start but it only gets worse from here.

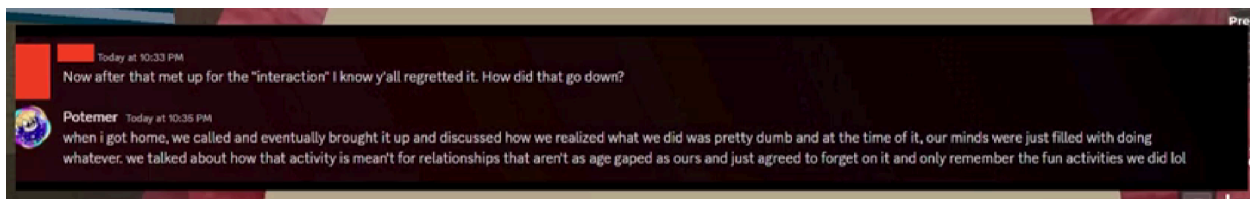

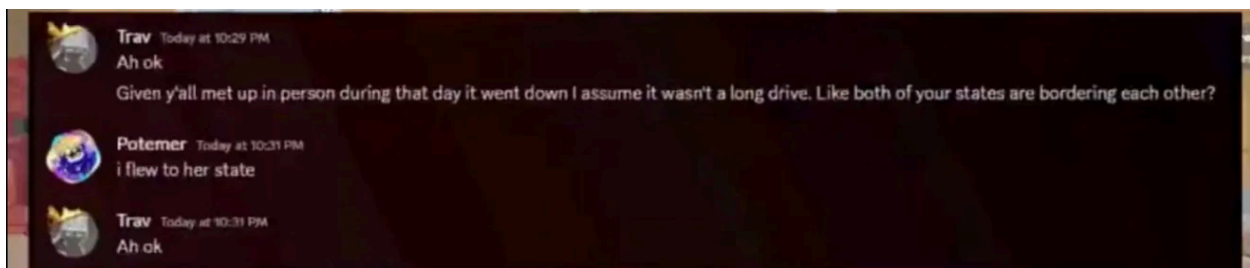

Just for clarifications Red is Trav and Yellow is the victim [as proven in this video](#) at 7:59-9:39 and the screenshots of the GC came from [Parlo's first](#)

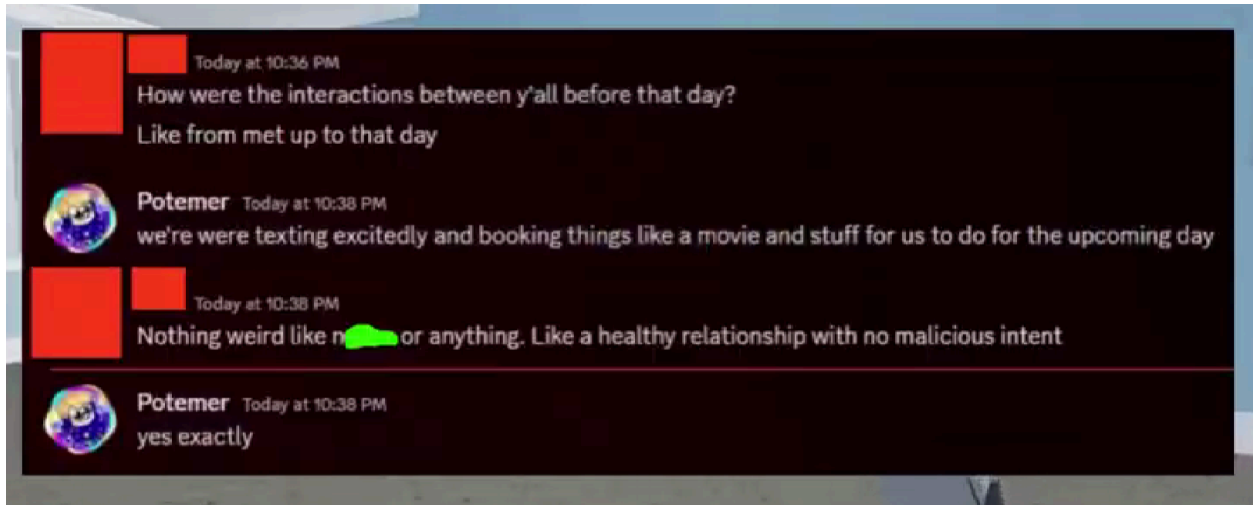

[potemer video](#) and the screenshots are in a chronological order.

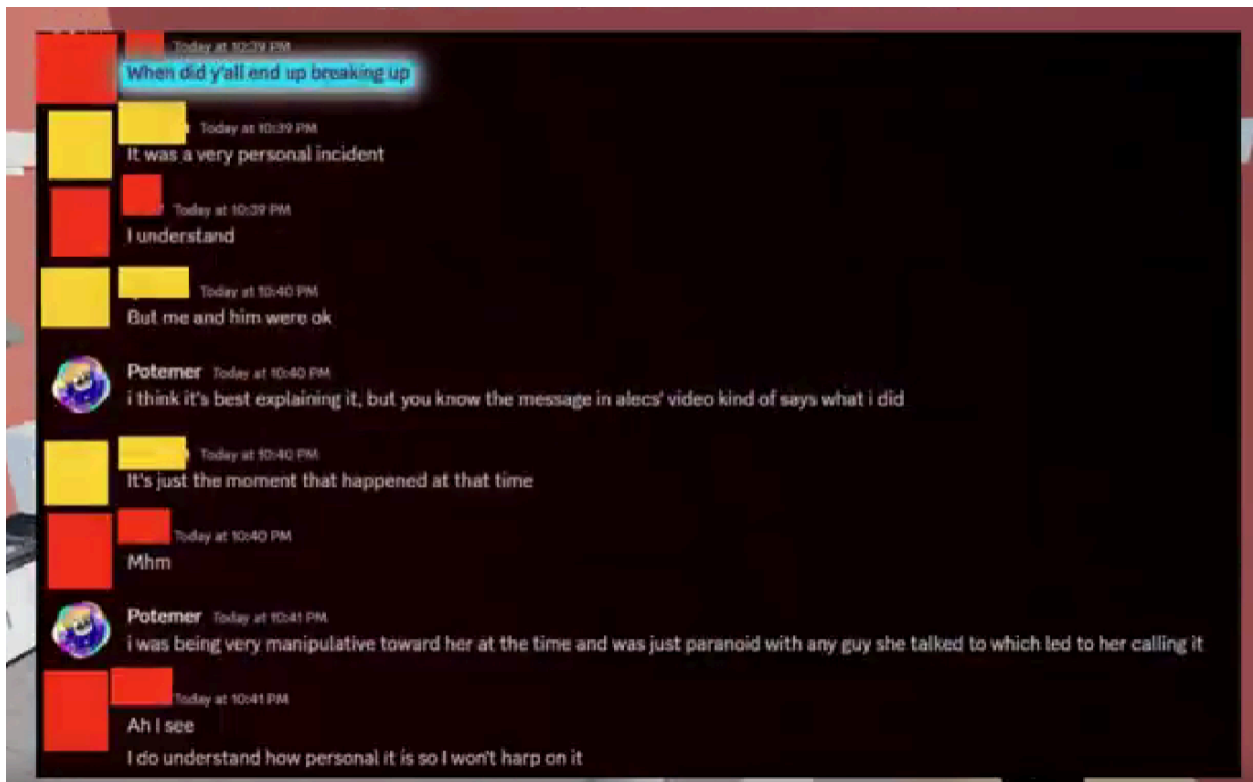

Yellow would state she was 10 turning 11 in Chill isles, a discord server they met up in and Potemer was 14. This is even more undeniable evidence of Trav knowing the true ages.

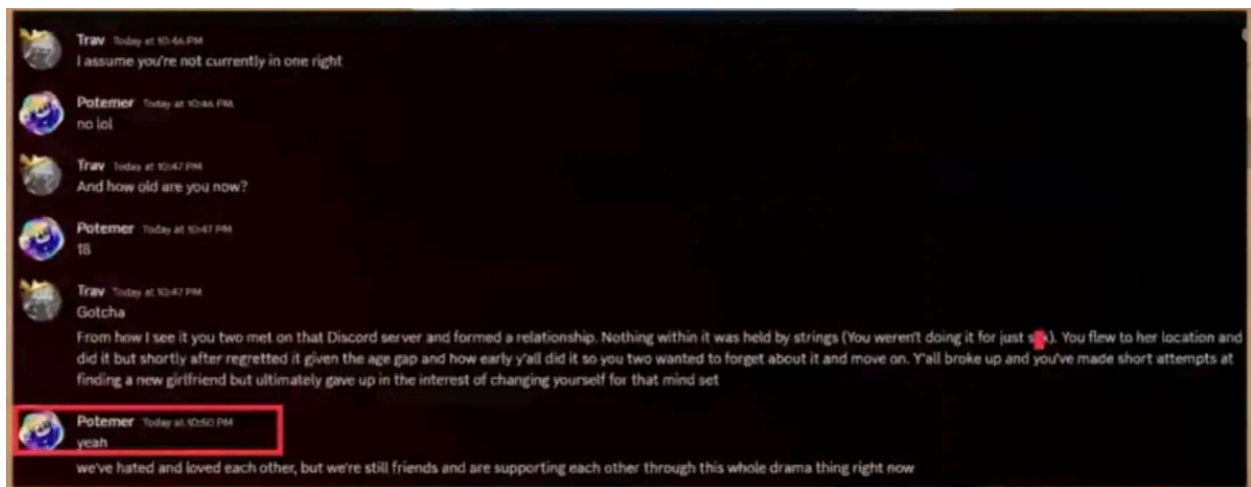

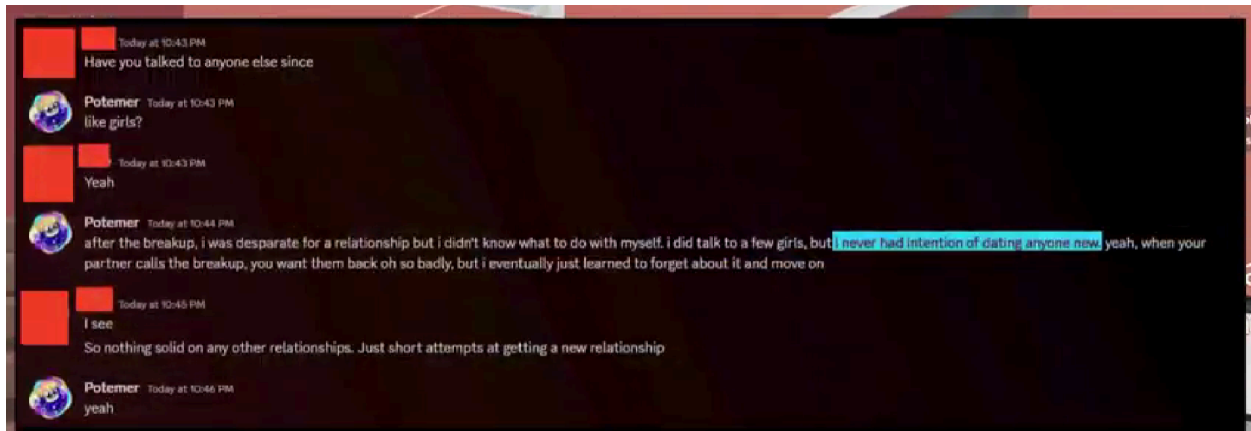

Trav would have confirmation of the intercourse and Potemer's "regret" over them having intercourse "because its not made for relationships age gaped as ours" showing how Potemer acknowledged his relationship was unbalanced and Trav watching along and 5 minutes later; Trav would claim the relationship was "healthy with no malicious intent".

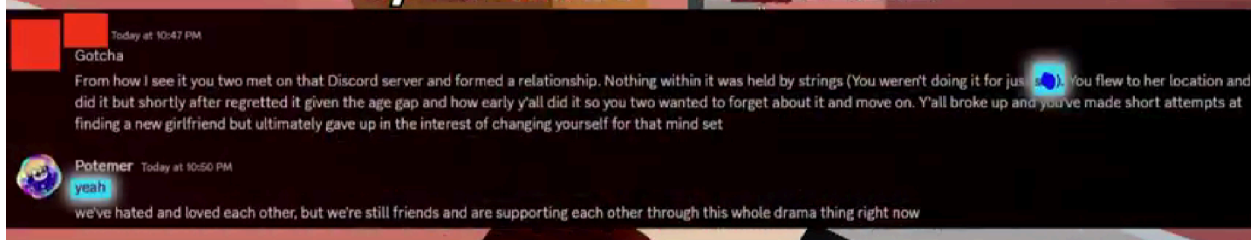

Keep in mind Travytrav also knew how Potemer was being "very manipulative" towards the victim and was "just paranoid with any guy she talked to" proving how it was not a healthy relationship at all and even

worse with the ages involved being 12 and 16.

**Potemer does not deny it and agrees that they did have a s\*\*\*al interaction.**

Potemer for the second time doesn't deny having intercourse with the victim straight to Trav's face.

12:11

Potemer

**Trav** 7/26/24, 10:18 PM

I do want to confirm some things that were confusing so I can get this story concrete solid if you don't mind.

**Potemer** 7/26/24, 10:18 PM

okay

**Trav** 7/26/24, 10:19 PM

You did confirm you had intercourse with your ex when you were 16 right?

**Potemer** 7/26/24, 10:19 PM

yes

**Trav** 7/26/24, 10:20 PM

I assume both ends were consenting

**Potemer** 7/26/24, 10:20 PM

yes. no victim

if you wanna talk to her yourself i don't mind lol

**Trav** 7/26/24, 10:21 PM

Would she be ok if we did a gc. Just the 3 of us so I can hear from both?

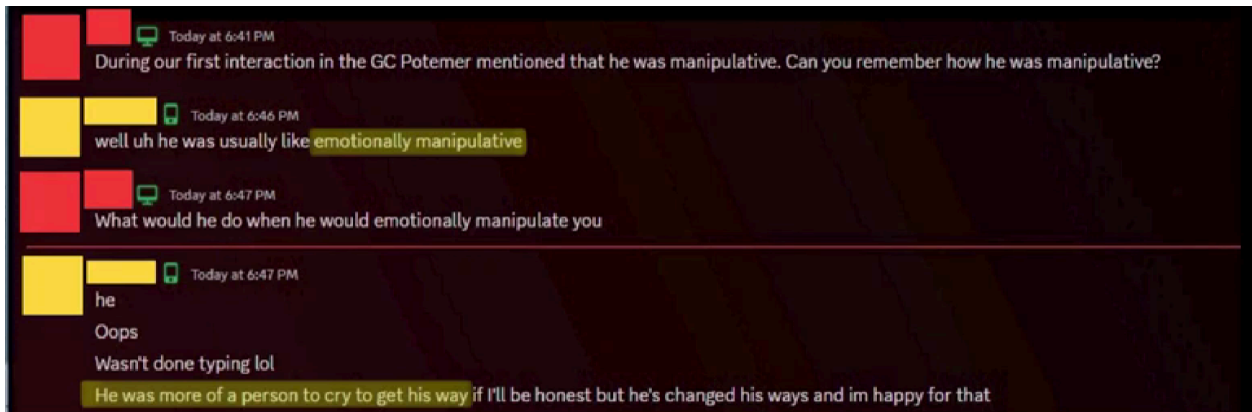

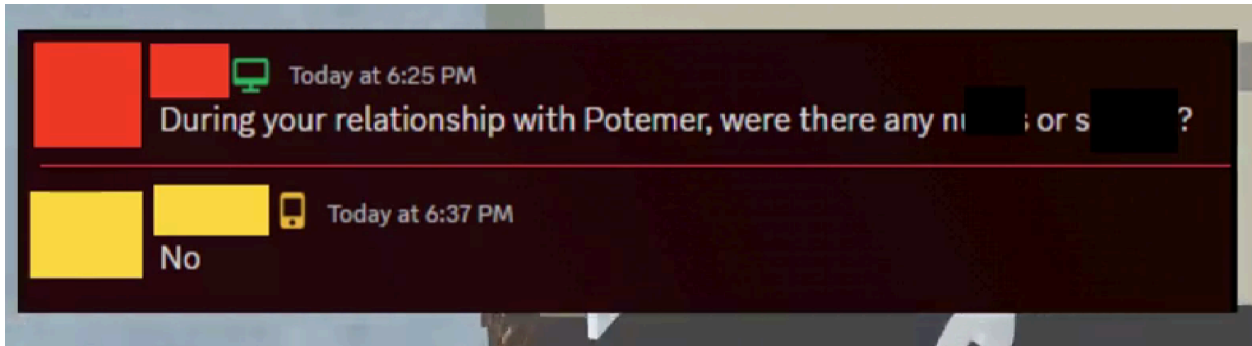

**Potemer** 7/26/24, 10:21 PM

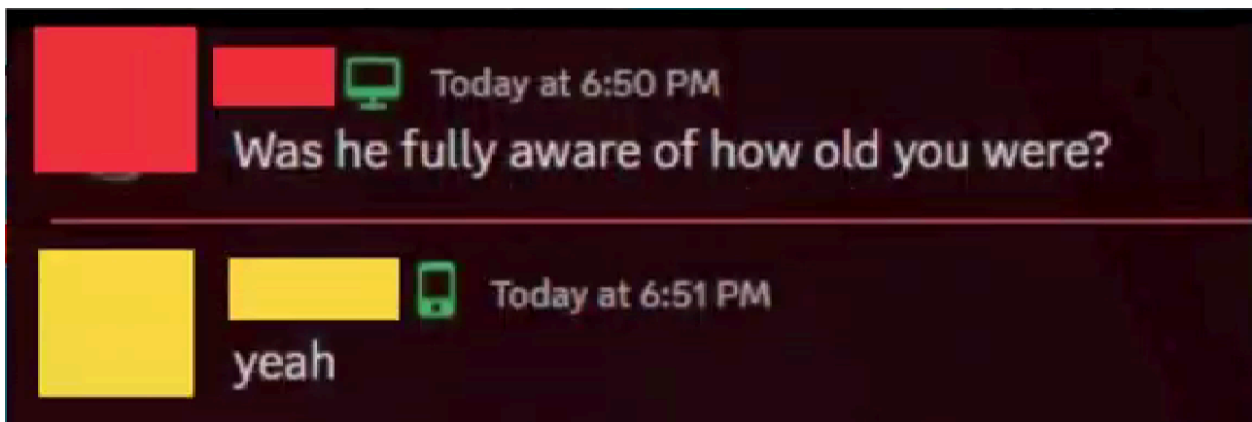

yeah we can gc

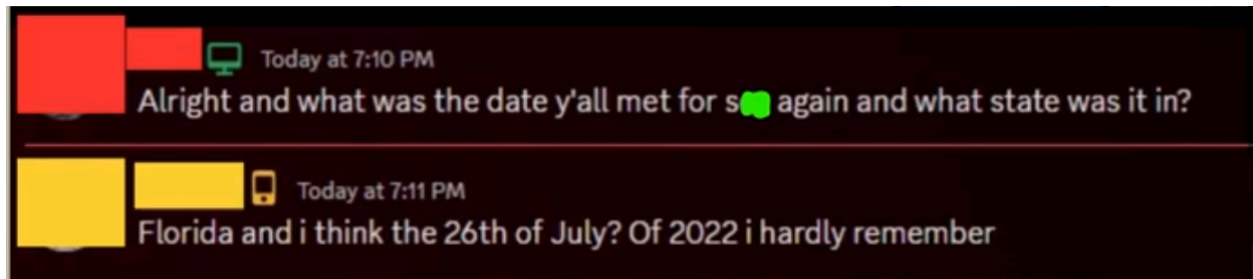

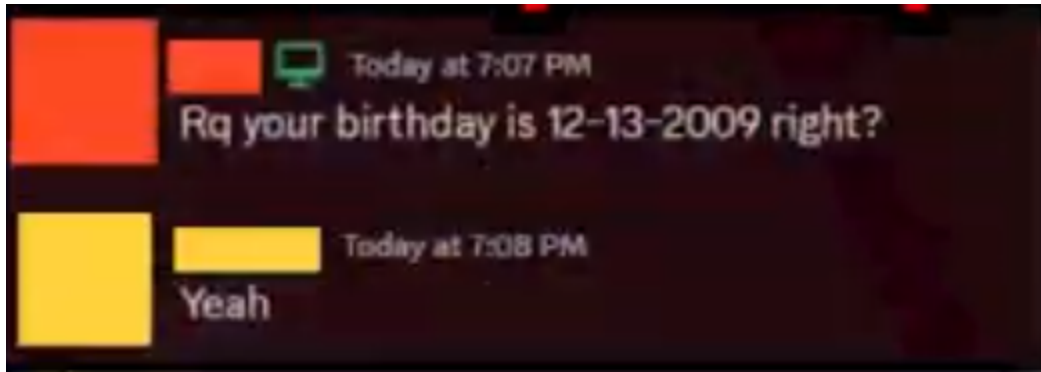

More proof to confirm that they had a GC and Potemer admitting to have sex with the victim.

The very next day, Trav gets into DMs with the Victim to hear more and the victim states to Trav how Potemer would cry to get his way and he was emotionally manipulative.

Trav knew of Yellow's birthdate being from the 13th of December, 2009 and on the 26th of July, 2022 She would've been 12 years old while Potemer was 16. All of this confirms many things to Trav.

1. The ages were 12 and 16 (4 times)
2. They did have sex (4 times)
3. They had a relationship that lasted for over 2 years (2 times)
4. Potemer was emotionally manipulative towards Yellow (2 times).

With all of this information in mind, What did Trav do with it?

**Trav** ★ Today at 9:22 PM

Potemer is adding me to a gc with the girl in question. I'm just asking some questions to ensure there was nothing malicious and it was just 2 kids in love (edited)

**Trav** ★ Today at 9:54 PM

**@DukDolan** Both the girl and potemer have confirmed to me everything. These 2 had no bad intentions with each other. It was 2 kids in love that decided to have sex only to regret it and wanted to forget about it.

He's not a weirdo.

**DukDolan** ↗ Today at 9:55 PM

ok thats your opinion

**Trav** ★ Today at 10:01 PM

It's the facts. Both of them stated their sides

**DukDolan** ↗ Today at 10:01 PM

he's a weirdo

especially if the 12 year old regret having sex with him

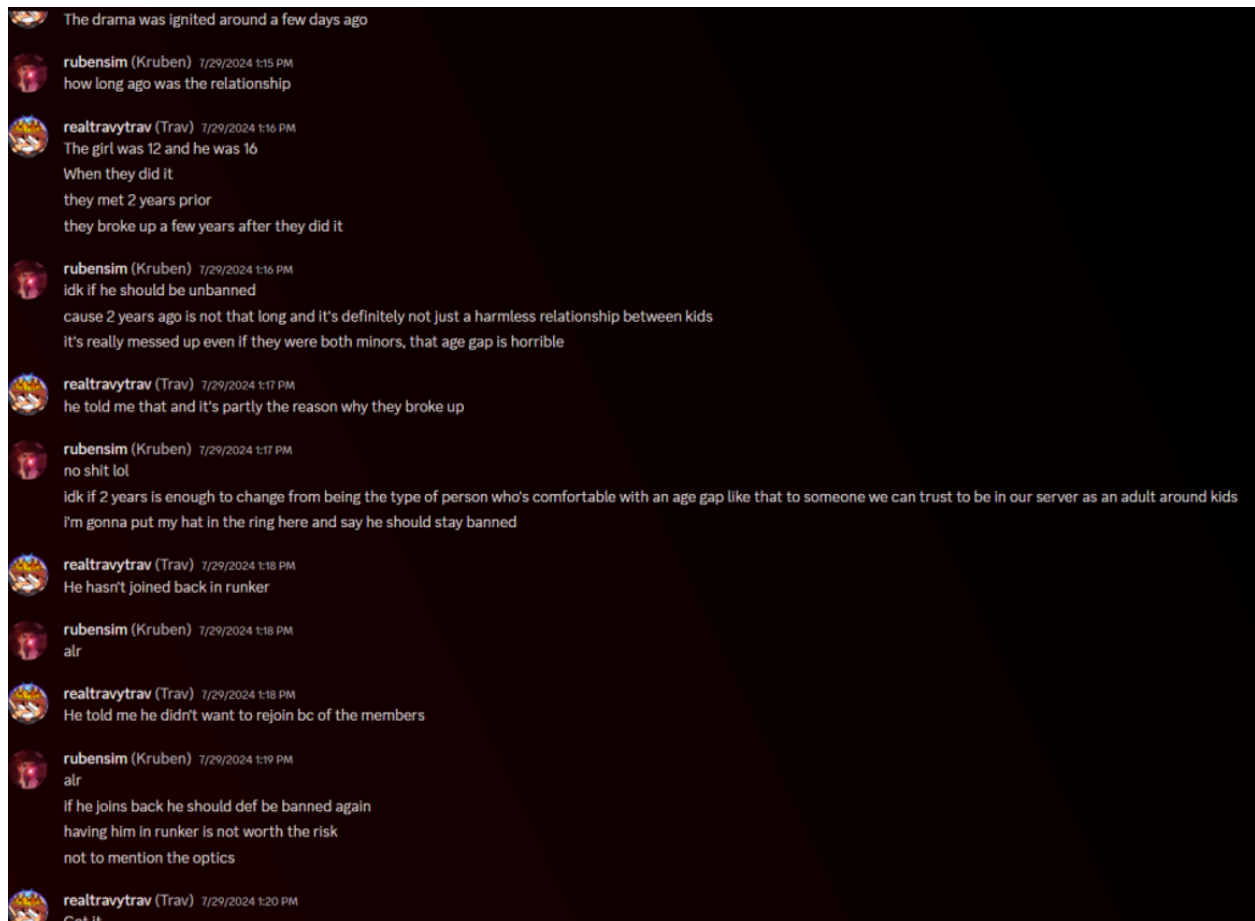

**Trav** ★ Today at 10:03 PM

They both regretted it

(10 PM is in Dukdolan's time)

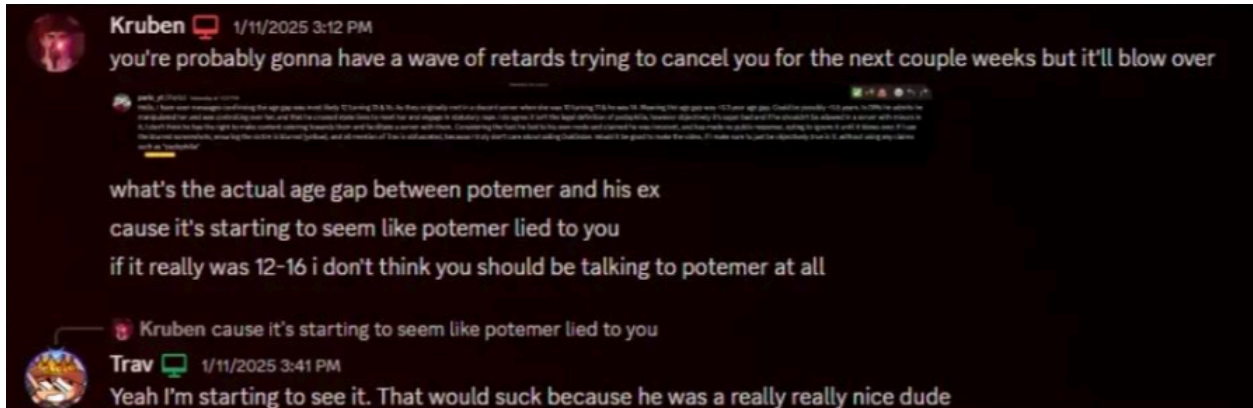

Trav would go into DMs to argue with Dukdolan about how Potemer is “innocent” and that they were “just 2 kids in love with no bad intentions”, This is extremely malicious and directly downplays COCSA as he himself knew Potemer was actively pursuing a very problematic and highly illegal age gap of 12 and 16 but also knew that Potemer emotionally manipulated the girl towards the end of the relationship.

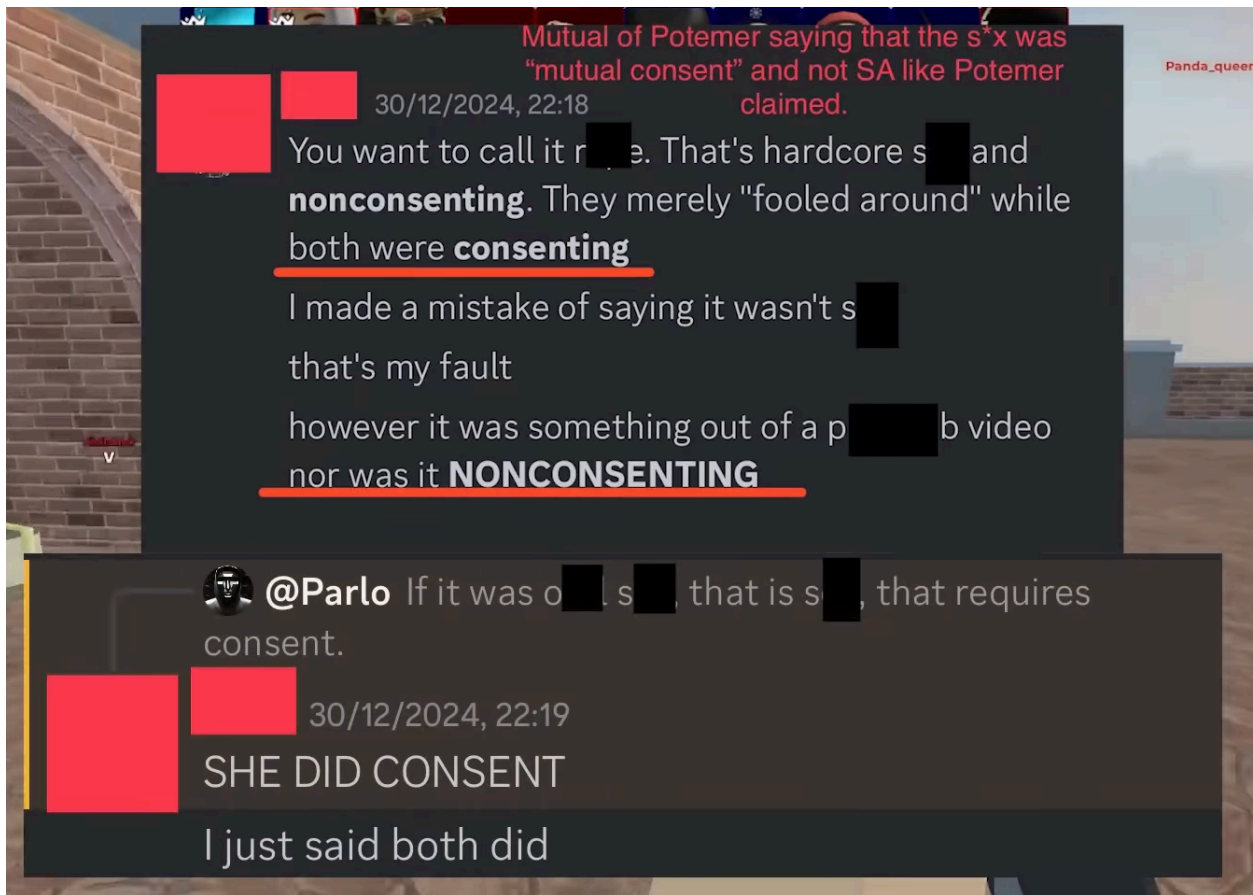

(Original high quality source is from an unknown Discord screenshot, [Otherwise here](#) at 1:06)

Fast forward a few days. TravyTrav would go into DMs with Ruben Sim to try and convince him to unban Potemer in Runker (ironic considering trav was the one who unbanned him in the first place) by using all kinds of excuses, the “They both regretted it” “Its partly why they broke up” “It’s 2 years ago” and “He’s scared of the members harassing him”. Ruben Sim had to tell Trav that the relationship was not harmless and age gaps like that are very uncomfortable especially in a server with minors.

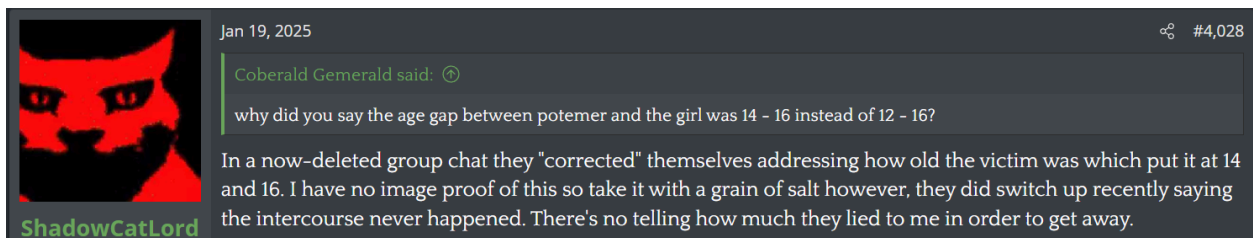

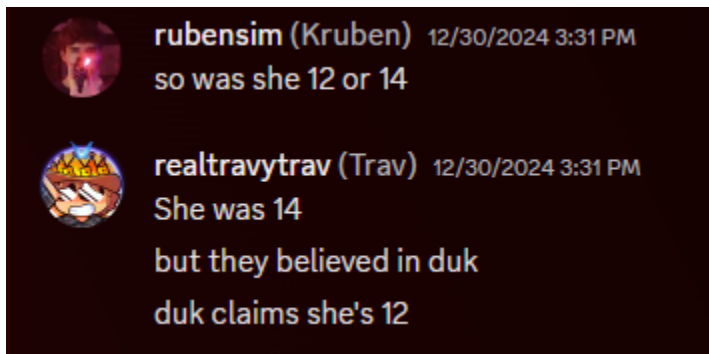

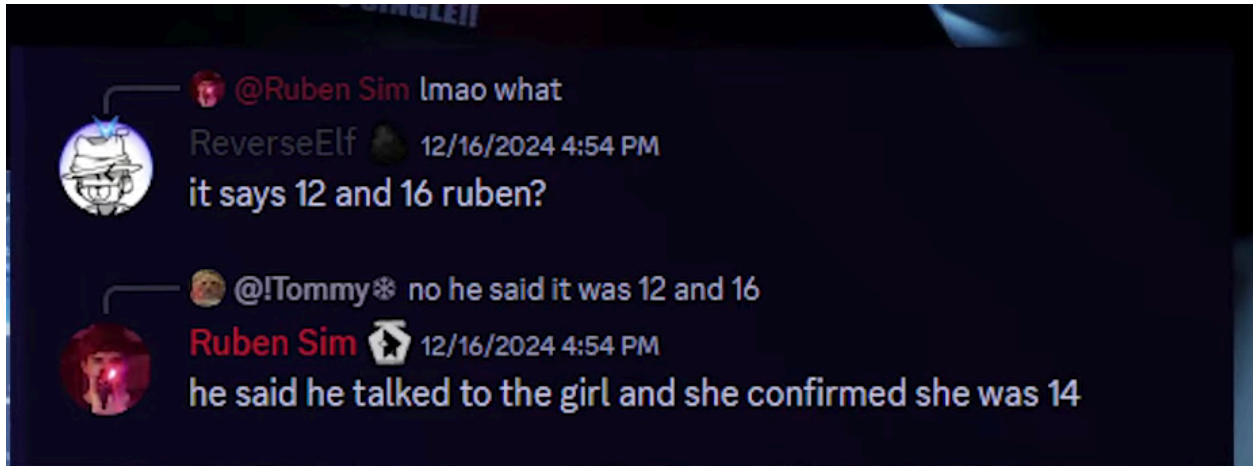

TravyTrav had very friendly interactions with Potemer and was friends with him as seen in the screenshare from December of 2024 casually talking about Roblox games, and Ruben Sim attests Trav was “talking to potemer” and Trav in response replies with “He was a really really nice dude”.

This is a DM exchange between Parlo and TravyTrav (This was confirmed to be TravyTrav [in this VC](#) 5:14-7:33) where Trav is clearly seen defending Potemer and trying to convince Parlo into thinking that it was mutual

consensual and is not rape whilst downplaying it as them “merely fooling around”. Parlo states Trav was a Mutual of Potemer.

Around the start of January, Parlo began to look into the Potemer situation. He asked me about it since I had interacted with them before. With the knowledge I had, I told Parlo that it wasn't pedophilia with the current age gap of 2 from what they told me. Parlo then shows me new information that completely broke everything I collected. After learning about this I collected everything against Potemer to assist Parlo. Ever since Parlo's videos came out I've cut contact with Potemer and have been continuing to assist Parlo in removing Potemer from the internet.

Show less

(Second image is from [Ruben's kiwifarms post](#))

TravyTrav would claim that she was somehow 14 despite all of the confirmation that she was 12 years old from Alec's video to the GC. He would claim "They told me it was 14 and 16"; This is extremely hard to believe considering he himself had already defended those age gaps in Dukdolan's DMs, MFD server announcements, Ruben Sim's DMs, and Parlo's DMs. He also stated to Ruben sim on the 29th of July 2024 The victim was 12 years old and Potemer was 16, This is most obviously a massive lie in an attempt to save his reputation and complicate the whole situation into a complete mess.

## Supporting Zman1064 and spreading false allegations about TheDuperTrooper

Zman1064 had made an entire video on TheDuperTrooper completely lying about his image, If you want any more info regarding Duper's innocence [Duper himself made a response video](#), A commentary streamer Himpton who was looking into the case on his streams managed to [interview Zman1064](#) and [Interview a mutual of Zman1064](#)

The video was extremely defamatory and mainly threw allegations that had little to no evidence to them or were false.

Trav was an active member of Zman's server known as "The ZERG" having sent 500 messages inside and having an admin role.

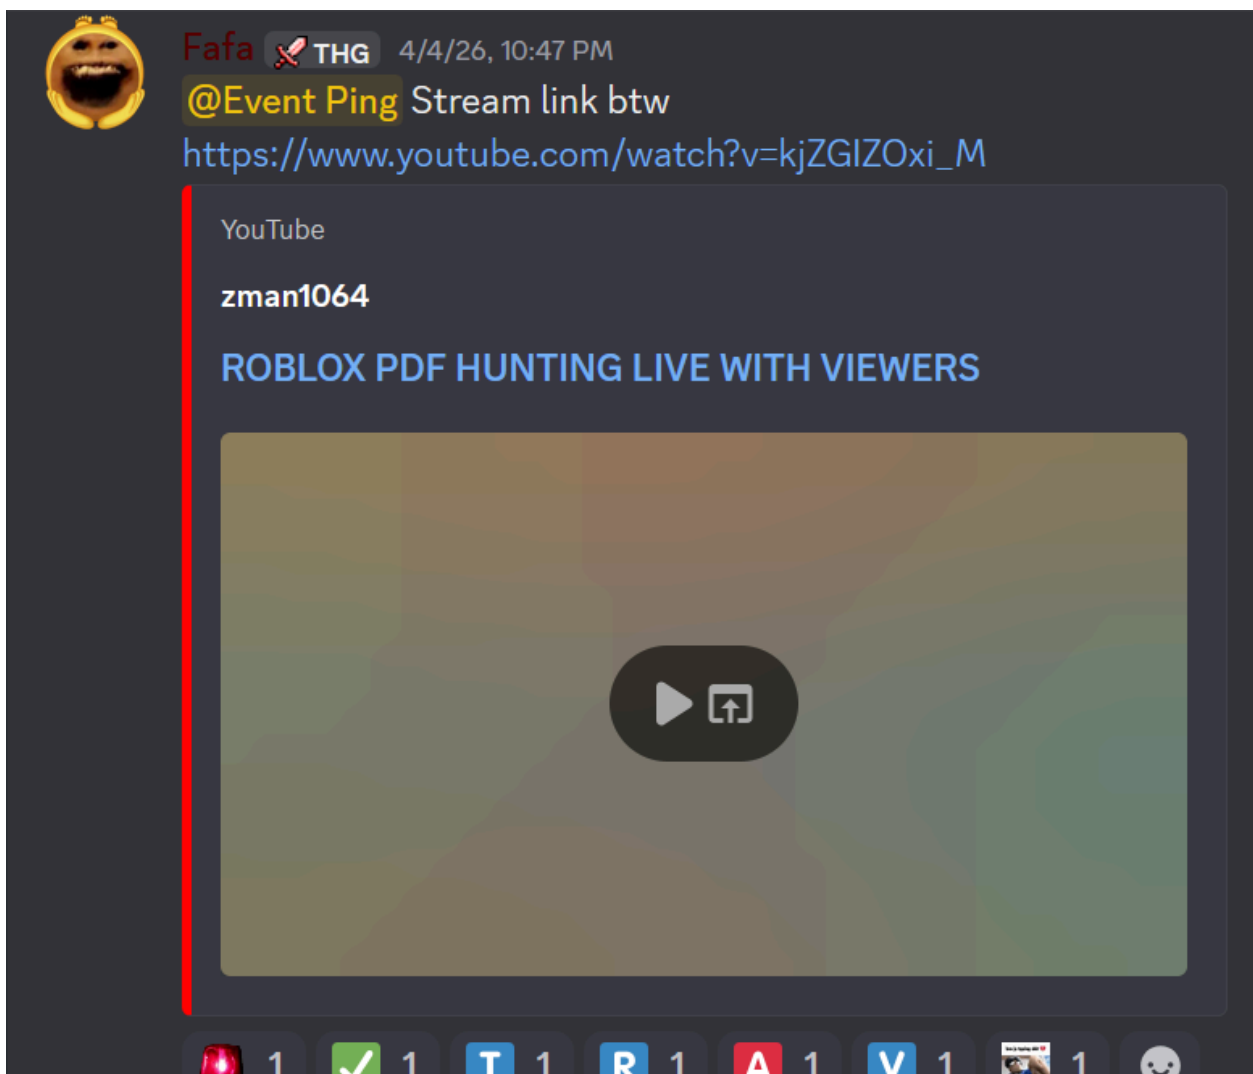

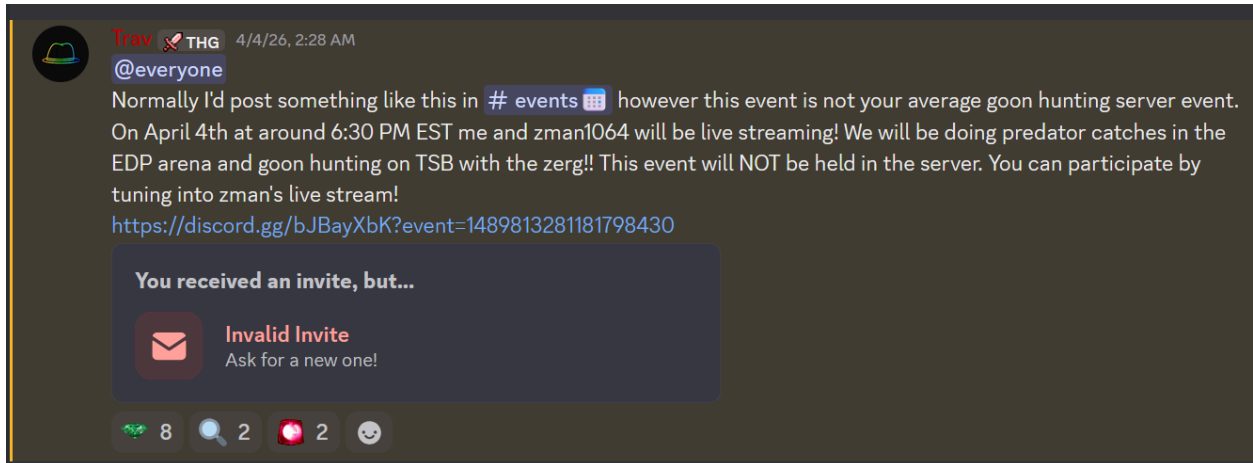

TravyTrav in announcement channels would use the situation to completely make fun of Duper's response being LARP.

Keep in mind, TravyTrav was present in Himpleton's Zman1064 interview live stream chat and these screenshots were taken hours apart.

Later on in 4th of April 2026 (15 days after Himpleton's interview and TheDuperTrooper's response video debunking his allegations), TravyTrav would make a collab stream with Zman1064 both announced on his server

(Trav's hunting grounds) and Zman's server, Unfortunately the stream wasn't archived.

@orion\_paxx This video was just a message to help explain why I was banned from Runker and MFD, as well as a warning to Trav and Ruben. There would have been no point in making it before I got banned. Although I have been gathering evidence on Trav for a while now, and considering making a video for a few months about that.

Ruben took the DMs between him and Trav and maliciously cropped it to make it look good for Trav's side and make it seem Trav was gathering evidence on Potemer instead of defending him. Ruben would also misrepresent Dukdolan's comment by stating "He wouldn't have cared if he wasn't banned" when that wasn't the case as Dukdolan stated that he was gathering evidence on Trav for a few months at that point.

The screenshot shows a tweet from user **ruben sim** (@realRubenSim) posted on Jan 11, 2025 at 12:48 AM UTC. The tweet text reads: "dukdolan, an adult, is now blackmailing a child with his personal info in his endless quest to harass trav". The tweet has 18 replies, 7 retweets, and 145 likes. Below the tweet are two replies. The first reply is from **Rafael Torres** (@RafaelT20797235) replying to @realRubenSim, asking "What the fuck is wrong with this dude?". The second reply is from **ruben sim** (@realRubenSim) replying to Rafael Torres, stating "he's mindbroken over me banning him from my discord server for obsessively stalking and harassing a mfd volunteer (trav)".

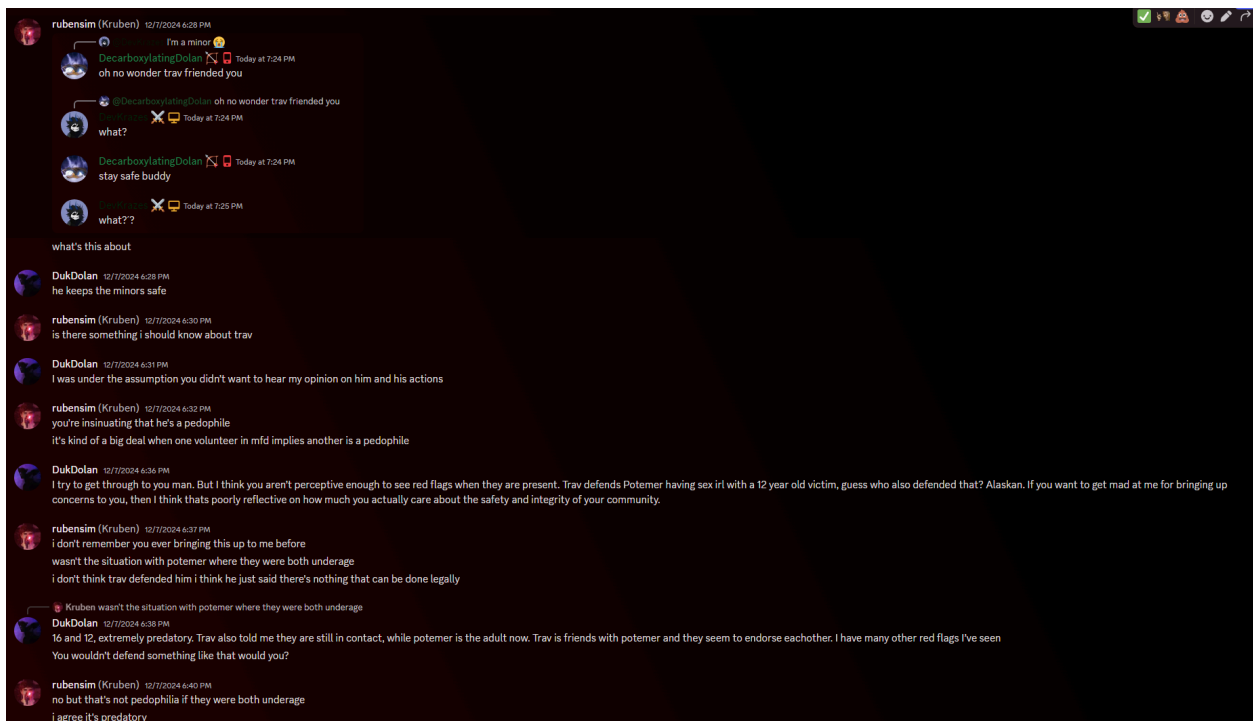

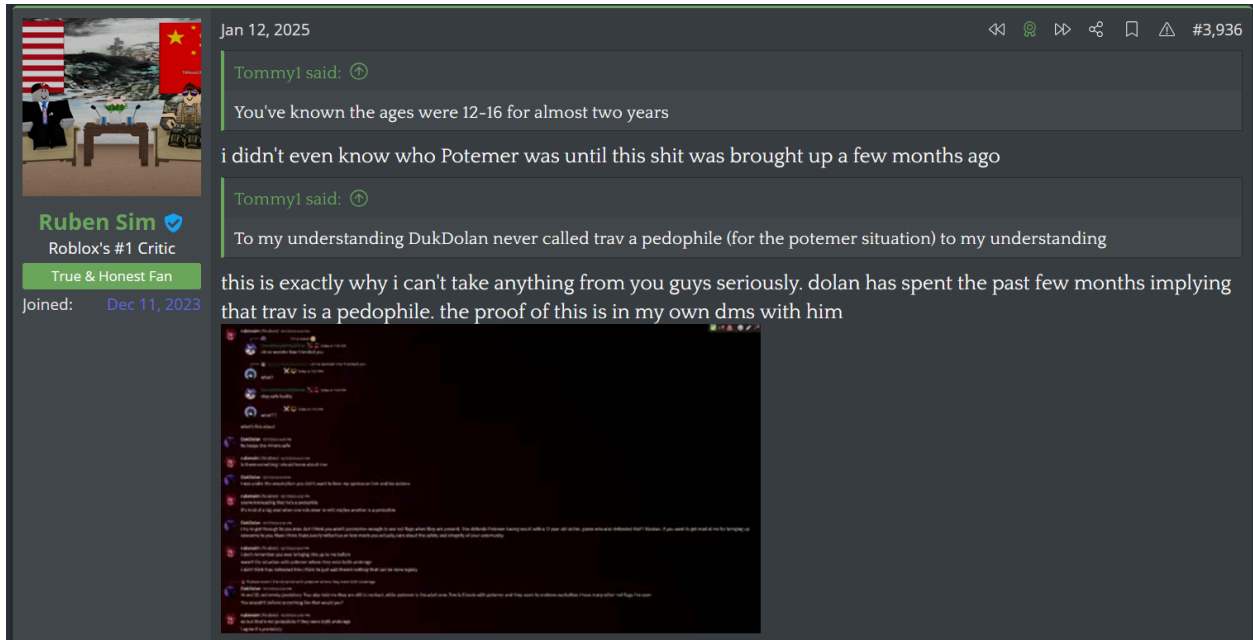

The screenshot shows a Discord chat conversation. The first message is from a user (redacted) stating: "I'm not joking around. This is a serious privacy issue. Under GDPR, as a minor, I have the right to control how my personal data is used, and I've clearly asked you to remove any mention of me. If you continue to ignore my request, I have no choice but to escalate this with YouTube and data protection authorities. Please take this seriously and remove my personal data from your content immediately." The second message is from **DukDolan** replying: "Join the vc or I won't remove it".

([Link of the tweet](#)) Ruben would spread false allegations against Dukdolan “Blackmailing a minor” during the release of Dukdolan’s [big video](#) that was later retracted by Devkrazes (the minor in question) and Travytrav

Ruben Sim once again crops the image out to play into Trav's side and make it seem like Trav was gathering info on potemer and was asking Ruben sim about it.

Ruben sim himself doesn't even deny of the ages back in December and he is seen not caring about Trav's own actions of defending and actively associating with Potemer

you, dolan and others in your friend group started harassing trav early last year, long before the potemer situation came to light. you guys even referred to this as "travposting". the trav jokes were funny at first, but after it escalated to doxing him, posting irl pictures of him, his highschool, and his school yearbook photos it stopped being funny. other server members and admins agree it's now annoying as fuck and are very tired of seeing the same group of people constantly stalk and harass him.

what's worse is that you would frequently try to recruit other people to join in on the harassment, both in mfd and runker. even the other volunteers in mfd picked up on this and threatened to leave if i didn't demote dolan (something dolan even mentioned in his video). even in his lower position as an erp account reviewer he continued to shit talk trav on a regular basis which is what led to his removal from the server. after being banned from mfd, he immediately went to runker to complain about trav to other server members. i confronted him about it and he tried to gaslight me as if he hasn't been obsessively posting and tweeting about trav almost every day for the better part of a year so i banned him. i let you stay at first but you used your mod perms to unban dolan so i banned you both.

at this point you're basically trav's personal captainargo24. your friend group has faked screenshots and messages from him and created a twitter account with his facedox impersonating him as some sort of sex pest porn addict. i'm convinced your ultimate goal is to get trav to kill himself because you think it'd be funny. every criticism dolan gave in his video could've been brought to me when the events actually took place but instead dolan kept quiet until it was time to expose trav in his video. this is because dolan doesn't actually give a shit about anything he says. all he cares about is ruining trav's reputation because of his autistic fixation on him. dolan even admits in the comments section of his vid that he never would've brought any of this up had he not been banned from runker

created a twitter account with his facedox impersonating him as some sort of sex pest porn addict. i'm convinced your ultimate goal is to get trav to kill himself because you think it'd be funny. every criticism dolan gave in his video could've been brought to me when the events actually took place but instead dolan kept quiet until it was time to expose trav in his video. this is because dolan doesn't actually give a shit about anything he says. all he cares about is ruining trav's reputation because of his autistic fixation on him. dolan even admits in the comments section of his vid that he never would've brought any of this up had he not been banned from runker

Ruben Sim provides no proof of redd having associated with Dukdolan and uses a triple-way guilt by association tactic to try and declare Dukdolan as an "Associate of a swatter" in an attempt to hurt Dukdolan's reputation.

I've talked to trav about this video, he's shown me proof and about 90% has been taken widely out of context or just is not true entirely. One out of many of the false claims Dukdolan made is, that him friending condo accounts is him participating in the condo community, but trav literally baits condo predators/owners and destroyed numerous high profile condo servers lol

Dukdolan (a 21 year old adult) hours before the release of this video blackmailed a minor who didn't wanna be featured in it, telling him to join a voice call (so they could harass him) or he was going to be in the vid. When he did not agree, he continued to harass him telling him to "turn off the pc" if he didn't like it.

The video was clearly made in bad faith, and I hope trav comes out about his side of the story.

Schlep went on Twitter to spread a false allegation of blackmail (This was discussed in the Ruben sim section) that was retracted by Travytrav and Devkrazes.

potemer was also lying to trav and changing up the story. when i first heard about it potemer was telling everyone it was a 2 year age gap but then parlo covered it and everything started to unravel.

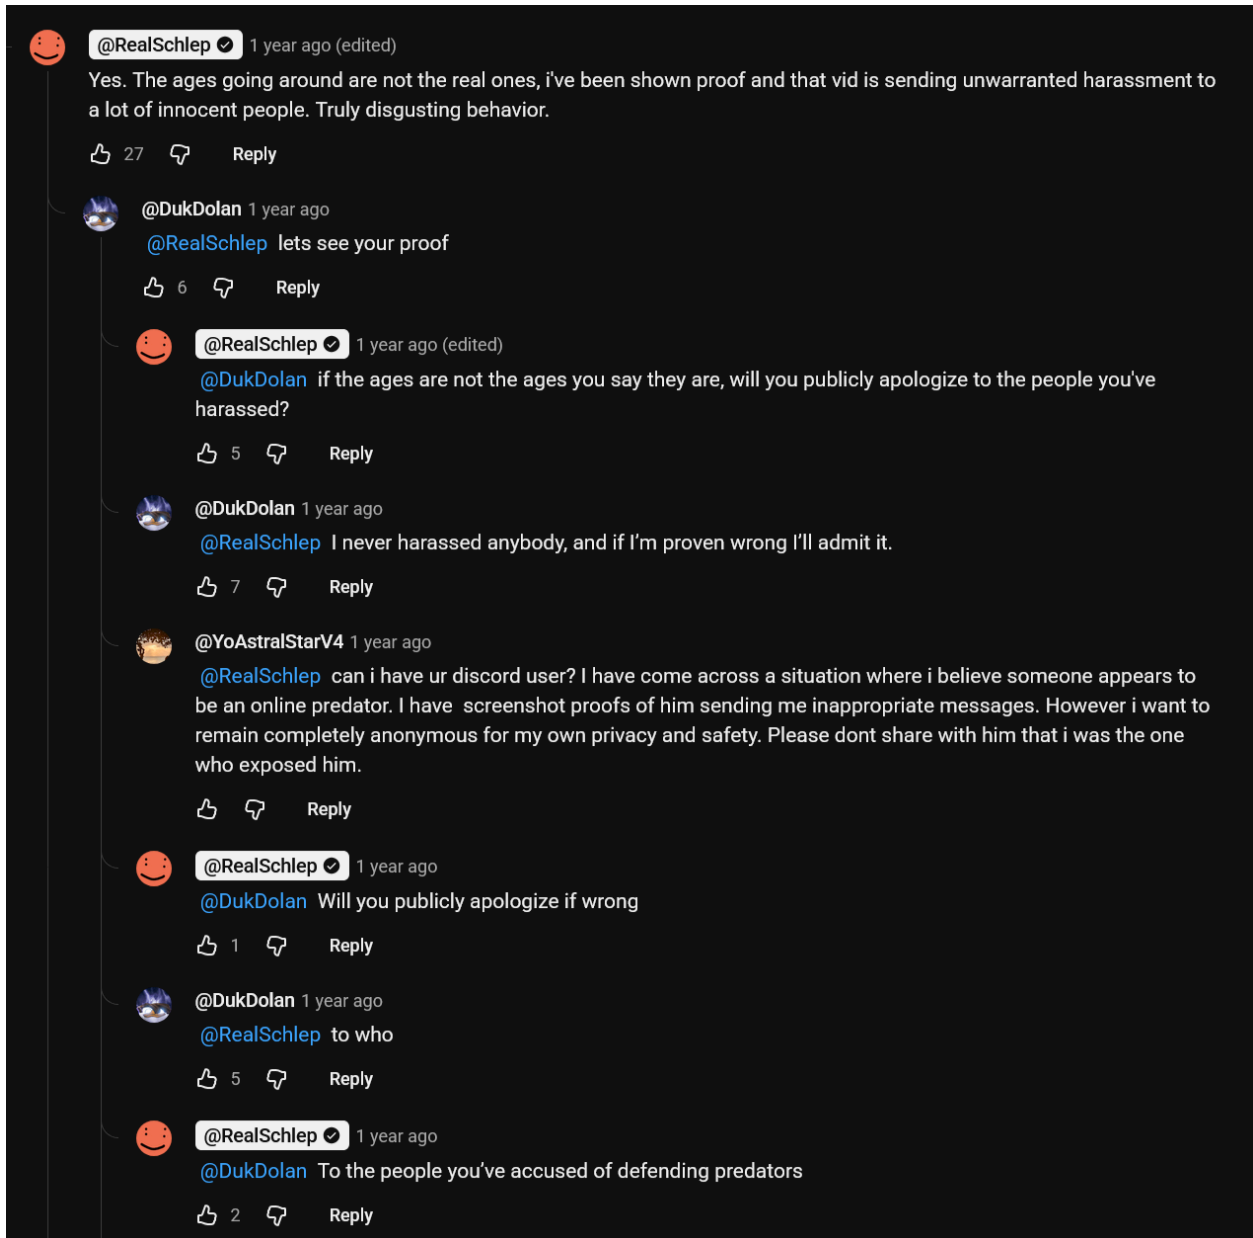

i don't like potemer, he wanted to animate for my vids and i told him to screw off

Schlep would go around telling people about Potemer “lying to Trav about 14 and 16” and “I’ve been shown proof of the ages” which is impossible considering Trav himself couldn’t prove Potemer and the victim were lying to him since according to him it was “in a deleted GC they tried to correct themselves”,

Schlep would credit TravyTrav in a video on the 23rd of March 2025 practically promoting his viewers to Trav.

A leaked screenshot from 7th of January 2026 shows Schlep still has Travytrav added.

Are you ever going to address how Travytrav, your friend sent porn to minors and you defended him by giving zero proof and just saying "90% is fake"

Allegedly, Schlep got another creator who makes predator catching videos named "Bossman69uk" to block 2 individuals asking him about Travytrav.

TravyTrav would take the opportunity to brag about how he works with Schlep and “Schlep actively supports me” on his discord server.

Allegedly from another user (colorcoded as Orange) who is censored since they have deleted their tweet, They used to be in GCs and were friends

with Schlep and attests Schlep taught Trav on how to take down Dukdolan's video when it first came out.

 DukDolan - The Molded One 5/8/25, 1:19 AM  
first time I heard of [redacted] it was because I called nathorix a pedo before it was commonly accepted, and he put my youtube comment in his video where he was defending nathorix  
and then I was later vindicated  
I wasn't even aware of [redacted] until he tried to make me look bad  
and then just recently in december or so he joined this discord  
apparently he watched my video about runker and wanted to talk with me  
basically he told me that he was making a "hit piece" on Potemer and wanted more info on what I knew about that situation  
I helped him out, but he also told me that he can't be seen talking to me because of "alliances" or something  
which I interpret as him, being impartial to certain people, and not criticizing them do to fear of getting criticized himself  
people such as Trav, Ruben, Potemer etc.  
He's really a snake and may turn on people at any moment  
if it gives him views anyway  
he sometimes does the right thing, for the wrong reasons  
another experience I had was him crashing out in my twitter dms because I liked a tweet criticizing him  
then he tried to question me, insult, and manipulate me  
so yeah [redacted] a retard at best

 DukDolan - The Molded One 7/6/25, 5:30 AM  
[redacted] joined this server a few months ago  
and spoke to me on vc, and the things he  
was saying seemed so corrupt, like he was  
talking about keeping his future video  
about potemer secret because he didn't  
want to mess up "alliances" and shit.  
  
who gives a fuck about an alliance if the  
guy touched a kid?  
  
same thing goes for how he didn't speak up  
about trav or schlep or anyone else who  
has lied or done bad things to the  
community

 DukDolan - The Molded One 2/2/25, 11:30 PM  
[redacted] has weird "alliances"

Alleged by Dukdolan: Orange spoke to Dukdolan on call and started ranting about there being alliances trying to cover up Potemer's own actions such as Trav, Schlep or Ruben sim and Orange wanted to keep their Potemer video a secret back in December 2024, They also state they didn't want to be seen talking to Dukdolan because of people watching the both of them.

## Conclusion

I hope this serves as a massive callout on Travytrav and his associates for having lied about everything to save face.

Travytrav had consistently lied about defending Potemer in so many different ways.

Travytrav lied about his drama with Dukdolan in February 2024 about Streaming condos in public VC and led people to believe it was “all just a mistake” when it was intentional and he had defended his own actions for it.

Travytrav would visit illegal links containing CSAM all to “report them to Roblox” when it was already known in a 150 page document (that he was a part of) Roblox had failed to take down multiple ERP accounts from multiple users around the world.

Travytrav and his associate Zman1064 defamed the Minecraft ‘antip2w’ Youtuber named “TheDuperTrooper” with a long list of false allegations (such as Blackmail, Association with IntelBroker, Extorting eTurbo, False striking DrDonut, and Doxxing) in a massive hitpiece reaching over 400 thousand views.
